1954

Lieutenant-Governor of the Province of Ontario.

Your Honour:

With all respect I submit to Your Honour my Report, as Minister of Education, for the year, 1954. The diversified services which the Department renders to the citizens of this Province are therein described in detail, showing, it will be generally agreed, a more than satisfactory development of our educational system. Nowadays almost all citizens are interested in Education, not only because the population of the Province is rapidly increasing but also because nearly everyone realizes how important it is that the young people of our day should be well prepared and well equipped to assume the duties and responsibilities of citizenship a few years hence.

Respectfully submitted,

Respectfully submitted,

Minister of Education.

October 6th, 1955.

PART I
GENERAL

Elementary Education

LEGISLATIVE GRANTS

The plan for distribution of the general legislative grants in 1954 was similar to that of the previous year, with the following minor differences.

- (1) Where a Board operated certain types of auxiliary class units, the maximum for determining the increased average daily attendance for grant purposes was increased from 10 to 30.
- (2) In order to qualify for the grant of \$300.00 for each former school section or former separate school area, a larger unit of administration had to consist of at least two former school sections or former separate school areas.
- (3) Where any part of the assessment of an urban municipality having a population of 2500 or more supported a school section, a larger unit of administration or a separate school area, the grant on approved cost for the Board concerned was determined on the basis of population.

LARGER UNITS OF ADMINISTRATION

During 1954, six new township school areas were formed and six former school sections were added to existing areas. Five established township school areas were dissolved. There are now 3527 former school sections in township school areas.

Six new union separate School Boards were formed in 1954. There are now 58 Boards for union separate schools in operation, replacing 166 Boards formerly administering schools.

As a result of an Act passed in 1953 to provide for the federation of the municipalities in the Toronto Metropolitan Area for certain financial and other purposes, Boards of Education were established in the Townships of North York and Scarborough. These Boards appointed their own supervisory officers, as did the Stamford District Board of Education. There are now 21 cities and larger units of administration in which the Boards, subject to the approval of the Minister, appoint their own supervisory officials. At the end of 1954, 58 officials were so employed.

TRANSPORTATION OF PUPILS

School Boards transported more pupils in the school year 1954-55 than in the previous year. Actually, Elementary School Boards operated 20 fewer routes with fewer vehicles but they carried more children. There were 40,644 pupils transported by Elementary School Boards to elementary schools, and 6,596 to secondary schools. The increase in the number of pupils who were transported to secondary school by Elementary School Boards was 148, a smaller increase than in the previous year. The increase in the number of elementary school pupils who were transported was 6,719. Both increases follow the pattern of the previous year.⁽¹⁾

CONSOLIDATION OF SCHOOLS ACTS IN 1954

Section 93 of The British North America Act assigns to each Province the right to make laws relating to education. By 1954, Ontario had in force twelve Acts dealing specifically with the educational programme for which the Province and local Boards were responsible. These Acts were The Adolescent School Attendance Act, The Auxiliary Classes Act, The Boards of Education Act, The Continuation

⁽¹⁾ For tables see p. 64. See also p. 10.

Schools Act, The Department of Education Act, The High Schools Act, The Public Schools Act, The School Attendance Act, The School Sites Act, The Separate Schools Act, The Teachers' Boards of Reference Act, and The Vocational Education Act. In addition, the Department of Education administers The Public Libraries Act, The Teachers' Superannuation Act, The Teaching Profession Act, The Trade Schools Regulations Act, and, more recently, The Ontario School Trustees' Council Act. In 1954 the provisions of the first twelve Acts named were consolidated into five Acts.

The Department of Education Act, 1954, sets forth the duties which the Legislature has placed on the Minister. His major responsibilities are

- (1) the training and certification of teachers for elementary and secondary schools;
- (2) the certification and appointment of school inspectors;
- (3) the definition of the course of study for Grade 13 and the defining, recommending, or permitting of courses of study from kindergarten to Grade 12;
- (4) the apportionment and distribution of legislative grants;
- (5) the operation of the Ontario Teachers' Colleges, the School for the Blind, the School for the Deaf, Ryerson Institute of Technology, the Provincial Institute of Trades and other Provincial Technical Institutes;
- (6) the making of necessary regulations;
- (7) the approval of text-books.

The Schools Administration Act, 1954, contains eight parts. The provisions of this Act apply generally to elementary and secondary schools. Part I deals with school terms and compulsory attendance. Part II concerns teachers. Part III provides for the School Trustees' and Teachers' Boards of Reference. Part IV outlines the duties and powers of Boards of Trustees. Part V provides for auxiliary classes. Part VI deals with school sites. Part VII provides for penalties for certain offences. Part VIII is a miscellaneous section.

The Secondary Schools and Boards of Education Act, 1954, is a consolidation of the former Continuation Schools Act, The High Schools Act, The Vocational Schools Act, and The Boards of Education Act. There is one part for each of the four former Acts. Part V contains those provisions that apply to secondary schools generally. The Public Schools Act and The Separate Schools Act were reduced by repealing those sections common to both which were included in The Schools Administration Act.

TEXT-BOOKS

In any educational programme the text-book is second in importance only to the teacher. The list of approved text-books issued each year (Circular 14) contains what are considered to be the best text-books available. As text-books are no longer authorized, and as the approval is not given for a definite period, a book can be dropped from the list at any time should it prove to be unsatisfactory or should a better book in the subject become available.

In approving books it is the policy of the Department to give preference to books written by Canadian authors and produced in Canada. This policy, after being in operation for only a few years, has had the effect of encouraging a number of talented teachers to prepare text-books that are admirably suited to the needs of Ontario schools. More than 25% of the books listed in the 1954 issue of Circular 14 were prepared by Canadian authors.

Specially noteworthy are four text-books for the Social Studies course in Grade 5, which were presented to the Department for consideration during the year. No text-books had previously been available for this course. These books were all written by Ontario educators, one of whom is a Grade 5 teacher in a Public School.

A concern of all teachers has been the improvement in the course in English. A survey of the teaching of English in secondary schools was carried out during 1954 by the Secondary School Inspectors, and to assist in this survey, Dr. Percival Gurrey, formerly Professor of English at the Institute of Education, University of London, was added to the inspection staff for the Fall term. Dr. Gurrey also had an opportunity to observe the English courses in a number of elementary schools. During the survey the text-books in English composition were given close scrutiny, and it is felt that improvement in text-books dealing with this subject is required. Conversations have been held with the publishers of some of these books with a view to having revised editions prepared.

It was expected that a new Geography dealing with the continents of Europe and Asia would be available in 1954. The delay in the publication of this book is attributed by the publishers, in part, to the difficulty they have experienced in securing authentic information from countries behind the Iron Curtain. It is anticipated, however, that this book will be available in 1955.

RAILWAY CAR SCHOOLS

In Northern Ontario there are children of railway section workers, of trappers, of lumbermen, and of others who are located in communities where there are not enough children for the organization of a regular school. The Department of Education provides for the education of many of these children at no cost in fees or school taxes to the parents, by arranging with the railway companies serving these areas for the operation of six railway car schools.

Each car has a classroom and an apartment for the teacher. The teacher is regularly qualified and is paid by the Department of Education, which also furnishes the teacher's apartment and provides all supplies needed in the classroom. The car schools have from two to five stops each, stay for a week at one stop, and then are moved to the next stop by the railway company.

The number of children at each stop varies from 3 to 17. These pupils attend school for the week during regular hours and then are given assignments for home study during the period when the car will be away.

During 1954, the railway car schools brought educational facilities to 145 children at 24 stops of the six schools, one on the Ontario Northland Railway, two on the Canadian Pacific Railway, and three on the Canadian National Railways.

NEW CONSTRUCTION

In 1954, new accommodation was provided for 55,965 pupils at an estimated cost of \$32,100,000. The volume of elementary school construction which these figures represent is the greatest which has ever been provided in any single year in this Province. During the period 1944 to 1954 inclusive, new accommodation has been provided at a cost of \$170,090,000.00 for 263,680 pupils, while the increase in enrolment has been 292,894 pupils.⁽²⁾

NEW SCHOOLS IN NEW COMMUNITIES

A considerable number of the new schools which have been constructed in the Province since 1945 have been erected in suburban areas adjacent to our large cities and towns. In many cases, complete new communities have sprung up on land which one or two years before had been farming or fruit-growing land, and have become residential areas for the larger urban municipalities.

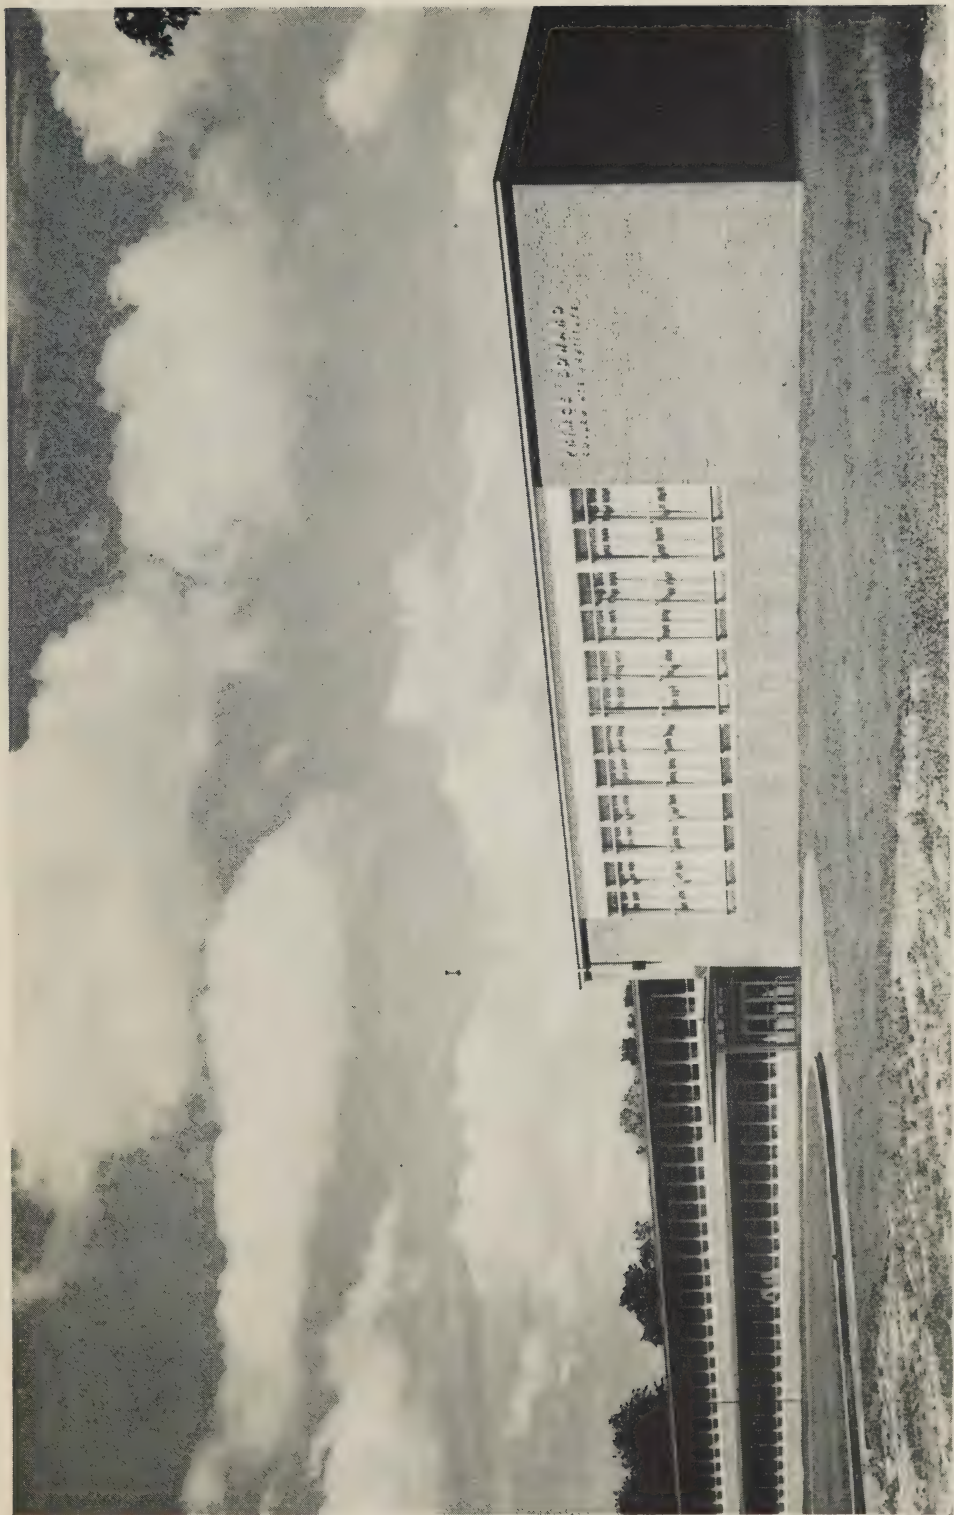

This growth has been rapid rather than gradual. The new school accommodation required has not been additions to existing buildings, but new schools where

⁽²⁾ See also p. 10.

JAMES HILLIER PUBLIC SCHOOL, BRANTFORD

Courtesy of Page and Steele, Architects

PRINCE EDWARD COLLEGIATE INSTITUTE, PICTON

no schools existed before. Boards which had jurisdiction for school purposes over these areas have been plunged overnight into the construction of new schools for newcomers to the vicinity.

The school population has come to these schools from many parts of our Province and from many educational systems across Canada, from the United States, and from other countries. The task of the teacher has been to integrate these pupils into an educational community which works harmoniously, while still giving assistance to individual pupils in particular problems in the method the pupils learned elsewhere.

Home and School Associations have been formed quickly, and have given the lead in building a community spirit in many new areas. School Boards have been eager to assist their new groups of taxpayers in organizing community activities. Their new schools have become the centres for religion as the use of the buildings has been made available to various denominations for Sunday meetings preliminary to the development of new churches in the community. The schools have also become cultural centres as worthy adult organizations have had their initial meetings for a variety of purposes in the new buildings.

SCHOOLS ESTABLISHED UNDER SECTION 66 OF THE PUBLIC SCHOOLS ACT

Shortly after the close of the war in 1945 a problem arose regarding the education of children whose families came to live in military camps and other establishments set up on Crown properties by the Government of Canada. This problem was met by the addition to The Public Schools Act of a section which became section 66 of the Act in its present form. This amendment gave the Minister authority to designate as a rural school section the whole or any portion of lands held by the Crown in right of Canada or Ontario, or any lands which are exempt from taxation for school purposes.

Fifty schools are now in operation under this section of the Act. Of these, 17 are in establishments of the Department of National Defence, 5 on establishments of the Hydro-Electric Power Commission of Ontario, one at the Atomic Energy townsite at Deep River. Sixty-five hundred children attended these schools during the year. In addition, 27 schools have been set up in sanatoria, cerebral palsy centres, and similar institutions, and in them approximately 1500 children are being educated.

Where a school is maintained in a Crown establishment, the Department of Education pays a grant of 50% of the approved cost, exclusive of capital expenditures. Where the Board operates a school in a sanatorium, a hospital, or a centre for the treatment of cerebral palsy the grant paid by the Department is 80% of instructional salaries. In addition, these schools receive the reimbursement grant for text-books and books of reference.

TRUSTEE ASSOCIATIONS

The interest that Boards of Trustees have in promoting and advancing the course of education in Ontario is strengthened and given positive direction when Boards are members of a trustee association. The following trustee associations were represented in the Ontario School Trustees' Council created by an Act of the Legislature in 1953, and were individually active in the promotion of the interests of their widely scattered members. 1. The Associated High School Boards of the Province of Ontario. 2. L'Association des Commissaires des Ecoles Bilingues d'Ontario. 3. The Ontario School Trustees' and Ratepayers' Association. 4. The Ontario Separate School Trustees' Association. 5. The Public School Trustees' Association of Ontario. 6. The Ontario Urban and Rural School Trustees' Association. 7. The Northern Ontario Public and Secondary School Trustees' Association.

THE EXHIBIT AT THE CANADIAN NATIONAL EXHIBITION

Four display machines, each equipped with thirty coloured slides depicting various aspects of the elementary and secondary schools and the other services of the Department, were kept in constant operation during the day and evening through the Exhibition. Historical collections of documents and materials from the Archives were viewed by many. Three films were shown in a theatre adjoining the main exhibit—"Royal Scotland", "Skippy and the Three R's", and "Life Along the Waterways". Many visitors to the Exhibition expressed their interest in the exhibit.

CEA-KELLOGG PROJECT

The 1954 short course sponsored by the CEA-Kellogg Project in Educational Leadership was held for three weeks in May, 1954, at the University of Alberta in Edmonton. With minor changes, the organization followed the pattern established for the pilot short course in May, 1953. While working toward better education for children in the schools, the 1954 short course was intended to serve four purposes:

- (1) To stimulate the intercommunication of educational ideas and practices between widely-separated areas in Canada, and to identify tentatively emerging principles of supervision and administration in a Canadian setting.
- (2) To provide an opportunity for further exploration of problems in educational administration and supervision which are of concern to members.
- (3) To provide an opportunity for individual members to form definite plans for later local action.
- (4) To provide members with an opportunity for gaining further understanding of the responsibilities and techniques of educational leadership.

Seventy delegates attended the course, including 62 inspectors and local superintendents from across Canada, 4 teachers, 2 trustees, and 2 city superintendents. Fourteen inspectors were from Ontario.

During the week of October 24, 1954, a second workshop was held at Laval University, in Quebec City. Thirty-five delegates attended this work conference, of whom eleven were from Ontario.

A detailed evaluation of the Project at the end of its third budget year has revealed a number of interesting features in Canadian education. These include:

- (1) increasingly widespread realization of the significance of the position of the superintendent in modern Canadian Education, necessitating both well-founded preparation and continuous in-service training for that position;
- (2) a trend toward a kind of leadership in which autocratic direction gives way to guidance and a more liberal sharing of responsibility;
- (3) the soundness of a co-operative Canada-wide approach for bringing the wealth of different Canadian experience to bear upon the various problems of superintendency;
- (4) a need for the continuance of interchange and collation of experience and theory in educational leadership in Canada.

Secondary Education

1. SECONDARY SCHOOLS

ENROLMENT

The rapid growth in the elementary school population which has occurred in recent years is now being reflected in a corresponding increase in the Secondary Schools. For the school year 1953-54 there were 115,399 pupils enrolled in the academic secondary schools and 33,275 in the vocational schools. This represents

an increase over the previous year's enrolment for both classes of schools, of 6,753 day-time students. The enrolment in evening vocational classes was 66,282 and for academic evening classes 12,056.

BUILDING PROGRAMME

The growth in enrolment entailed a continued expansion of the school building programme. During 1954 there were 57 building projects completed which provided accommodation for 13,800 secondary students at a total cost of nearly \$18,000,000. Of these 57 projects, twenty-seven were completely new schools and thirty were additions to existing buildings.

TRANSPORTATION

Boards of Secondary Schools provided transportation for more than 35,000 pupils, at a daily cost in 1954 slightly in excess of \$17,000. Approximately 1,300 routes were in operation involving a distance of 60,000 miles daily driving. Transportation for an additional 6,500 Secondary School pupils was provided by Boards of elementary schools.⁽³⁾

CURRICULUM

In September 1954 new or revised courses of study were introduced for most of the Grade XIII subjects. These revisions were made by curriculum committees composed of representatives of the Universities and the Department of Education. In carrying out their work the committees consulted representatives of various educational organizations as well as individual teachers. Suggestions and evaluations have been requested and in this way it is planned to keep the new courses continually under review.

Similarly vocational courses have been undergoing revision to keep them in line with the needs and practices of business and industry. In 1954 new Commercial courses and courses in Industrial Arts were introduced. Teachers, representatives of industry, and business men acting through local chapters of the National Office Management Association, all assisted in these revisions and will be continually consulted in further revisions. The work of these groups has also made possible a number of co-operative training programmes for senior pupils, combining practical experience and school work.

TEACHERS

There were 6,495 full-time teachers employed in Secondary Schools during the year 1953-54. Most of the schools were adequately staffed with properly certificated teachers but a number of Boards were obliged to engage teachers not fully qualified.

The emergency training plan for teachers of industrial subjects has been helpful in reducing the shortage in this field. Summer courses have provided training for special qualifications; for example 150 teachers were enrolled in commercial courses qualifying for elementary or intermediate or specialist certificates. But while these measures alleviate the situation in particular departments the fact remains that the number of Secondary School teachers qualifying annually at the Ontario College of Education has not been sufficient in recent years to overcome the losses to the profession and the increased requirements of the school system arising from the expanding school population.

⁽³⁾ See also p. 3 and tables on p. 64.

GRANTS

General legislative grants paid to academic Secondary Schools in the fiscal year 1953-54 amounted to \$15,381,066, an increase of almost one and one-quarter million dollars. Grants to vocational schools in the same period amounted to \$2,936,100. Under the Vocational Schools Assistance Agreement an amount of \$597,500 was received from the Federal Government. This was the fixed maximum payable towards maintenance expenditures, conditional upon the provincial contribution not falling below that figure. An amount of \$269,691 was also received as a final payment terminating the agreement with respect to capital expenditures.

The special grant paid to Boards on expenditures for approved text-books for Grades IX and X has enabled a great many schools to supply their pupils in these grades with most of the books they require.

TEACHING OF ENGLISH

Dr. P. Gurrey, the well-known authority on the teaching of English, was given a special appointment as a Secondary School Inspector, to visit schools and to assist teachers of English, during the period of September to December 1954. His conferences with teachers and inspectors and his demonstration lessons given in various parts of the Province proved to be most helpful to all concerned.

2. TECHNICAL INSTITUTES

Five Technical Institutes, strategically located to meet the needs of specialized industries, have been established within the last ten years, and in this time they have filled an urgent need for trained workers in the areas concerned. Close co-operation is maintained with industry with the help of Advisory Councils, and courses are constantly revised to keep pace with technical advances. Evening classes provide opportunities for regularly employed workers to improve their training and skills.

LAKEHEAD TECHNICAL INSTITUTE

The Lakehead Technical Institute at Port Arthur operates in three divisions. The Technical division offers two-year terminal courses, with extensive field training, in Forestry and Mining. The University division offers the first year in Arts, Applied Science, Commerce, Forestry, Forest Engineering, and Household Science courses from which students may transfer to universities of their choice. The special division offers academic courses at the post-secondary level in a night-school programme. The Northwestern Ontario Forestry Research Library is housed in the Institute.

PROVINCIAL INSTITUTE OF MINING

The Provincial Institute of Mining at Haileybury has been in operation for nine years, making an important contribution to the mining industry of Canada by providing technical personnel for engineering and survey departments of mines, for geological staffs, and for mine, mill, and smelter laboratories. The enrolment in September 1954 was 98.

PROVINCIAL INSTITUTE OF TEXTILES

The Provincial Institute of Textiles, Hamilton, graduated its fifth class in June 1954. The school provides both day and evening classes, its students being drawn from the textile industry in Hamilton and surrounding communities. Generous support is provided by the industry in machinery and raw materials and in encouragement and assistance to students. There is a continuing demand for graduates of the school.

PROVINCIAL INSTITUTE OF TRADES

The Provincial Institute of Trades at Toronto provides training for trades designated by the Department of Labour under The Apprenticeship Act, for a few non-designated trades, and for certain special requirements of the Royal Canadian Air Force in telecommunications.

RYERSON INSTITUTE OF TECHNOLOGY

The original aim of the Ryerson Institute of Technology at Toronto was to prepare its students to become engineering technicians. Although other courses have been added, the original courses—electrical and electronic technology, mechanical and metallurgical technology, chemical technology and architectural technology—continue to attract more than two-thirds of the enrolment. About 40% of the 1,654 day school students come from the Toronto metropolitan area. There were more than 5,000 students enrolled in extension or evening classes.

3. SPECIAL PROJECTS UNDER FEDERAL-PROVINCIAL AGREEMENTS

1. General

The Department of Education, Ontario and the Department of Labour (Canadian Vocational Training), Ottawa, are co-operating in special training programmes. The extent of Federal reimbursement, varies from 50% to 100% of the cost of these programmes.

(a) Rehabilitation of Disabled Persons

Disabled persons over sixteen years of age may be approved for suitable training for a maximum period of twelve months. Tuition, books, and some transportation charges are provided.

(b) Royal Canadian Air Force—Project No. 2

Special arrangements have been made for training up to 120 R.C.A.F. personnel in Telecommunications at the Provincial Institute of Trades.

2. The Defence Training Board

This board with representation from the services concerned was set up at the request of the Department of Labour at Ottawa to provide Civilian instructors for the Army and Air Force. Approximately seventy instructors are employed by the Board.

3. Supervisory Training

The Department of Education has instituted a programme of assistance to industry in the form of supervisory training services. These services, which had their genesis in wartime, have been modified to meet the needs of present-day industrial development.

Professional Training

TEACHERS' COLLEGE ENROLMENT

Two purposes underlay the reorganization in 1952 of the system of preparing teachers for the elementary schools—first, to improve teacher education, and second, to attract more recruits for the profession. The enrolment figures of

the Teachers' Colleges in the school year 1954-55 indicated that progress was being made towards these goals. The eight Colleges had a total of 2,692 students in attendance compared with a total of 1,732 in the previous year. The increase included 362 additional students in the One-year Course in which candidates are required to hold standing in eight Grade XIII papers, including at least one English paper.

The two new courses, which were established in the reorganization with a view to obtaining teachers from Grade XII graduates, also contributed to the higher enrolment. In the First Year of the Two-year Course, numbers increased from 314 to 391; 250 students enrolled in the Second Year which was offered for the first time in 1954-55. A total of 272 teachers who successfully attended the Pre-Teachers'-College Summer Courses in 1952 and 1953, and who taught on Temporary Certificates in the following school years, enrolled in the One-year Completing Course, which was also offered for the first time.⁽⁴⁾

At the Ontario College of Education, 518 students were enrolled in courses leading to the High School Assistant's, Library, Vocational, and Industrial Arts certificates. This figure was 48 above that of the previous year.⁽⁵⁾

COURSES OF STUDY

Two courses were offered at the Teachers' Colleges for the first time in the year 1954; the Second Year of the Two-year Course, and the Completing Course for teachers who had begun their preparation through summer courses. The professional programme in both of these courses was supplemented at Teachers' College by several units of general education chosen from English, history, geography, and psychology. The Second Year of the Two-year Course also offered the following professional subjects in addition to the usual programme: The School and the Community, History of Education, Children's Literature, and Audio-visual Education.

TEACHER SUPPLY

In the secondary schools there was a continuing shortage of teachers with special qualifications in commercial subjects, science and agriculture, home economics, and girls' physical education. Some relief in staffing in these fields was obtained by the granting of Letters of Standing to suitably qualified teachers from other Canadian provinces or from countries of the British Commonwealth.

Enrolment in the elementary schools of Ontario continued to increase. In September, 1954, there were 53,339 more pupils in these schools than in September, 1953. The employment of 1,728 additional teachers was necessary to serve the new classes thus created. This number added to normal replacements made the demand for teachers particularly heavy. Students graduating from Teachers' Colleges and the Pre-Teachers'-College Summer Courses met the need in part. Their numbers were supplemented by teachers entering the Province from other educational systems in Canada or the British Isles. In this connection an official of the Department of Education visited Great Britain and Ireland in the spring and assisted more than a hundred teachers to find employment in Ontario.

A total of 623 Letters of Standing valid for teaching for one year in the elementary schools was issued during 1954 to teachers of acceptable training and academic education from school systems outside Ontario. These Letters are exchangeable for Ontario certificates upon evidence that the year of teaching in this Province has been successful. In addition, 676 Letters of Permission were issued by December 1954, for the school year 1954-55, to Boards of Trustees unable to secure the services of certificated teachers. Of the teachers employed under Letters of Permission, 380 had some professional training.

(4) For tables see p. 51.

(5) For tables see p. 51.

TORONTO TEACHERS' COLLEGE

The corner-stone of the new building on Carlaw Avenue for the Toronto Teachers' College was laid on September 2, 1954. The new building came into use in September, 1955 and will be officially opened in January, 1956.

Schools Attended by French-speaking Pupils

TEACHER-SUPPLY

In 1953-54 there were 175 teachers-in-training at the University of Ottawa Normal School, 11 of whom were enrolled in the First Class course and 164 in the Second Class course. As a result of the term and final examinations 9 students were awarded First Class certificates, and 139 obtained Second Class certificates.

There were in this school year 2,033 French-speaking teachers employed in the elementary schools. Of this number 1,732 or 85.2 percent held First or Second Class certificates.

SECONDARY SCHOOL CLASSES

The total enrolment of French-speaking students taking advanced French courses in secondary schools was 3,000.⁽⁶⁾

To give a more complete picture of the secondary school enrolment it should be added that besides the 3,000 students reported above there were 2,157 French-speaking pupils enrolled in Grade IX and Grade X classes of elementary schools and 2,340 French-speaking students attending inspected private secondary schools in Ontario. Inspected private schools may, on the recommendation of the Inspector, qualify for certain privileges in reporting the standing of their pupils.

ELEMENTARY SCHOOLS

There were 63,478 French-speaking pupils enrolled in June, 1954, in separate and public elementary schools, an increase of 3,902 over the preceding year. The total of 63,478 includes 2,157 students in Grade IX and Grade X classes in elementary schools, and 218 pupils in auxiliary classes.⁽⁷⁾

CORRESPONDENCE COURSES

June, 1954, completed the twelfth school year in which correspondence courses for French-speaking children of Ontario were given by the Department of Education. All the courses for pupils of Grade I to Grade VIII have been available since September, 1946.

A revision of the courses for the Primary and Junior Division (Grades I to VI) was partly completed during the year. Enrolment figures are shown in Part II of this report.⁽⁸⁾

⁽⁶⁾ For tables see p. 85.

⁽⁷⁾ For tables see p. 82.

⁽⁸⁾ For tables see p. 170.

Agriculture

ELEMENTARY SCHOOLS

The regulations of the Department of Education provide for instruction in Agriculture as an optional subject, but special grants are no longer paid for Agriculture classes in elementary schools. Where schools have not set up their own Courses of Study they may use the agricultural topics which are included in the Science courses in Circular Curriculum I.1., Outlines of Courses for Experimental Use, Intermediate Division.

SECONDARY SCHOOLS

Courses in Agricultural Science are optional with General Science and topics in Agriculture may be taken with Science courses in Grades IX to XII. Agriculture in this form is taken in 41 schools in Grades IX and X only and in 132 schools in Grades IX to XII. Agricultural Science only is taught in 68 schools.

There are now 99 schools in which departments of Agriculture have been formed and in which organized programmes in Agriculture have been undertaken. Such programmes provide for instruction in Agriculture in Grades IX and X and related courses in Shop Work for boys and Home Economics for girls.⁽⁹⁾

The number of pupils taking Agricultural Science was 45,367; there were 9,009 taking Agriculture. The number of pupils carrying on home projects in 1954 was 13,252.

TEACHER SUPPLY

Graduates of the Ontario Agricultural College who have taken teacher training at the Ontario College of Education, and teachers who have attended special summer courses, make up the body of instructors qualified to teach Agriculture. All schools with Departments of Agriculture and many of the smaller schools have teachers with these special qualifications.⁽¹⁰⁾

PRACTICAL WORK

The basic requirements for Agricultural Science include classroom and laboratory instruction, gardening and home projects. In many schools facilities are extended to include poultry houses, green-houses, colonies of bees and a special area for gardening and experimental plots. Pupils are encouraged to participate in related activities outside the school curriculum.

Art

RESEARCH AND PUBLICATIONS

A research project on Art Education during Adolescence was completed and the results were published during the year in a pamphlet with that title. This and other publications, Art and Crafts in the Schools of Ontario, Children and their Pictures, Art Education in the Kindergarten, and Art Education for Slow Learners have made useful contributions to the teaching of Art both within the Province and elsewhere.

Saturday morning classes conducted for the purpose of studying the work of children with outstanding ability in Art were held at the Ryerson Institute of Technology from October to March.

⁽⁹⁾ For tables see p. 168.

⁽¹⁰⁾ For tables see p. 169.

SUPERVISION AND TRAINING

The programme of Art in Secondary schools was given special attention. All the schools at which general inspections were held were visited and their programmes in Art evaluated.

Meetings of elementary teachers were held in several inspectorates and workshops conducted in a number of rural areas.

The summer courses in Art were again attended by large numbers of enthusiastic teachers.

Audio-visual Education

SCHOOL BROADCASTS

A programme of ninety Ontario school broadcasts covering fourteen different school subjects was prepared for use in the elementary and secondary schools of the province. In addition, twenty-six school broadcasts were made available to Ontario schools through the courtesy of the British School Broadcasting System. All broadcasts were presented in co-operation with the Canadian Broadcasting Corporation over a network of twenty-seven radio stations.

Radio manuals outlining the broadcasts were distributed to all Ontario teachers in September. Evaluation surveys were conducted to test the effectiveness of the broadcasts.

FILM SERVICE

Films from the Visual Education library were lent to schools and were shown on 144,208 occasions to a total school audience of 7,790,162 students during the school year. Sixty-seven new film titles were added to the library, and additional prints of films used most frequently were purchased as required. Fifty-one additional schools registered sound projectors with the film library for regular service. The Visual Education Branch now has 8,069 prints of sound films available for use in Ontario schools. A second supplement to the Visual Education Catalogue was prepared during the year, and distributed to all Ontario schools registered with the Visual Education Branch for film service.

A summer course in Audio-Visual Aids was offered to help teachers to improve their classroom practice in the use of Audio-Visual techniques.

Auxiliary Education

Recognition of the school's obligation to provide a programme for those who differ from the normal as well as for the typical pupil has led to the expansion of Auxiliary Education services in this province. The socially or educationally mal-adjusted, the retarded, or the physically handicapped as well as the gifted pupils are assisted through programmes specially planned to meet their needs. Information, specialized knowledge, and guidance that may be helpful in modifying or supplementing the regular school programme are available to assist local officials in their efforts. Today over 20,000 pupils in this province are helped annually by 650 teachers trained in special education. Tables on page 78 show the extent of this work.

SERVICES

In addition to the auxiliary classes and units established in this province, special attention is given to those persons for whose education no other provision is made. Financial assistance is provided for the education of physically handicapped persons including the deaf-blind, the partially sighted, the cerebral-palsied, the brain injured, the paraplegic, the partially crippled, and certain patients in sanatoria, and in psychiatric and other hospitals. Approved correspondence courses, private tuition, training in special institutions, and necessary transportation are provided for the habilitation and rehabilitation of these persons. A lending library of six thousand sight-saving books is maintained and during the past year approximately two hundred and fifty pupils with limited vision were assisted by the use of these text-books printed in large type.

TEACHER SUPPLY

Teachers for special classes are drawn from the regular teaching staff after at least two years of classroom experience. In 1954, two hundred and twenty-two teachers attended the Auxiliary Education summer courses for special training leading to Elementary, Intermediate, Supervisor's and Specialist's Certificates.

RETARDED CHILDREN

Under the authority of the Department of Education Act and its regulations, assistance was provided toward the cost of education of children under eighteen years of age, whose mental capacity is incapable of development beyond that of a child of normal mentality at eight years of age. In December 1954 classes were being held by parents' groups affiliated with the Ontario Association for Retarded Children in the following twenty-four centres; Barrie, Brantford, Fort William, Galt, Hamilton, Kingston, Kirkland Lake, London, Newmarket, Niagara Falls, North Bay, Oakville, Oshawa, Owen Sound, Peterborough, St. Catharines, Sault Ste. Marie, Simcoe, Sudbury, Thornhill, Toronto, Welland, Windsor, York Township.

In the year 1954 the number of parents' groups to which grants were paid increased from eleven to twenty-four. The number of pupils enrolled increased from 260 to 560.

Correspondence Courses

COURSES

At the elementary school level correspondence courses are provided for both English and French-speaking pupils in all the subjects of Grades I-VIII. In addition courses for adults in English and Social Studies are available, covering the work of the senior elementary school grades. At the Secondary School level there are courses available in many of the subjects of Grades IX-XIII.⁽¹¹⁾

Changes during the year 1954 included major revisions of courses in Grades VII to X and the introduction of new courses in Chemistry and Latin for Grade XIII.

ENROLMENT

Five categories of students are now eligible for enrolment in free correspondence courses provided by the Department of Education. 1. Children between the ages of six and sixteen who are unable to attend school. 2. Persons of sixteen years or over who are unable to attend school. 3. Any person normally resident in Ontario

(11) For tables see p. 170.

but temporarily living outside Canada. 4. Any member of the Canadian Armed Services and his dependents when on duty outside Canada. 5. Certain students of Secondary Schools who are recommended for enrolment by their Principal and the Secondary School Inspector. This last category was added during the year to permit students to study subjects needed in grades XI, XII or XIII but not available in their schools. In certain circumstances copies of correspondence courses are provided as teaching aids for elementary teachers assisting pupils with more advanced work.

At December 31, 1954 there were 762 students enrolled in elementary school courses, including 73 in bilingual courses, and 130 adults. At the same time there were 1,240 persons enrolled in Secondary courses.⁽¹²⁾

Courses went out to 309 persons from Ontario temporarily residing in other provinces or scattered all over the world, to 152 patients in sanatoria, and to 86 inmates of reform institutions in the province.

New groups added in 1954 included Grade IX and X pupils in three railway school cars, 40 students in Ontario Secondary Schools, and 20 students in schools operated by the Department of National Defence in England, France, Holland and Germany.

Examinations and Scholarships

DEPARTMENTAL EXAMINATIONS

Statistics showing the results of the Grade XIII and the Teachers' College examinations, as well as the number of Intermediate Certificates, Secondary School Graduation Diplomas, and Secondary School Honour Graduation Diplomas, will be found in Part II of this Report. (Page 112.)

For the first time in many years the actual marks obtained by candidates were shown on the Grade XIII certificates issued in 1954, in place of Honour and Proficiency standing. This change, which was made at the request of the University Matriculation Board, appears to have met with general approval.

STUDENT AID

(a) Dominion-Provincial Student-Aid Bursaries

The purpose of these bursaries is to assist students of adequate ability who are financially unable to continue their education. In 1943-44 when the first scholarships were established 192 applicants were awarded a total of \$45,950. In 1953-54 there were 1,536 awards to individual students and the total amount distributed was \$300,799. In the school year 1954-55 there were 1,798 awards totalling \$316,711.

(b) Transportation Assistance

The transportation subsidies provided by the Department of Education for persons who reside in the territorial districts and are enrolled in an eligible institution of university rank have now been in operation for eight years. In 1954 the sum of \$12,381.75 was paid to 621 students; of these 180 reside west and 441 east of Sault Ste. Marie.

(c) Scholarships for Study Outside Ontario

In 1954 the provision for an annual payment of \$6,000 out of the Consolidated Revenue Fund to provide four scholarships to residents of Ontario for the purpose of enabling them to carry on post-graduate study in France was broadened to include study anywhere outside Ontario.

⁽¹²⁾ For tables see p. 170.

For the school year 1954-55, the two holders of these scholarships were Miss Emma L. McKinnon, Central Collegiate Institute, Oshawa and Miss Kathleen W. Russell, High School, Sudbury.

INTERCHANGE OF TEACHERS

Interchange of teachers is encouraged as a means of maintaining Commonwealth unity, of promoting national and international good-will and understanding, and of broadening teachers' interests and their knowledge of educational methods.

For the school year 1954-55 thirty exchanges were arranged, twenty-four with the British Isles, and six with other provinces. During the year considerable public attention was focussed upon the financial difficulties of British teachers who come to Canada on exchange. As a result it appears likely that in future years Ontario teachers who wish to go on exchange to the British Isles may be required to agree to give some financial assistance to their exchanges.

Guidance

GUIDANCE SERVICES

In the past ten years schools have been encouraged and assisted to provide organized guidance services. The only compulsory feature has been the required provision of two periods per week for group work in Grade IX, and yet Guidance is now quite generally accepted as an essential part of the educational programme. Individual counselling and the development of a system of individual pupil records, the maintenance of adequate files of occupational information, and the development of pupil placement services are guidance activities to be found today in most schools.

TRAINING

One hundred and twenty-six teachers attended the summer courses in Guidance in 1954. While this represented an increase of 24 over the previous year there was still a shortage of trained counsellors. A number of in-service training courses for guidance workers were provided during the year, in addition to the regular school visits by members of the Guidance branch. An increasing number of these visits are made at the request of the schools concerned and the time may not be too far distant when most of the field activities of the branch will be in response to requests for advice and assistance, rather than for the purpose of official inspections.

RADIO BROADCASTS

A series of six radio broadcasts entitled "Planning for Tomorrow" was presented during the fall term in co-operation with the Canadian Broadcasting Corporation.

Music

INSTRUCTION

Courses in Music under qualified music teachers were offered in more than 80% of the elementary schools of the Province.⁽¹³⁾ Similarly 354 secondary schools provided music courses. There were 277 school choirs, 87 bands and 87 orchestras in these secondary schools and 42 operas were performed during the year.⁽¹⁴⁾

⁽¹³⁾ For tables see p. 169.

⁽¹⁴⁾ For tables see p. 169.

TEACHERS AND TRAINING

There were 836 certificated teachers and supervisors of Music engaged in the elementary schools and 252 in the secondary schools. Music is taught to all the students in the Teachers' Colleges and in addition 476 teachers enrolled for the Summer Courses in Music in 1954. Ten different courses in vocal and instrumental music were offered.

MUSIC OPTION

Music is one of the optional subjects in Secondary Schools. Pupils may obtain standing through a school course, if one is offered, or they may obtain equivalent standing by submitting certificates from the Royal Conservatory of Music, Toronto, or other accredited examining body. In 1954 Grade XII standing was achieved by 1,189 pupils. Credit in Music toward a Secondary School Honour Graduation Diploma was obtained by 519 pupils from 167 schools who presented equivalent certificates and by 136 pupils who passed the Departmental Examination in Music of Grade XIII.

RADIO

During January, February and March the Department of Education, in co-operation with the Canadian Broadcasting Corporation, presented twenty-five music broadcasts for schools in Four Series,—'Primary School Music', five fifteen-minute programmes for Grades 1-3; 'Junior School Music', five fifteen-minute programmes for Grades 4-6; 'Music for Young Folk', ten thirty-minute programmes for Grades 7 to 10; and 'Ontario Sings', five fifteen-minute broadcasts by school choirs from different parts of the Province. For all these broadcasts the commentary was prepared and given by the provincial Director of Music.

CONCERTS

To bring live music of high quality to Secondary School pupils in smaller communities, and to encourage young artists who are for the most part graduates of Ontario Schools, the Department of Education has arranged concert tours through the province. In nine years 946 concerts have been given by 247 artists. In 1953-54 64 artists provided 96 concerts in 40 towns in Ontario.

School Attendance

COMPULSORY ATTENDANCE

Prior to the passing of The Schools Administration Act 1954 attendance at school was compulsory between the ages of eight and sixteen. Under the new act the period of compulsory attendance is more specifically defined as from the first school day in September, on or before which the child attains the age of six years, until the last school day in June in the year in which he attains the age of sixteen years.

ENROLMENT

The total enrolment of all schools of the provincial system for the school year 1953-54 was 933,104, an increase of 54,901 over the preceding year. The elementary schools showed an increase of 48,172, and the secondary schools 6,729.

The number of public and separate schools in operation was 6,925 with a percentage attendance of 93.6%. There were 369 secondary schools and their average percentage attendance was 95%.⁽¹⁵⁾

EMPLOYMENT

The number of school children's employment certificates issued during the year 1954 was 530. The issuing of these certificates was discontinued in September. Home permit and employment certificates now serve for all pupils of compulsory school age. These may not be issued for more than six weeks in a term to a child under fourteen years of age.

The number of home permits issued was 1,280 an increase of 143 over 1953 and the number of employment certificates issued was 2,800, a decrease of 1,410. This decrease may be attributed in part to the employment situation and in part to the change in the definition of the compulsory attendance period referred to above.⁽¹⁶⁾

Physical and Health Education

SCHOOL PROGRAMME

The demand for improved programmes of Physical and Health Education in the elementary schools has led to an increased attendance at summer school courses. Some urban centres have shown a desire to develop improved courses by conducting their own in-service training programmes. Workshops have been held in a number of centres. New experimental courses have been tried out in the senior grades of secondary schools and have been found generally acceptable.

CAMP PROGRAMME

Ontario Athletic Leadership Camp

More than 400 secondary school boys and girls attended this camp, which is intended to train pupils to assist in the work of their own schools. The work of the camp is carefully planned to use athletics and camp activities to develop organizing ability and leadership skills and a sense of responsibility, co-operation and self-confidence.

Ontario Camp Leadership Centre

This camp is planned to develop counsellors for non-profit camps. Any non-profit camp in the Province may nominate a representative who, after training, is expected to give some service to that camp. There were 240 graduates of the three-weeks course and instruction was given in nature lore, water safety, camp crafts, and other activities. Members of the camp staff by field visits follow up the work of the counsellors and evaluate the effectiveness of the course.

In addition to this service in training counsellors, grants are paid to more than 300 non-profit camps in the Province. The amount so distributed is in excess of \$40,000.

Community Programmes

SERVICES

A special branch of the Department of Education is organized to assist communities in the provision of programmes of recreation and adult education. This branch works in co-operation with municipal recreation committees, School Boards

⁽¹⁵⁾ For tables see p. 70.

⁽¹⁶⁾ For tables see p. 70.

and other organizations. Field representatives, acting as consultants for their areas, are stationed at Fort William, North Bay, Ottawa, Belleville, Toronto, Oakville, Hamilton, London, and Hanover. Special advisers on the central staff are available to give assistance in Art, Crafts, Puppetry, Recreation Facilities, Social Recreation and Gerontology. Loan services are provided for films, dramatic scripts, musical scores and reference books.

ANNUAL GRANTS

Under the Regulations of the Department of Education grants were paid in 1954 to 170 municipal councils amounting to \$287,300. These grants were based on programme leadership, operation and maintenance costs, and museum operation. In addition a number of special grants were made to organizations carrying on significant province-wide programmes of a recreational or cultural character.

LEADERSHIP TRAINING

A three-year course of in-service training leads to certification as Municipal Recreation Directors. This training was provided by the Community Programmes branch from 1951 to 1954 and thirteen persons completed the course in that year. The operation of the course was taken over by the University of Western Ontario on January 1, 1955.

Summer courses to train instructors in Art, Crafts and Drama were held at Hamilton and Guelph. Courses for Playground supervisors were given at several centres and also a number of special leadership courses and forums.

CITIZENSHIP EDUCATION

Work with newcomers to Canada is carried on by the Community Programmes branch in co-operation with School Boards or voluntary groups or directly in classes operated by the branch. Training is given in the use of the English language; classes are held in the history, geography and government of Canada; and assistance is provided for group projects or activities related to the integration of newcomers into Canadian ways.

Public Libraries

BUILDINGS

A new and completely furnished library building, the gift of Colonel R. S. McLaughlin, was opened in Oshawa on December 1, 1954. It is a creation of outstanding architectural beauty and functional design, marking a high point in Canadian library construction.

Long Branch, with a population of 9,000, opened its first proper library building, erected at a cost of \$40,000. Milverton, with only 1,000 people, spent \$4,500 on the re-designing and renovation of an obsolete Carnegie building. New Toronto has added a new wing to its library at a cost of \$43,000. Trenton has a new building in attractive surroundings, and the Welland County Library Co-operative has completed its new centre near St. Catharines.

It is estimated that since 1946 more than \$3,700,000 has been spent throughout the Province on new buildings, and the improvement of older ones.

Another bookmobile service has been established, to operate in North York in the Toronto Metropolitan area.

GRANTS

Legislative grants paid to public, county, and association libraries in 1954 amounted to \$800,000, an increase of \$65,000 over the preceding year. Better support given to the local library service by the municipalities earned increased grants in many cases.⁽¹⁹⁾

EXPENDITURES

At the end of 1954, there were 77 public libraries which were receiving between 80 cents and \$1.00 per capita from municipal councils under the Public Library rate; 34 were receiving up to \$1.50 per capita and eight received more than \$1.50. The average Public Library rate was 82 cents per capita. The total expenditure on library service was \$4,318,500, an increase of \$228,000 over 1953. Expenditures on salaries totalled \$2,201,800, and on books \$795,500.

SERVICES

There were, in 1954, 242 public libraries, 239 library associations, 49 branch libraries and 14 county or district library co-operatives in the Province, a total of 544 library service agencies.

One public and three association libraries were established, one public library was revived after years of inactivity, and seven library associations became public libraries. There is significant and steady progress in this latter movement in which library associations are changing their status to public libraries supported by municipal taxation and are thus enabled to give improved service.

The use of books, indicated by library circulation figures, has again shown an increase despite the tremendous and growing impact of television programmes. The increase for the year is 425,000.

TRAVELLING LIBRARIES

The use of the Travelling Library service continues to increase. In achieving this the interest of the inspectors of rural schools, and the promotional work of the librarian have been most effective. The increase in circulation is the more remarkable in that 12 counties and one district which formerly depended on Travelling Library services are now organized in library co-operatives of their own.

Altogether 1,515 cases of books were distributed in 1954; of these 1,194 went to rural schools whose pupils are not within reach of public or county library service. Only 51 cases went to secondary schools; 149 went to small libraries, 28 to Women's Institutes, 44 to Farm Forum groups, and 44 to other organizations. From these boxes records show that 75,000 books were read by individuals.

Public Records and Archives

MANUSCRIPT DIVISION

Among the acquisitions during the year there were several series of Ontario Government records. These included:

- (1) Prime Minister's Department—General correspondence, minutes, memoranda, &c. of Prime Ministers E. C. Drury, Howard Ferguson and G. S. Henry. These have been acquired by the Archives and have been inventoried, but, because many persons mentioned are still living, they will not be made available to the public for some years.

⁽¹⁹⁾ For tables see p. 143.

- (2) Department of Education—(a) Files of incoming correspondence of the Superintendent of Education and the Ministers of Education (1864-1883); (b) Local superintendents and trustees' reports (1855-75); (c) meteorological records (1866-69); (d) school accounts (1860-80).
 - (3) Department of Labour—(a) General correspondence files of the Chief Conciliator (1942-48); (b) Miscellaneous records of the Athletic Commissioner (1924-51); (c) Miscellaneous case files of the Industry and Labour Board (1937-47); (d) Miscellaneous case files of the Factory Inspection Branch (1930-46).
 - (4) Provincial Secretary's Department—General correspondence files of the Provincial Secretary (Hon. W. J. Hanna) (1906-14).
 - (5) Department of the Attorney General—General correspondence files of the Department (1892-96).
 - (6) Department of Travel and Publicity—General correspondence files and case files of the Head Office and Toronto Branch of the Ontario Rentals Administration (1951-54).
- Other manuscripts collections were acquired including:
- (1) The T. L. Church papers (1915-49).
 - (2) The diary of Fanny Marion Chadwick, a Toronto resident and amateur playwright (1892-1904).
 - (3) The diary of Eli Playter, a pioneer politician, land agent, and militia officer (1801-53)
 - (4) The journals of Angus Mackintosh, an early traveller in the Western and Home Districts (1813-14). (Copy)
 - (5) The diary of David Nelson, a farmer in Otonabee Township (1864-86). (Typescript copy)
 - (6) Diary of Simeon Reesor, Markham Township. (Microfilm)
 - (7) Additional manuscripts dealing with T. C. Patteson, editor of the *Mail*.
 - (8) Thirteen Tweedsmuir Histories, compiled by branches of the Women's Institutes. (Microfilm copies)
 - (9) A number of single manuscripts dealing with various subjects. Among these are two interesting early letters written by R. B. (later the Hon. R. B.) Sullivan.

One of the most important acquisitions made during the year is a microfilm copy of three series of manuscript records (dealing with this Province) of the Governor-General's Office, the originals of which are in the Public Archives of Canada. Dr. Kaye Lamb, the Dominion Archivist, very kindly gave permission for some of the records dealing with the early history of the Province to be micro-filmed by us, and in September our photographer took our camera to Ottawa and microfilmed:

- (1) Some despatches from the Colonial Office, 1794-1836 (3 vol.).
- (2) Despatches from the Lieutenant-Governors of Upper Canada to the Governors-General, 1821, 1839-41 (4 vol.).
- (3) Letter-books, Upper Canada, 1793-1841
 - (a) Lieutenant-Governor's internal letter-books, 1805-6, 1818-41, (6 vol.).
 - (b) Correspondence with the British Treasury, 1783-1834 (7 vol.).
 - (c) Civil Secretary's letter-books, 1790-1840 (52 vol.). These are the letter-books kept by the secretaries of the Lieutenant-Governors of Upper Canada. The correspondence was principally with the officials and individuals in the Colony.

The following inventories of materials acquired were completed during the year:

- (1) Records of the Prime Minister's Department (in our possession);
- (2) Papers of the Honourable William Dickson, founder of the Dumfries Township settlement;

- (3) The Francis Shanly Collection of railways material;
- (4) Preliminary listing of the Canada Company Papers;
- (5) Preliminary listing of the Percy Robinson Papers;
- (6) Inventory of microfilms from Ottawa mentioned above.

THE LIBRARY

During the year the cataloguing of government documents was completed. Catalogue cards have been made for historical articles in the *Canadian Journal*, as well as for those in the publications of the Ontario Historical Society. Books, government publications, and pamphlets acquired during the year have been catalogued. A beginning has been made in recataloguing our large pamphlet collection so that the catalogue cards of all our printed material are placed together.

A valuable addition to our collection of Canadian newspapers is the recent gift by Professor F. H. Underhill of *The Weekly and Farmers' Sun* for the period 1892-1921. Being the official organ of the U.F.O., this newspaper affords the reader a good description of the agrarian movement in this province. The W. L. Mackenzie Papers, received in 1953 from Colonel Charles Lindsay, contain a considerable number of rare newspapers. Some of these are early American and should prove interesting and useful to students of United States' history. Other newspapers in the collection help to complete our files of early Ontario newspapers. During the year the Archives commenced work on a card catalogue of its newspapers. The catalogue, when completed, will greatly facilitate the gathering of material by persons interested in the early history of Ontario.

The following maps and pictures were acquired during the year:

- (1) Lambton County Atlas (1880).
- (2) Thirty-five photostats of rare sixteenth, eighteenth and nineteenth century maps in the possession of Dr. A. E. MacDonald.
- (3) Six marine charts of Lake Superior surveyed by Admiral Bayfield; photostats of Bayfield's St. Lawrence charts.
- (4) Thirty-seven photographs, including various members of the Denison family; unusual photographs of Sir John A. Macdonald and Sir Wilfrid Laurier; photographs of the Denison house and grounds were presented by Colonel Denison's daughter, Mrs. J. W. Langmuir; nineteen photographs of the Lake Nipigon area in 1888 were presented by the Library of the University of Western Ontario.

Trade Schools

REGISTRATIONS

Applications for licenses under the Trade Schools Regulation Act were received from 130 schools in 1954. Seven of these were for new schools, offering courses in Commercial Art, Welding, Business, Drafting, and Television Servicing. It is worth noting that two trade schools previously registered added Television Service training to their curriculum to meet the demand for technicians in this rapidly expanding industry.

The registered Trade Schools offered 81 different courses of study which were available in day or evening classes, by correspondence, or by a combination of classroom attendance and home study assignments.

Four Trade Schools discontinued operations during the year. Two of these were schools of dressmaking, one was a business college, and the fourth a school of dramatic art.

ENROLMENT

The total enrolment in registered Trade Schools in 1954 was in excess of 26,000. Approximately 50% of this number would normally complete their training within 12 months of the date of enrolment.

Ontario School for the Blind

ENROLMENT

There were 194 pupils enrolled during the school year 1954-55.⁽²⁰⁾ Ten withdrew during the year and the enrolment in June 1955 was 184. Of these 99 were boys. As usual, students were received at the school from the Western provinces, 23 from Alberta, 14 from Saskatchewan, and 26 from Manitoba.

PROGRAMME

The school programme was well balanced, the academic work and physical activities receiving proper attention. At the same time the musical programme which has always played an important part in the work of the School for the Blind was carried on most successfully. Performances of "H.M.S. Pinafore" were given in Brantford and Toronto. Graduates of the school continue to achieve successes in musical and academic fields.

Ontario School for the Deaf

ENROLMENT

The enrolment of the Ontario School for the Deaf, on September 15, 1954, was 377, an increase of five over that of the previous year. During the year it reached a record total of 380.⁽²¹⁾ Most of these children were profoundly deaf. Their hearing losses for the better ear, as determined by the use of a pure-tone audiometer, were as follows: 90-100 decibels, 222 pupils; 80-89 decibels, 50 pupils; 70-79 decibels, 48 pupils; 60-69 decibels, 36 pupils; 50-59 decibels, 15 pupils; less than 50 decibels, 6 pupils. These six pupils with hearing losses under 50 decibels were not only hard-of-hearing but lived in communities where special provision could not be made for their education.

PROGRAMME

Basic academic and vocational training formed the core of the school programme. Physical education and the annual participation in inter-school athletics with secondary schools of the district provided valuable social as well as physical training. School plays and pageants were presented to large audiences and the annual visiting day and display of work was attended by a large number of parents and friends.

Service Record

IN MEMORIAM

DAVID M. EAGLE passed away in Windsor on August 28. Mr. Eagle received his elementary education in Wellington County and his secondary education in Galt and Hamilton. He taught in the Galt Public Schools. He was principal of the

⁽²⁰⁾ For tables see p. 173.

⁽²¹⁾ For tables see p. 172.

English Model School in Windsor for six years, and later was on the staff of the Patterson Collegiate Institute. For twenty-three years Mr. Eagle was principal of the English-French Training School for the training of teachers for schools in which French is a subject of instruction by permission of the Minister. For eight years he was Public School Inspector for Essex County. Mr. Eagle took an active part in community affairs. He served as Alderman for the City of Windsor, as Reeve for the Town of Sandwich, and as Warden of Essex County in 1926. Mr. Eagle will long be remembered as a prominent churchman, business man, traveller, and educator.

GEORGE E. PENTLAND, M.A., who retired as Inspector of Public Schools in South Grey County in 1944, died on July 23, 1954, in Owen Sound and was buried in Hanover. He was born in Thornbury, Ontario, and was educated at Heathcote, Collingwood Collegiate Institute, Hamilton Normal School, and Queen's University. He started to teach in Collingwood Township at the age of sixteen, after a course at Model School. Later he taught in Plattsville and Norwich Continuation Schools, and Stratford Collegiate Institute. He graduated with First Class Honours in Mathematics from Queen's University, where he also secured his Master of Arts degree. Later he was principal of Thorold, Beamsville, and Williamstown High Schools, and Vankleek Hill Collegiate Institute. He served overseas in World War I. On his return in 1920 he became public school inspector in Frontenac North. Later he was transferred to Grey South. He was interested in the personal health and welfare of children. Mr. and Mrs. Pentland took many rural children into their home to attend school and provided them with food and clothing and a good opportunity for secondary school education. Many excursions of children to the C.N.E. were organized in his inspectorate. He will be remembered as a mathematical scholar and a friend of little children. He is survived by his wife and two sons.

JAMES H. SEXTON, M.A., who retired as Public School Inspector of Middlesex West, died in July, 1954, in Strathroy, at the age of 89. He was born in Leeds County, attended Brockville College and Queen's University. He earned the gold medal in biology and chemistry. His teaching career began in the public school in the Village of Elgin. He taught high school in Gananoque and Kingston. He served as principal of Campbellford, Kemptville, Athens High Schools, and Strathroy Collegiate Institute. Mr. Sexton was appointed Public School Inspector in February, 1923, and retired in 1938. He had a fine appreciation of literature and loved to recite the poems of Burns. His keen sense of humour and fine sense of justice secured for him the co-operation and respect of teachers and trustees. He is survived by two sons, Dwight and Beaumont, and one daughter, Ella.

WILLIAM F. SMITH, B.A., B.Paed., who retired as an Inspector of Public Schools for Peel County in 1944, died in Toronto on July 21. Mr. Smith was born in Elgin County, attended S.S. #10 Bayham, Vienna Continuation School, and St. Thomas Collegiate Institute. After a term in St. Thomas Model School, he taught public school in Toronto, St. Thomas, Tillsonburg and Saskatchewan. Later he taught high school in Tillsonburg, Brampton, and St. Mary's, and served as principal of Trenton High School. In 1933 he became Inspector of Public Schools for Simcoe North. From 1938 until 1944 he was Inspector of Public Schools in Peel County. He loved to teach children, and taught for a year after he retired as an inspector. His Boards co-operated with him and equipped the schools with better libraries and modern conveniences. His period of faithful service extended over forty-eight years. He was buried in Tillsonburg and is survived by his wife and daughter.

WESTLEY A. WILSON, B.A., retired Public School Inspector for the Cities of Port Arthur and Fort William, passed away on August 17 in Toronto, at the age of 81. Mr. Wilson was born at Beaverton. He graduated from Queen's University in 1897 and taught in the Gananoque High School. Later he became principal of Kenora High School.

In 1919 Mr. Wilson was appointed Public School Inspector for the Districts of Temiskaming and Cochrane. In 1925 he was transferred to the Lakehead. Mr. Wilson inspired his teachers to improve their academic and professional qualifi-

cations. Many inspectors and teachers will long remember him for his wise counsel and sympathetic guidance.

RETIREMENTS

FRANKLIN L. BARRETT, B.A., B.Paed., was born in the Town of St. Mary's and received his elementary and secondary education there. He attended the Stratford Normal School and taught in S.S. #7 East Nissouri and in the St. Mary's Public Schools. He served as principal of Brantwood Public School, Oakville. Mr. Barrett graduated from Western University in 1937 and two years later he was appointed supervising teacher in the County of Kent. In 1941 he became Public School Inspector for the County of Stormont, and was transferred to Kent County in 1946. He resigned on January 31 to accept the position of Senior Editor of Text-Books for Copp Clark Company, Limited. Mr. Barrett's outstanding scholarship, forceful personality, and able administrative qualities made him a most valued educator.

MISS E. GRACE CONOVER, M.A., B.S., Master in Health and Home Economics in the London Teachers' College, retired from that position in the autumn of 1954. Born in Peel County, Miss Conover received her secondary school education in Brampton, and then attended Macdonald Institute. She later studied Home Economics at Columbia University where she obtained the B.S. and M.A. degrees in that field. Her teaching experience included service on the staffs of Macdonald Institute, Weston Technical and High School, and the Ontario School for the Deaf, Belleville. In 1938 she was appointed to the Home Economics staff at the Toronto Normal and Normal-Model Schools. Four years later she transferred to the London Teachers' College where she became Dean of Women and head of the Home Economics department. Miss Conover's zeal and high qualifications enabled her to make a substantial contribution to teacher education. In her work she made many friends among students and associates, and they join in wishing her many years of well-earned leisure.

MISS L. HELEN DeLAPORTE, B.A., B.Paed., retired in January, 1954, completing over thirty years' service as Assistant Inspector of Auxiliary Classes in this Province. Miss DeLaporte was born in Toronto, attended its schools, and graduated in Arts and Pedagogy from the University of Toronto. After professional training at the Faculty of Education, she became a member of the staff of Lord Dufferin Public School. During World War I and the years following, she served at the College Street Military Hospital, specializing in Occupational Therapy and Mental Hygiene. In 1923 she was appointed Assistant Inspector of Auxiliary Classes, the position which she held at her retirement. During her thirty years with the Auxiliary Classes Branch, Miss DeLaporte assisted in formulating basic plans for aiding handicapped children, conducted the first surveys in rural inspectorates, organized auxiliary classes in smaller cities and towns, and finally helped in organizing educational services for the cerebral palsied and the very limited learners. Through her untiring efforts to further the work of special education, Miss DeLaporte helped to train thousands of teachers, investigated tens of thousands of handicapped children, and promoted the cause of Auxiliary Education through her personal associations with innumerable parents, teachers, ratepayers and school officials.

GEORGE L. GRAY, B.A., retired as a Secondary School Inspector in August 1954. He was born at Wingham and received his elementary education there. His high school course was taken at Elmira, N.Y. and he graduated from the University of Toronto with honours in English and History. From 1909 he was on the staff of St. Thomas Collegiate Institute, and became principal of that school in 1932. He came to the Department of Education as an Inspector in 1938.

Throughout his whole career as teacher, principal, and inspector, Mr. Gray has done much to improve the teaching of History and to advance the cause of education in Ontario. He has served as President of the English and History section of the O.E.A.; he was a member of the consultant committee in the general revision of the high school courses in 1936, and since 1937 has been concerned with all

the changes in History courses; he was the founder of the History News Letter. In recent years he has devoted much time to promoting interest in the United Nations and to the cause of goodwill among Canadian racial groups. Mr. Gray's retirement was a severe loss to education in this province; but fortunately he is still active in a number of educational projects in which his experience is of the highest value.

CHARLES HOWITT, B.A., B.Paed., Inspector of Public Schools for York No. 8, retired on April 6. Mr. Howitt was born in Guelph, where he received his elementary and secondary education. He spent one year in a private school in England. Upon graduation from the Guelph Collegiate Institute, he was employed for several years with Canadian Westinghouse Company, Limited. In 1916-1917 he attended the Faculty of Education. He taught in Perth Avenue Public School and Queen Victoria Public School, Toronto. For some years he was headmaster in Dovercourt Public School. Mr. Howitt won many promotions under the Toronto Board of Education, and served as principal of Strathcona, John Fisher, Essex, and Park Public Schools. In 1939 he was appointed Public School Inspector for South Waterloo. Three years later he was transferred to Welland County. In 1944 he became Inspector of Halton County, and after one year was transferred to York No. 8. Mr. Howitt gave himself unsparingly to his work. He was an outstanding teacher and an able inspector, who inspired with his skill, humour, and knowledge, those with whom he was associated.

Miss HELEN I. TURNBULL joined the staff of Teachers' College, Stratford, in September, 1947 and, resigned in August, 1954. She was educated in Saskatchewan, her native province, and in Ontario where she also received her professional training. Before going to Stratford, she taught in Swansea, Windsor and Niagara Falls. In Stratford, Miss Turnbull was Dean of Women and taught Health and Home Economics, in which subject she had special qualifications. Her fine contribution to education will continue as long as any of those who studied under her remain in the profession of teaching.

JOHN C. WALSH, B.A., B.Paed., retired from the position of Assistant Superintendent of Elementary Education for the schools of Ontario on September 1, 1954. Born at Read, Ontario, Mr. Walsh received his elementary education in Hastings County, and his secondary education at Regiopolis College, Kingston. He was graduated from the University of Ottawa in 1905 and attended Hamilton Normal School the following year. He taught at Gananoque, Plantagenet and Rockland High Schools, being principal of the latter two schools. In 1917 he was appointed Inspector of English-French schools under the Ontario Department of Education. In 1927 he was appointed Inspector of Separate Schools, Kitchener, for the Counties of Brant, Grey, Waterloo and Wellington. He obtained a post-graduate degree of Bachelor of Pedagogy from the University of Toronto in 1925. Mr. Walsh served as President of the Ontario Educational Association for the year 1946-1947. In 1944 Mr. Walsh was appointed Assistant Superintendent of Elementary Education. In this position his work dealt chiefly with the supervision of inspection and administration of separate schools. As a teacher and an administrator Mr. Walsh has served education well. His former associates in the Department of Education join with his many other friends in wishing him happy leisure in the years ahead.

PROMOTIONS

- C. A. Mustard.....Master, Toronto Teachers' College, Professional Training Branch to Assistant Superintendent, Professional Training Branch, January 1, 1954.
- C. P. O'Neill.....Master, London Teachers' College, Professional Training Branch to Assistant Superintendent, Elementary Education Branch, September 1, 1954.
- K. L. Young.....Acting Director, Community Programmes Branch to Director, Community Programmes Branch, November 15, 1954.

Elementary School Inspection

APPOINTMENTS

The following appointments were made by Boards of Education during 1954:

City of Fort William (New Inspectorate)

T. A. S. McKee, B.A. B.Paed., Public School Inspector for District Division 3, appointed Public School Inspector, September 1.

City of Toronto

H. E. Cavell, M.A., B.Com., B.Paed., and J. L. McCullough, B.A., B.Paed., Public School Inspectors, appointed Assistant Superintendents of Public Schools, September 7.

C. W. Maedel, B.A., B.Paed., Principal, Givins Public School, Toronto, appointed Public School Inspector, September 7.

N. A. Sweetman, B.A., B.Paed., Principal, Lord Dufferin Public School, Toronto, appointed Public School Inspector, September 7.

Toronto Metropolitan Area (Scarborough)

R. H. King, M.A., Principal, Scarborough Collegiate Institute, appointed Director of Education, January 1.

R. L. Burns, B.A., Public School Inspector in York No. 6, appointed Superintendent of Public Schools, September 1.

A. S. Taylor, B.A., Principal, J. G. Workman School, Scarborough, appointed Assistant Superintendent of Public Schools, September 1.

F. S. Cooper, B.A., B.Paed., Principal, Park Lawn Public School, Etobicoke, appointed Public School Inspector, September 1.

J. J. Henderson, B.A., B.Paed., Lawrence Park Collegiate Institute staff, appointed Public School Inspector, September 1.

Toronto Metropolitan Area (North York)

F. W. Minkler, B.A., D.Paed., Public School Inspector for York No. 7, appointed Director of Education, March 1.

T. L. Rowson, B.A., B.Paed., Supervising Principal, North York T.S.A. #1, appointed Superintendent of Public Schools, April 5.

D. L. Bornhold, B.A., B.Paed., Superintendent of Public Schools, Kirkland Lake, appointed Public School Inspector, September 1.

W. J. McIntosh, M.A., D.Paed., Staff of Jarvis School for Boys, Toronto, appointed Public School Inspector, September 1.

L. C. Sutherland, B.A., B. Paed., Public School Inspector for Waterloo No. 1, appointed Public School Inspector, September 1.

Welland No. 4 (Chippawa, Stamford, Willoughby) (New Inspectorate)

R. A. McLeod, B.A., B.Paed., Secretary-Treasurer and Supervising Principal of Stamford District Board of Education, appointed Superintendent of Schools, September 1.

D. G. Warren, B.A., Public School Inspector without designated area, appointed Public School Inspector, September 1.

The following appointments were made to the provincial staff of inspectors during 1954.

Brant

N. E. Ward, B.A., Milverton District High School Staff, appointed Public School Inspector to assist Inspector J. C. Webster, September 1.

Bruce (In Part); Huron (In Part)

E. C. Evans, B.A., Principal, Hamlet Public School, Stratford, appointed Public School Inspector to assist Inspector J. M. Game, September 1.

Hastings South

Alexander Cummins, B.A., Connaught Public School staff, Ottawa, appointed Public School Inspector to assist Inspector R. H. Macklem, September 1.

Lincoln No. 1

Alexander Klim, B.A., B.Paed., Principal, Ancaster Memorial School, appointed Public School Inspector, September 1.

Norfolk

D. S. Lawless, B.A., University of Toronto Schools staff, appointed Public School Inspector to assist Inspector W. F. Hammell, September 1.

Simcoe North-West (New Inspectorate)

K. J. Ellis, B.A., Principal, Victoria Public School, Owen Sound, appointed Public School Inspector, September 1.

Waterloo No. 1

S. D. Oakes, B.A., Aberdeen Public School staff, London, appointed Public School Inspector to assist Inspector D. W. Simpson, September 1.

Wentworth

Miss Edith M. Deyell, M.A., Teacher of Social Studies and Co-ordinator of Guidance, Broadview Avenue Intermediate School, Ottawa, appointed Public School Inspector to assist Inspector J. K. Evans, September 1.

York No. 1

E. M. Dunn, B.A., B.Paed., Lord Dufferin Public School staff, Toronto, appointed Public School Inspector to assist Inspector W. J. McLeod, September 1.

District Division 1

C. G. M. Smith, B.A., Principal, Francis Street Public School, Fort William, appointed Public School Inspector to assist Inspector R. S. McBurney. September 1.

District Division 7

E. C. Reeb, B.A., M.Ed., Head of Guidance Department, Fort William Collegiate Institute, appointed Public School Inspector, September 1.

District Division 13 (1)

M. C. Napper, B.A., North Bay Collegiate and Vocational School staff, appointed Public School Inspector, September 1.

District Division 19 (New Inspectorate)

A. J. MacLean, B.A., Principal, Napanee Public Schools, appointed Public School Inspector, September 1.

R.C.S.S. Division 32 (New Inspectorate)

J. R. Lalonde, B.A., B.Paed., Garneau Separate School staff, Ottawa, appointed Separate School Inspector, September 1.

R.C.S.S. Division 33 (New Inspectorate)

J. F. Johnston, B.A., Chatham Collegiate Institute staff, appointed Separate School Inspector, September 1.

R.C.S.S. Division 34 (New Inspectorate)

J. B. Healy, B.A., B.Paed., Hamilton Teachers' College staff, appointed Separate School Inspector, September 1.

TRANSFERS

The following transfers were made in the provincial staff of inspectors during the year 1954:—

J. D. Bougie, B.A., B.Paed., Inspector without designated area, to R.C.S.S. Div. 36, September 1.

G. C. Filion, B.A., Inspector without designated area, to R.C.S.S. Div. 3, September 1.

A. A. Gilroy, B.A., from Bruce (in part); Huron (in part) to Kent No. 2, September 1.

J. D. Hanmer, B.A., B.Paed., from York No. 7 to Toronto Metropolitan Area (East York) with Inspector W. E. Eade, September 1.

F. J. Hodge, B.A., B.Paed., Inspector without designated area, to R.C.S.S. Div. 35, September 1.

R. G. Kendall, B.A., B.Paed., from York No. 7 to Toronto Metropolitan Area (York) with Inspector W. G. Chatterton, September 1.

J. S. Lowcock, B.A., B.Paed., from District Div. 8 (1) to District Div. 18, September 1.

W. J. McLeod, B.A., B.Paed., from Norfolk to York No. 1, September 1.

Miss L. L. McNeill, B.A., B.Paed., from York No. 7 to Peel South with Inspector A. A. Martin, September 1.

Remi Millette, M.A., B.Paed., Ph.D., from R.C.S.S. Div. 2 to R.C.S.S. Div. 31, September 1.

G. A. Noble, B.A., B.Paed., from York No. 1 to Toronto Metropolitan Area (Forest Hill and Leaside), September 1.

P. E. Piche, B.A., B.Paed., from R.C.S.S. Div. 3 to R.C.S.S. Div. 2, September 1.

C. A. Rath, B.A., from District Div. 7 to Carleton and Prescott & Russell No. 1, September 1.

J. L. Runnalls, B.A., from District Division 13 (1) to Lincoln No. 2 and Welland (in part) September 1.

W. K. Shea, B.A., Inspector without designated area, to R.C.S.S. Div. 37, September 1.

D. W. Simpson, B.A., from Carleton and Prescott & Russell No. 1 to Waterloo No. 1, September 1.

PART II

STATISTICS

CURRENT and RETROSPECTIVE

EDUCATION EXPENDITURES VERSUS REMAINING MUNICIPAL SERVICES

Percentage Increase in Expenditures, 1947-1954

(1947 = 100%)

	1947	1949	1951	1953	1954
Education Levies, including debt charges	100.0%	133.1%	187.2%	244.5%	274.1%
Remaining Municipal Services*	100.0%	124.7%	157.6%	188.1%	215.0%
Municipal Taxation per capita for Education	\$12	\$15	\$20	\$24	\$25

*The larger of these are: Public works; protection to persons and property; debenture principal and interest; general government; social welfare; sanitation and waste removal; conservation of health; recreation and community services.

(a) Commencing with 1950-51, itinerant music teachers are included.

(b) Special certificates include Art, Auxiliary, Household Economics, Kindergarten, Music, Primary Methods, Primary Specialists, H.S. Assistant, Industrial Arts and Crafts.

(c) Second Class and Lower includes Deferred Second, Permanent Ungraded, Temporary, Letter of Permission, and Letter of Standing.

(d) Included with Public School figures.

(e) Urban includes graded rural (large suburban).

*For "number of Schools in operation" the 24 Composite Schools are included in both "Secondary Academic" and "Vocational and Special Industrial".

*For "number of Schools in operation" the 24 Composite Schools are included in both "Secondary Academic" and "Vocational and Special Industrial".

VI PROVINCIAL POPULATION AND SCHOOL ENROLMENT

Note: Population and Exemptions apply to the calendar year, while Pupil Enrolment is based on the school year.
(For example, day school enrolment of 1940-41 is calculated as a percentage of the population of the calendar year 1940)

Year	Provincial Population	Day Enrolment in Provincial School System	Percentage of Population in Day Schools	Day School Enrolment Classified as between		Compulsory Age Enrolment (8-15 incl.)		Compulsory Adolescent Age Enrolment (14-15 incl.)		Exemptions from School Attendance		
				Elementary	Secondary	Number	Percentage of Day Enrolment	Number	Percentage of Day Enrolment	By Home Permit	By Employment Certificate	Total

The above data was supplied by the Statistics Branch of the Department of Citizenship and Immigration—Courtesy Dominion Bureau of Statistics.

X—NET NUMBER OF CHILDREN TRANSFERRING IN OR OUT OF PROVINCES (BASIS: 2.3 CHILDREN PER FAMILY FOR YEARS 1949-50 TO 1953-54, AND 2.35 FOR YEAR 1954-55)

These figures are based on the monthly reports of the Family Allowances Division of the Department of National Health and Welfare. These reports give the number of families. For 1954-55 the number of families has been multiplied by 2.35—an average for Canada, though the average varies among the provinces. May, 1955 Family Allowance report shows the following number of children per family for each province: Nfld.—3.00; P.E.I.—2.73; N.S.—2.45; N.B.—2.77; Que.—2.68; Ont.—2.12; Man.—2.21; Sask.—2.30; Alta.—2.24 B.C.—2.07.

Cost covers current operations, capital charges, capital outlays from current funds, and transportation.

The above applies to a pupil in average daily attendance. See page 62 for dollar costs in these and previous years.

XXIII—PUPIL TRANSPORTATION

School Boards continue to employ contractors, rather than own and operate busses. Less than 2% of the school busses are owned by School Boards.

During the school year 1954-55 the approved cost per pupil-day dropped 4 cents, while the approved cost per mile increased 1 cent. The total number of routes increased by 79, while the total approved cost increased by \$544,201.

Totals	51,786	265	62,000	\$83,523,000	\$72,814,000

Notes: 1. Minor revisions in increased enrolment in the years 1945, 1946 and 1947 appear in this issue.

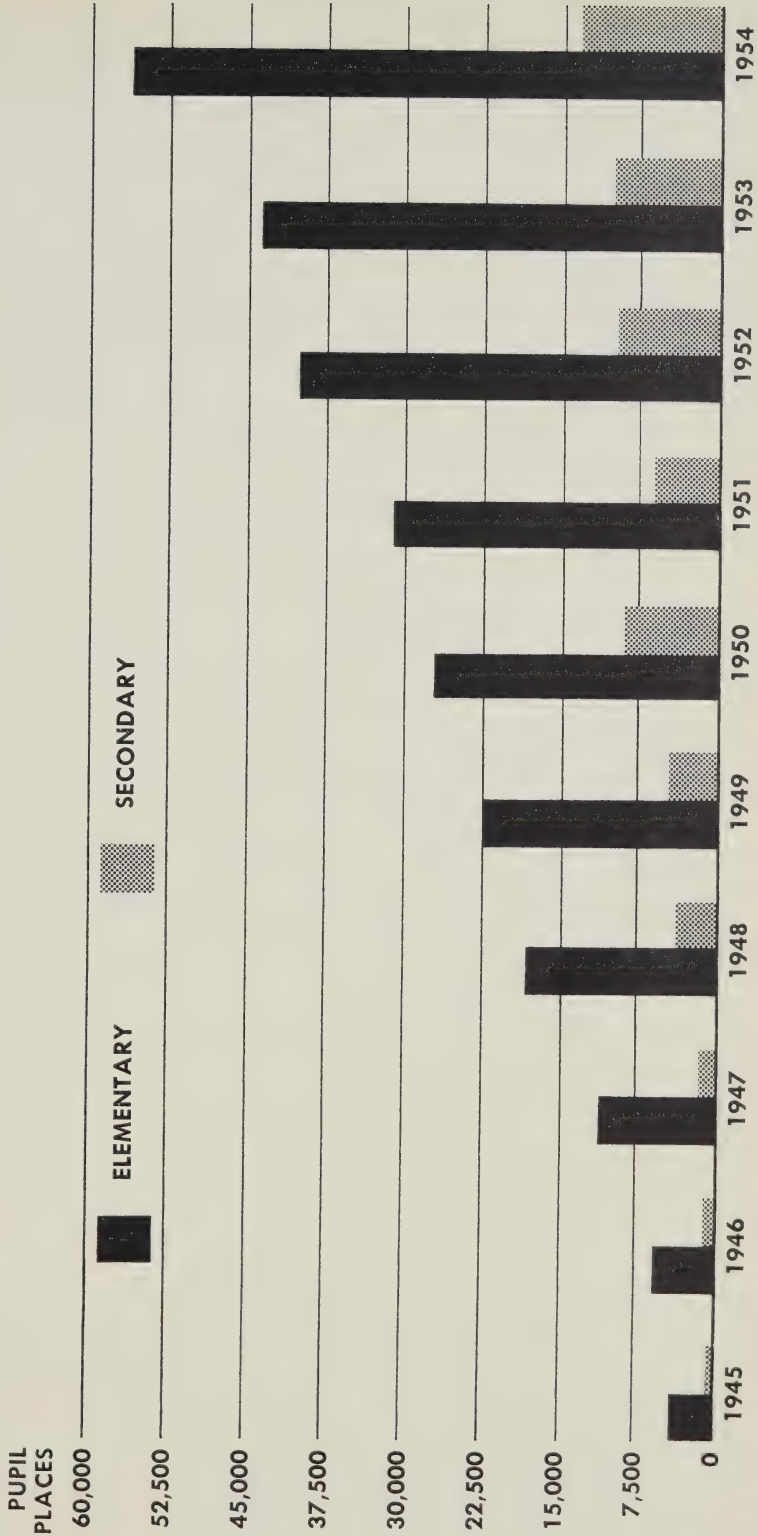

2. Enrolment increases are calculated on September enrolments.

3. Building projects are counted in the year of completion.

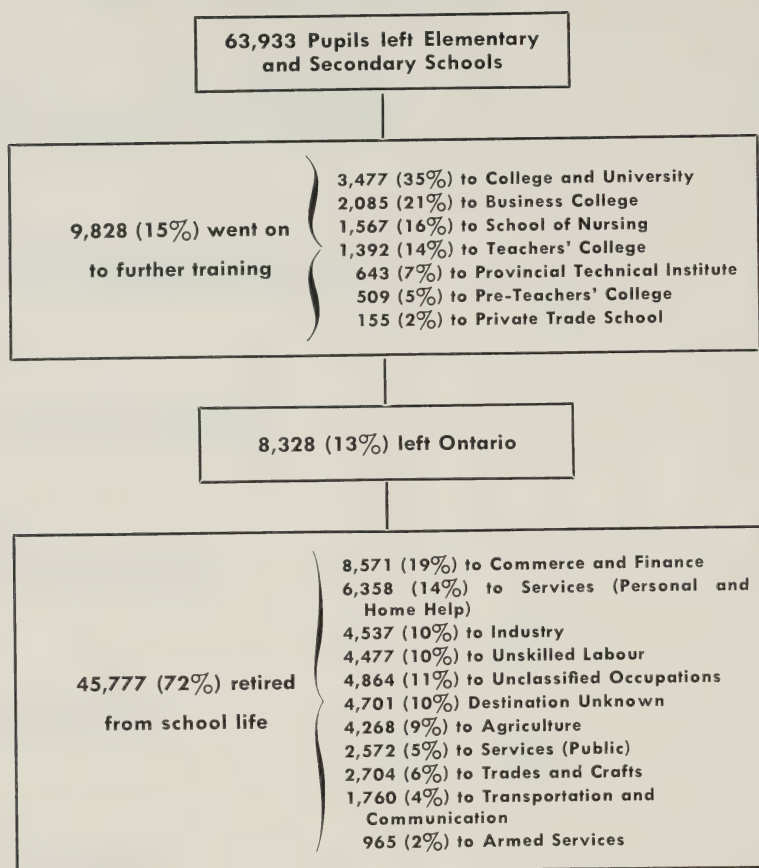

4. No account is taken in this table of pupil-places lost as a result of the following factors; shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.

POST-WAR SCHOOL BUILDING CONSTRUCTION

The effectiveness of the school building programme in Ontario is indicated below in school terms, i.e. new pupil places provided by the construction of new schools and additions for each year from 1945 to 1954. The total for ten years is 262,395 pupil places in elementary and 62,000 in secondary schools. This includes replacements and additional accommodation.

TABLE 24—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN THE
TERRITORIAL DISTRICTS

The Province of Ontario provided transportation assistance to 621 students during the school year 1954-1955. \$12,381.75 was paid to 441 students residing east of Sault Ste. Marie and 180 students residing west of Sault Ste. Marie. Of those assisted 222 were in the first year, 167 in the second year, 125 in the third year, 102 in the fourth year, 3 in the fifth year and 2 in the sixth year.

The institutions attended by these students were as follows:

University of Toronto.....	182
Queen's University.....	172
University of Western Ontario.....	97
University of Ottawa.....	34
Ontario Agricultural College.....	17
Ontario Veterinary College.....	2
Ontario College of Education.....	31
MacDonald Institute.....	8
Assumption College.....	27
McMaster University.....	5
Ontario College of Art.....	11
Sacred Heart College.....	11
Osgoode Hall Law School.....	24

TABLE 44—PUBLICATIONS OF THE DEPARTMENT OF EDUCATION

As of September 1st, 1955

Years of any revision are indicated.

A. COURSES OF STUDY

Junior Kindergarten to Grade VIII

1. Programme for Junior and Senior Kindergarten and Kindergarten Primary Classes of the Public and Separate Schools, 1944, 1946, 1950, 1954, 1955.
2. Programmes of Studies for Grades 1 to VI of the Public and Separate Schools, reprinted with minor revisions in 1955.
3. Programme for Religious Education in the Public Schools, 1949.
4. Curriculum I. 1, Intermediate Division of Courses for Experimental Use, 1951.
5. Circular I. 3, Guidance in the Intermediate Division, 1950 and 1953.
6. Curriculum I. 4, Supplementary Reading List for Grades VII to X, 1951, with additions 1954, 1955.
7. Curriculum I. 5, Physical Education, Outline of Courses for Experimental Use, Grades VII to X, 1952.

B. REVISION OF CURRICULUM

8. Curriculum: 1, Revision of Curriculum, December 10, 1949.
9. Curriculum: 2, Promotion from Grade VIII and Admission to Grade IX, March 30, 1950.
10. Curriculum: 3, Establishment of Local Committees on Curriculum, May 15, 1950.
11. Curriculum: 7, Memorandum re Curriculum, Progress of the Revision, 1952.
12. Curriculum: 8, Selections of Text-books in Social Studies.
13. Curriculum: 9, Books for School Libraries (Elementary).

C. COURSES OF STUDY

Grades IX to XIII

14. Circular H.S. 1, Requirements for Certificates and Diplomas for 1955-56. Outlines subjects of various courses leading to Intermediate Certificates, Secondary School Graduation Diplomas, and Secondary School Honour Graduation Diplomas.
15. Circular H.S. 1B, List of Publications re Courses of Study, Grades IX to XIII, 1955-56. Lists Circular Numbers and Titles of the various Courses of Study.
16. Curriculum I. 1, Intermediate Division (Grades VII to X), Outlines of Courses for Experimental use, 1951.
17. Courses in the various subjects of Grades XI, XII, and XIII. These should be requested by subject and grade.
18. Circular 46, Courses of Study and Examinations in Schools attended by French-speaking Pupils, 1955.
19. Circular 14, Text-books Authorized and Recommended for 1955-56.
20. Circular H.S. 58, Prescriptions in English and Modern Languages for Grade XIII Departmental Examinations, 1956.
21. Circular 46 (a), Prescriptions in French for French-speaking Pupils for Grade XIII Departmental Examinations, 1956.

D. TEACHING AIDS

Art

22. Art and Crafts in the Schools of Ontario, 1949.
23. Art Education in the Kindergarten, 1952.
24. Art Education for Slow Learners, 1953.
25. Art Education during Adolescence, 1954.

Library

26. Teachers' Library Catalogue.

Music

27. Circular Mus. 1, Training the Voices of Children and Adolescents, 1944.
28. Circular Mus. 2, Music in Rural Schools, 1946.
29. Circular Mus. 3, School Music Festivals, 1946.
30. Circular Mus. 4, Introducing Part Singing with Adolescent Boys.
31. Circular Mus. 5, Memorandum relating to The Teaching of Music in Elementary and Secondary Schools, 1955.
32. Circular Mus. 10, Operettas, Music Plays and Cantatas.
33. Music Appreciation Through Listening, for Elementary Schools, 1950, 1953.

Radio

34. School Radio Broadcasts. October, April, 1955-56.

Religious Exercises, Religious Education and Religious Instructions

35. List of Bible Readings for Schools, 1944, 1949.
36. Programme for Religious Education in the Public Schools, 1949.

E. ADDITIONAL PAMPHLETS

37. Visual Education Catalogue.
38. Teaching in the Elementary Schools of Ontario, 1955.
39. Teaching Try-Out Experience, 1950.
40. Calendar of the Teachers' College, 1955.
41. Calendar of the University of Ottawa Teacher's College, 1955.
42. Calendar of the Primary Specialist Course, 1955.

F. SCHOOL ACTS

43. The Department of Education Act, 1954.
44. The Public Schools Act.
45. The Schools Administration Act, 1954.
46. The Secondary Schools and Boards of Education Act, 1954
47. The Separate Schools Act.
48. The Ontario School Trustees' Council Act, 1953.
49. The Teachers' Superannuation Act.
50. The Teaching Profession Act.
51. The Trade Schools Regulation Act.
52. The Public Libraries Act.

G. REGULATIONS

53. Public and Separate Schools.
54. Secondary Schools.
55. Elementary School Inspectors' Certificates.
56. Supervisory Officers.
57. Scholarships for Study Outside Ontario.
58. School Attendance.
59. General Legislative Grants.
60. Grants for Non-Profit Camps.
61. Assistance in the Cost of Educating Retarded Children.
62. Programmes of Recreation.
63. Public Libraries.

Terminology

Admission—Refers to a pupil whose name is entered for the first time on the roll of a school or whose name is re-entered on the roll after having been removed from the roll by reason of transfer or retirement.

Assessment—The valuation placed upon property for tax levy purposes. The County Council generally makes an equalization annually of local assessment figures, and this equalized figure is used in the computation of Legislative grants to schools.

Attendance Efficiency—The percentage relationship of the actual days attended to the perfect aggregate.

Auxiliary Classes—These are provided for gifted, socially or educationally maladjusted, retarded, or physically-handicapped pupils.

Capital Charges—Debenture instalments, or sinking fund deposits, made on debt incurred for school buildings and equipment.

Car School—A school on wheels, carrying education and social life to small isolated communities scattered along the railway lines of northern Ontario. Six car schools are in operation at present, travelling over routes which vary from 83 to 221 miles. With the school remaining at a stop for about a week, a circuit is completed in four to six weeks. The regular school programme is followed, and work is outlined for the pupils to complete while the school is away. At present approximately 140 pupils receive education in this way. All operating costs are paid by the Department.

Compulsory School Age—Children who are six years of age on or before the first school day in September must attend school from that date until the last school day in June of the calendar year during which they attain the age of sixteen years. Where the need is urgent a child may be granted a home permit or an employment certificate which must not be for more than six weeks in a term if he is under fourteen years of age.

Consolidated School—An amalgamation of two or more rural schools, or of rural schools with a village or town school, either for the purpose of strengthening the means of school support where the original schools were small or poor, or for the purpose of providing a graded school and other advantages, such as conveyances.

Correspondence Courses—Are those courses provided by the Department of Education for persons who are unable to attend school because of age, health or distance. They include (a) Academic (Grades I to XIII) and (b) Trades (Automotive Mechanics, Carpentry, Machine Shop Practice, Radio Theory and Practice).

Cost per Pupil-Day—The cost of educating one pupil of actual attendance, for one day. It is found by dividing the total cost of education of the group of pupils concerned by the actual aggregate attendance of this group for the period under consideration.

County Pupil—A secondary school pupil living within the County but outside any secondary school district.

District—The eleven defined areas of Northern Ontario which do not constitute municipal units for any purpose. With the exception of Parry Sound and Muskoka, these areas lie north of the French River and Lake Nipissing.

Enrolment (Net)—Net Enrolment for any school year is the sum of (i) the enrolment on the last school day in September and (ii) admissions from the first school day in October to the last school day in June, less (iii) the number of transfers to other Ontario public, separate, or secondary schools from the first school day in October to the last school day in June.

Free School Age—The Public Elementary Schools are free to all resident pupils between the ages of 5 and 21 whose parents are public school supporters. The Separate Schools are free to the children of the separate school supporters. The Secondary Schools are free to all except non-resident pupils.

General Maintenance—Ordinary, current expense, as opposed to capital outlays and debenture charges.

Improvement District—Shall be deemed to be for all purposes of every Act a township municipality, a village municipality, or a town municipality, as may be designated from time to time by the Municipal Board.

Inspectorate—The area under the supervision of a local Department representative.

Kindergarten-Primary—A class combining the work of the kindergarten and Grade I.

Non-Resident Pupil—*A secondary school pupil who is neither a resident nor a County pupil.*

Public School Section—*A subdivision of a township for elementary school purposes, containing a minimum of 50 children between the ages of 5 and 21, and having a maximum area of four square miles.*

Resident Pupil—*A secondary school pupil living within the secondary school district.*

Retirement—*Refers to a pupil who withdraws from a public, separate, or secondary school in Ontario and is **not** enrolled in any one of the following types of Ontario schools—public, separate, or secondary.*

School—*Provincially controlled schools may be classified as:*

1. **Elementary**—*Those doing the work of the first eight grades. A few have Fifth Classes (see above).*

(a) **Public**—*The first school established in any school section or urban municipality, and supported by the ratepayers.*

(b) **R.C. Separate**—*For the children of Roman Catholics.*

(c) **Protestant Separate**—*For the children of Protestants in centres preponderantly Roman Catholic.*

II. **Secondary**—*Those doing the work of Grades IX to University Matriculation.*

(a) **Academic:**

1. **Collegiate Institutes.**

2. **High Schools.**

3. **Continuation Schools.**

These schools are differentiated by minimum staff requirements. Continuation Schools are located mostly in villages or rural areas. Academic courses are designed to lead to Universities and Teacher-Training Schools.

(b) **Vocational:**

1. **Technical High Schools.**

2. **Commercial High Schools.**

In the smaller centres academic and vocational departments are frequently found in the one building, which is then called a composite school. Vocational courses are designed to lead to industry, trade and commerce.

III. **Provincial Technical Institutes**

These offer courses designed to train technicians for positions in industry which are supplementary to, but not in the field of, professional engineering. The admission requirement is secondary school graduation, and the courses are of two or three years' duration. The Institutes are owned and administered directly by the Department of Education under the Vocational Education Act, Part II, but close co-operation with industry is maintained through advisory committees, the members of which are appointed by the Minister.

IV. **Professional Training Schools**

(a) *Ontario College of Education (University of Toronto)—for the training of secondary school teachers.*

(b) *Provincial Teachers' Colleges—for the training of elementary school teachers.*

V. **Special Schools:**

Ontario School for the Blind, Brantford.

Ontario School for the Deaf, Belleville.

School Year—*The school year consists of two terms, September 1 to December 22, and January 3 to June 29. In addition to the intervals between these terms there is a vacation of one week following Easter. In this Report statistics cover the school year where possible. Financial data remain on the calendar year basis.*

Secondary School District—*The area over which the secondary school board exercises supervision. Each city and separated town is a secondary school district. The County Council may establish a secondary school district composed of an urban municipality only, a group of school sections only, or a combination of both. In territorial districts of Northern Ontario any municipal council or councils may establish the whole or any part of the municipality or municipalities as a secondary school district, with the approval of the Minister of Education.*

Township School Area—*A unit of school administration comprising two or more contiguous rural school sections in the same township or in adjacent townships, or comprising such rural sections along with one or more adjacent villages or towns. See Cir. Elem. 15, "The Township School Area in Ontario."*

Transfer—*Refers to a pupil who withdraws from a public, separate, or secondary school in Ontario and is enrolled in any one of the following types of Ontario schools—public, separate, or secondary.*

Report of The Minister of Education 1955

To The Honourable Louis O. Breithaupt, LL.D.,

Lieutenant-Governor of the Province of Ontario.

Your Honour,

With all respect, I present to Your Honour the Report of the Department of Education for the year 1955. In so doing, I should like to comment upon some aspects of the educational system which appear to be of special interest.

The total number of pupils in the elementary and the secondary schools of the Province in September, 1955, was 1,038,176, showing an increase of 56,274 over the enrolment of the previous year. Additional pupils create a need for additional teachers, and the problem of teacher supply continued to receive attention in the year under review. I am pleased to report that 3,139 students were enrolled in the Teachers' Colleges in the autumn of 1955, the largest class to that date to attend these institutions. This enrolment represented an increase of 447 over that of the year before. The Pre-Teachers'-College Summer Courses were also in operation in 1955, with enrolments of 911 in the First Year, and 706 in the Second Year.

To meet the increasing demand for secondary school teachers, an emergency summer course programme was established during the year. The plan called for the completion of a summer course of ten weeks' duration at the Ontario College of Education, a subsequent year of successful teaching, and a second summer course of five weeks' duration. The first of these courses began on June 20, 1955, with an enrolment of 418. All of these students held university degrees, and many had taken Honour courses in University.

Expanding enrolments continued to spur on the building programme, as will be noted in the pages that follow. In 1955, new accommodation was provided for 63,000 pupils in the elementary schools at an estimated cost of \$39,300,000, and for 14,750 pupils in the secondary schools at an approximate cost of \$20,217,000.

Grants paid to local educational authorities for educational purposes in 1955 totalled \$71,913,203, an increase of \$9,008,829 over the grants paid in the previous year.

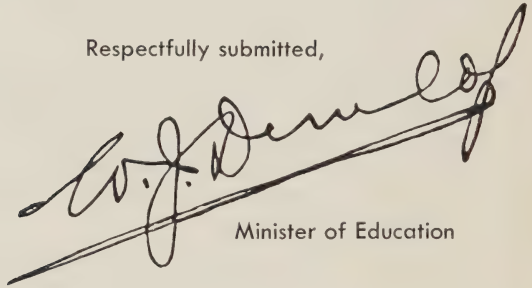

The demand of industry for graduates from the Technical Institutes at Port Arthur, Haileybury, Hamilton, and Toronto, exceeded the supply in the year under review. These Institutes are alike in that they provide educational opportunities for students about to enter specific industries, but they differ in that each has its special organization and purpose. The Lakehead Technical Institute emphasizes forestry, mining and first-year university work; the Provincial Institute of Mining at Haileybury and the Provincial Institute of Textiles at Hamilton are concerned with the industries linked with their names; the Institute of Trades in Toronto co-operates with the Provincial and Federal Departments of Labour in preparing apprentices; and the Ryerson Institute of Technology in Toronto, the largest of the group, offers a wide variety of courses, a number of which are concerned with the preparation of engineering technicians. The development and expansion of the Institutes in recent years amply demonstrate the need they are meeting in our educational system.

During 1955, there were 251 public libraries, 231 library associations, 51 branch libraries, and 14 county or district libraries operating in the Province. For smaller communities and rural areas, boxes of books were sent out on loan by the Travelling Libraries Branch. Legislative grants to all libraries amounted to \$865,000.

Classes in English and in the government, history, and geography of Canada have been increasingly needed and increasingly numerous since the arrival in Ontario of many newcomers from foreign lands, and the Department of Education has encouraged the provision of such instruction. In 1955 there were 637 classes operated by School Boards, 162 classes by voluntary associations, and 36 classes by the Community Programmes Branch. In all, 17,549 persons attended these classes and received assistance in their adjustment to citizenship in this country.

In this annual Report, information and statistics will be found with regard to the topics mentioned and to other features of the school system. It has been said that there are three aims in education: to prepare people to earn a living, to develop good citizens, and to help individuals to grow as persons—physically, mentally, socially, and religiously. The activities outlined in the pages that follow are many and diverse, but I think it may fairly be stated that all of them contribute in a substantial way towards the discharge of this three-fold responsibility.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "W. J. Deneault". The signature is written in a cursive style with a long horizontal line extending from the end of the name.

Minister of Education

October 1st, 1956.

Elementary Education

LEGISLATIVE GRANTS

The 1954 plan for distribution of General Legislative Grants was continued in 1955 with no major alterations. The following minor alterations, however, were applied in the calculation of the 1955 payments.

- (1) The portion of the fees paid to a member association of the Ontario School Trustees' Council which was remitted in 1954 by the member Association to the Ontario School Trustees' Council was eligible for inclusion in approved cost for purposes of grant in 1955.
- (2) Where part of a school section was transferred from one Board to another, statistical data of the last school-day of September, 1954, was used for the purpose of apportioning the grants.
- (3) For the purposes of the Regulations, the term "annexation" was deemed to include the term "amalgamation".
- (4) Where, in addition to support from assessment of one or more urban municipalities each having a population of 2,500 or more, the Board of a school section or separate-school area was supported by assessment from an urban municipality having a population of less than 2,500 or from a rural municipality, the average daily attendance and approved cost, excluding transportation, were divided among the urban municipalities each having a population of 2,500 or more and the remainder of the section or area in the same proportion as the enrolments of resident pupils on the last school-day of September, 1954, were divided in each case. The approved cost of transportation of pupils resident in each urban municipality having a population of 2,500 or more was added to the approved cost apportioned to that municipality, and the remainder of the approved cost of transportation was added to the approved cost apportioned to the remainder of the section or area. In these cases, the grant was calculated as if a Board operating a school existed for each of the urban municipalities each having a population of 2,500 or more and a Board operating a school existed for the remainder of the section or area, and the total thereof paid to the Board.

LARGER UNITS OF ADMINISTRATION

At the end of 1955 there were 563 township school areas in operation in Ontario administering the schools in 3,565 former school sections. Sixty per cent of the former school sections in Ontario are now in larger units of administration. During the year, seven new township school areas were formed and eighteen former sections were added to existing areas. One township school area consisting of two former sections was dissolved and one former section was withdrawn from each of four township school areas. These six former sections were re-established as school sections.

Seven new union separate School Boards were formed in 1955 and two separate school areas were added to existing unions. The schools in 189 former separate school areas are now administered by 65 union Separate School Boards.

Where a larger unit of administration consists of at least two former school sections or former separate school areas, a grant of \$300 is paid to the Board of the larger unit for each former school section or former separate school area included.

TRANSPORTATION OF PUPILS

Special attention was given this year to the types of vehicles used for transporting pupils and to traffic regulations to protect children when they are boarding

or leaving such vehicles. A school bus licence is not granted unless the vehicle has proper exits and fixed seating, and is equipped with proper signals. All traffic is now required to stop when overtaking a school bus stopped to load or unload pupils on a highway, except in a built-up area.

The number of pupils who were transported during the school year 1955-56 increased ten per cent over the previous year. The cost of transportation increased six per cent and the approved cost increased by more than eight per cent. There was a slight decrease in the number of pupils who were transported to secondary school by elementary School Boards. This is a result of further extension of high school districts.

Elementary School Boards transported 46,498 pupils to elementary school and 5,743 to secondary school at a cost of \$17,834 per day.⁽¹⁾

CURRICULUM

In 1955, the Programme of Studies for Grades 1 to 6 of the Public and Separate Schools was reprinted with minor revisions. References to publications which had gone out of use were removed; more up-to-date references were added. For courses such as Art and Music, Departmental publications issued since the Programme of Studies first appeared have given more extensive treatment to topics dealt with at that time in the introductions to the courses. In such cases the statements which appeared in the former edition were modified or deleted. The provision of new text-books to replace those formerly authorized and the introduction of text-books for some courses where none were formerly available required some small corrections in the text of the programme. The changes, however, represented no alteration in point of view from that embodied in the edition of 1941.

A memorandum (Curriculum: 8) dealing with the selection of text-books in Social Studies was published in pamphlet form and circulated to all teachers of the Junior Division. This pamphlet contained suggestions regarding the standards that various features of text-books should meet—text, illustrations, maps, etc. It was designed not only to direct the attention of teachers to the desired qualities of a text-book in the Social Studies but to indicate to authors and publishers what the Department requires in such books before approval is given.

A pamphlet (Curriculum: 9) dealing with supplementary reading and the use of the classroom library was circulated to all elementary school teachers. The pamphlet contained a list of about 45 recent books suitable for school libraries. Most of these books were written by Canadians, about Canadian subjects, and are published in Canada. This pamphlet was intended to further the Departmental policy of giving encouragement to Canadian authors by drawing the attention of teachers to good books of Canadian origin.

Several text-books were added to the approved list (Circular 14). Particularly noteworthy are a series of readers for the use of schools in which French is a subject of instruction with the approval of the Minister.

RAILWAY CAR SCHOOLS

Six railway car schools took educational facilities to a total of 143 children in Northern Ontario during 1955. These car schools, which are operated by the Department of Education in co-operation with the railway companies, travelled along routes totalling 793 miles of track and made regular stops at 24 locations to meet pupils. Three cars are on the Canadian National Railway, two are on the Canadian Pacific Railway and one is on the Ontario Northland Railway.

⁽¹⁾ See table 18, also p. 4.

NEW CONSTRUCTION

From 1945 to 1955 inclusive, new elementary school accommodation has been provided for 328,115 pupils at an estimated cost of \$211,800,000. During that interval the increase in elementary school population was 338,158 pupils. In 1955 new accommodation was provided for 63,000 pupils at an estimated cost of \$39,300,000. This is the greatest amount of new school accommodation to be provided in any year in Ontario.⁽²⁾

EDUCATIONAL CONFERENCES

The 1955 short course sponsored by the C.E.A.-Kellogg Project in Educational Leadership was held for three weeks in May, 1955, at the University of Alberta in Edmonton. The membership was almost entirely new, but the organization and programme were similar to those for the 1954 course. The courses are basically a forum for co-operative investigation of problems of concern to the participants. Seventy-three delegates attended the course, including 64 inspectors and local superintendents from across Canada, four teachers, two trustees and three others. Fourteen inspectors were present from Ontario.

During the summer of 1955, a second workshop of two weeks' duration was held at Laval University in Quebec City. Thirty-eight delegates attended this work conference, of whom five were from Ontario.

In June, 1955, forty-four representatives of twenty Canadian institutions of higher learning and the Canadian Education Association were gathered at a three-day work conference in conjunction with the University of Toronto meetings of the National Conference of Canadian Universities. This was the first Canadian Conference of Deans of Education and Professors of Educational Administration and Supervision. Three chief needs were agreed upon at the conference:

- (1) A need for a comparative study of programmes and offerings in education at Canadian degree-granting institutions, with special reference to administration and supervision.
- (2) A need for the development at one or more Canadian universities of a centre for advanced graduate studies specifically in the field of educational administration and supervision.
- (3) A need for greater financial aid for graduate students in educational administration and supervision.

During the week of October 3, 1955, the Ontario Department of Education with the assistance of the C.E.A.-Kellogg Project organized a one-week work conference in the Department for newly-appointed inspectors who had assumed their duties throughout the Province five weeks earlier. In the judgment of the participants and the officials, the results were very beneficial.

Secondary Education

1. SECONDARY SCHOOLS

ENROLMENT

The total enrolment of pupils in Secondary Schools in September 1955 was 174,562. By courses the enrolments were as follows: General 131,236; Commercial 24,658; Industrial 16,745; Home Economics, 1,385; Art 538.

The total number of full-time teachers in the Secondary Schools of Ontario on September 30, 1955 was 7,357, an increase of 725 over the previous year. Making allowance for part-time teachers, the teacher-pupil ratio in September 1955 was 23.43. In 1954 it was 23.94.

(2) See also p. 4.

BUILDING PROGRAMME

In 1955 eighteen new secondary schools were completed at an estimated cost of \$12,405,000 with accommodation for 9,290 pupils. Additions were made to thirty-eight existing buildings, providing space for 5,460 pupils and costing approximately \$7,812,000.

TRANSPORTATION

Secondary School Boards provided, during the school year 1955-56, transportation for 45,520 pupils. These were carried on 1533 routes with a total daily mileage of 69,470 at a cost of \$21,218 per day.

Elementary School Boards transported 5,743 pupils to secondary schools. This is a smaller figure than last year, the reduction representing the assumption of responsibility for transportation by newly formed High School District Boards.⁽³⁾

CURRICULUM

New Courses of study in Physical Education, the Home Economics option and the Commercial option of the General Course, and the new Industrial Course were introduced in September 1955. The new courses for Grade 13, adopted in 1954, are being carefully studied to determine whether further adjustments in length are necessary. A course in Geography was introduced for the first time in Grade 13. This course deals with the geography of Canada and the geographical factors which influence the development of the Canadian economy.

GRANTS

General legislative grants to academic secondary schools in the fiscal year 1954-55 amounted to \$16,526,926. Grants to vocational schools in the same period amounted to \$3,120,183. Under the Vocational Schools Assistance Agreement an amount of \$597,500 was received from the Dominion Government; this is the fixed maximum payable towards maintenance expenditures, conditional upon the provincial contributions not falling below that figure.

The special grant paid to Boards on expenditures for approved text-books for pupils in Grades 9 and 10 has enabled schools to supply some of the necessary books and in some cases to provide almost all the books required.

In addition to the above grants a special grant of \$4.00 per pupil of average daily attendance was paid in March 1955. This amounted to a payment of \$438,060 to academic and of \$108,727 to vocational schools.

2. TECHNICAL INSTITUTES

LAKEHEAD TECHNICAL INSTITUTE

The Lakehead Technical Institute was established in Port Arthur in 1948. The Technical Division offers two-year terminal courses with extensive field training in Forestry and Mining. The University Division offers first-year courses in Arts, Applied Science, Commerce, Forestry, Forest Engineering, and Household Science from which students may transfer to universities of their choice.

The Special Division provides night-school courses including Industrial and Cost Accounting and Advanced Technical Courses.

PROVINCIAL INSTITUTE OF MINING

In May 1955 thirty-four students completed the course at the Provincial Institute of Mining in Haileybury, bringing the total number of graduates for its ten years of operation to 304. The September 1955 enrolment was 98.

⁽³⁾ See also p. 1 and Tables 18 and 19.

In providing technical personnel for engineering and survey departments of mines, for geological staffs, and for mine, mill, and smelter laboratories, the Institute continues to assist in the expansion of the mining industry in Canada.

PROVINCIAL INSTITUTE OF TEXTILES

In June 1955 the Provincial Institute of Textiles in Hamilton graduated its sixth class. Once again the demand of industry for graduates was in excess of the supply.

In September the Institute reopened with a day-school enrolment of twenty full-time students. During the year there were 95 students taking part-time and short unit courses. The unit courses varied from a week to eight weeks in duration. The part-time courses were a half-day a week for ten weeks. This phase of the Institute's work was greatly increased this year. The usual evening classes were operated with an enrolment of 50 students, coming from sixteen companies within a 50-mile radius of Hamilton.

The textile industry's generous support of the Institute through contributions of machinery and raw materials, and the provision of scholarships, bursaries, and sponsorships has been maintained.

PROVINCIAL INSTITUTE OF TRADES

The Provincial Institute of Trades exists primarily to train apprentices in trades designated by the Department of Labour under the Apprenticeship Act. The enrolment of apprentices in the past year was 2,156. In addition courses are provided for R.C.A.F. personnel, and for diploma course students in non-designated trades. There were 169 R.C.A.F. and 139 Diploma Course students, as well as 1,391 evening class students.

New courses included Barbering, Welding, Diesel Mechanics, and Instrumentation.

RYERSON INSTITUTE OF TECHNOLOGY

The registration of the Ryerson Institute of Technology in Toronto was 1,634 in September 1954. Forty percent of its students came from the Toronto Metropolitan Area and 10 per cent from other provinces of Canada. The evening school enrolment increased to 5,339. The demand for graduates exceeds the supply.

Ryerson Institute fills a unique place in supplying courses not given in other institutions in Canada. A continuous effort is made, with the assistance of Advisory Committees, to keep all courses up-to-date with industrial practices.

Professional Training

TEACHERS' COLLEGE ENROLMENT

The trend towards increased enrolment in the eight Teachers' Colleges continued during 1955, with a total of 3,139 student teachers registering in the autumn term. When this number is compared with the enrolment of 1,019 ten years ago, and of 1,703 five years ago, the extent of the increase becomes apparent. While 401 of the 1955-56 enrolment were in the first year of the Two-year Course, and thus not candidates for certification for another year, the remaining 2,738 students constituted a substantial group.

At the Ontario College of Education, 422 students were enrolled in courses leading to the High School Assistant's, Library, Home Economics, Vocational, and Industrial Arts certificates. This figure was 96 below that of the previous year.⁽⁴⁾

⁽⁴⁾ See Table 12.

TEACHER SUPPLY

The supply of teachers for elementary schools was below the number required in the year under review, although the increased flow from the Teachers' Colleges and the operation of the In-Service Course (consisting of two Pre-Teachers'-College Summer Courses, each followed by a year of successful teaching and a one-year Completing Course at a Teachers' College) helped to meet the need. Further assistance came from teachers coming to Ontario from other provinces in Canada, from the British Isles, or from other countries in the Commonwealth. In all 629 Letters of Standing were granted to such teachers in the school-year 1954-55. The number of Letters of Permission issued to Boards of Trustees on behalf of uncertificated teachers totalled 817 by December 30, 1955, for the school-year 1955-56. Of these, 506 were on behalf of teachers with some professional training.

Because of increased enrolment in secondary schools, the supply of teachers for these institutions was also below the number required. An emergency training course was established in the summer of 1955 to increase this supply. The plan comprises two summer courses, the first of ten weeks given in 1955 and the second of five weeks' duration to be given in 1956. Candidates who complete these two courses and teach successfully during the intervening year will be granted the High School Assistant's Certificate, Type B, on the recommendation of the principal and the secondary school inspector concerned. A condition of enrolment is that the applicant must have signed a contract with a Board of Trustees for the ensuing school year for a position which has been advertised after April 1st and for which no fully qualified teacher has applied. The enrolment at the first summer course in 1955 was 418. All these students were university graduates and 250 had had some previous teaching experience. Many had taken Honour courses in University and may proceed to obtain Specialist qualifications in their special fields in future years. Others had had valuable experience in business or industry.

For the school year 1955-56, Letters of Permission were issued to secondary school Boards for the employment of 307 uncertificated teachers by January 16, 1956. In addition, 35 secondary school Letters of Standing were granted to teachers holding certificates obtained in other provinces or in other countries of the Commonwealth.

NEW BUILDINGS

The new building of the Toronto Teachers' College, 951 Carlaw Ave., Toronto 6, opened for use in September, 1955. Its hollow rectangular design, its spacious court and abundance of glass give the school a bright and airy atmosphere, and its furnishings and interior decoration reflect the contemporary style of the architecture. In addition to regular classrooms, the building provides a double gymnasium, an auditorium, library, medical centre, rooms for instruction in industrial arts and home economics, and common rooms for students and staff. Because of the number of students in attendance, some classes continued to be held in the building previously occupied by the College on the same campus.

Plans were completed during the year for a new building for the Hamilton Teachers' College, to be erected on a site adjacent to McMaster University. This College has been operating in temporary quarters since the destruction of its former building by fire in 1953. A new building is also proposed for London Teachers' College, and a site adjacent to the University of Western Ontario was obtained for this purpose in the year under review.

Schools Attended by French-speaking Pupils

TEACHER SUPPLY

In 1954-55 there were 183 teachers-in-training at the University of Ottawa Teachers' College, 28 of whom were enrolled in the First Class course and 152 in the

Second Class course. Of these, 27 students were awarded First Class Certificates and 129 obtained Second Class Certificates.

There were 2,103 French-speaking teachers employed in the elementary schools and of this number 1,780 or 83 per cent held First or Second Class Certificates.

SECONDARY SCHOOL ENROLMENT

In December 1955 the total enrolment of French-speaking pupils taking advanced French courses in secondary schools of the provincial system was 3,326.⁽⁵⁾

There were in addition 2,181 French-speaking pupils enrolled in Grade 9 and 10 classes of elementary schools and 3,528 students attending inspected private secondary schools.

ELEMENTARY SCHOOL ENROLMENT

In June 1955 there were 65,299 French-speaking pupils enrolled in separate and public elementary schools, an increase of 1,816 over the preceding year.⁽⁶⁾

CORRESPONDENCE COURSES

Correspondence courses for French-speaking pupils for all grades from 1 to 8 have been available since 1946. A revision of the courses for the Primary and Junior divisions (Grades 1 to 6) was completed during the year. Enrolment figures are shown in Part II of this report.⁽⁷⁾

Agriculture

ELEMENTARY SCHOOLS

Agriculture is an optional subject for elementary schools. No separate course of study is provided, but agricultural topics are included in the Natural Science and Science courses outlined in the Programme of Studies for Grades 1 to 6 and in Circular Curriculum I 1. for the Intermediate Division.

SECONDARY SCHOOLS

Instruction in Agriculture is provided in secondary schools in two ways. Courses in Agricultural Science may be given as alternatives to General Science, Physics and Chemistry in Grades 9 to 12. These courses are given in 125 schools in Grades 9 to 12 and in 33 schools in Grades 9 and 10 only. There are 57 schools in which only this Agricultural Science option is taught.

The other provision for agricultural instruction is the creation of a Department of Agriculture in a school and the organization of a two-year course for Grades 9 and 10 which includes Agriculture and Shop Work for boys and Home Economics for girls. There are now 101 schools with Departments of Agriculture.⁽⁸⁾

The total number of pupils taking Agricultural Science in 1955 was 48,592 and taking Agriculture 9,962. There were 14,108 pupils carrying on home projects in connection with their school work.

TEACHER SUPPLY

Instruction in agricultural topics is included as a part of the Science course in Teachers' Colleges, and teachers-in-training who took the Agricultural Science option in their secondary school course may qualify for an Interim Elementary Agriculture Certificate.

⁽⁵⁾ See Table 49.

⁽⁶⁾ See Table 28.

⁽⁷⁾ See p. 10.

⁽⁸⁾ See Table 57.

Graduates of the Ontario Agricultural College who have taken teacher training at the Ontario College of Education, and teachers who have taken qualifying summer courses in agriculture make up the majority of teachers of agriculture in secondary schools.⁽⁹⁾

PRACTICAL WORK

Besides the regular classroom and laboratory work most schools provide gardening or home projects. In addition many schools are equipped with poultry houses, colonies of bees and other special facilities for practical work.

Art

RESEARCH AND PUBLICATIONS

The Department of Education now provides six booklets on art education for teachers in all types of schools. These booklets continue to be in heavy demand throughout the Province and elsewhere.

Saturday morning classes conducted for the purpose of studying the work of children with outstanding ability in art were again held at the Ryerson Institute of Technology from October to March. Ninety children of this description were in regular attendance at the classes and received instruction from a staff of three highly competent art teachers.

SUPERVISION AND TRAINING

Several workshops in art were held in various centres throughout the Province and large numbers of teachers attended. Many enthusiastic teachers again took advantage of the summer courses in art. Teachers who have previously attended the courses may select a programme of studies in line with their own special interests.

Audio-visual Education

SCHOOL BROADCASTS

A programme of one hundred and ten Ontario School Broadcasts covering eighteen different school subjects was prepared for use in the elementary and secondary schools of the Province. Through the courtesy of the British School Broadcasting System, twenty-nine of its broadcasts were made available to our schools. All broadcasts were presented in co-operation with the Canadian Broadcasting Corporation over a network of twenty-seven radio stations.

Radio manuals outlining the broadcasts were distributed to all Ontario teachers in September. Two evaluation surveys to test the effectiveness of the broadcasts were conducted.

Ontario elementary schools have 6,504 classrooms served by central sound systems, and 8,333 schools reported the ownership of school radios.

FILM SERVICE

Films from the Visual Education Branch were shown on 153,921 occasions to a total school audience of 8,003,891 during the school year. This Branch acts as a film-lending agency and has a total of 985 film titles, with 8,397 prints of sound films available for distribution.

A summer course in Audio-Visual Education offered teachers an opportunity to improve their professional training in Audio-Visual techniques.

⁽⁹⁾ See Table 58.

Ontario elementary schools have reported the ownership of 1,292 sound projectors, 1,611 filmstrip projectors, and 433 opaque projectors.

Auxiliary Education

Auxiliary Education services are provided to meet the special needs of the socially, physically or educationally handicapped children. Information, specialized knowledge, and guidance that may be helpful in modifying or supplementing the regular school programme is made available to local school officials. Advisory and consultant services are available for this purpose, but the organization and inspection of special auxiliary classes are now the concern of local authorities and inspectors.

SERVICES

Outside the auxiliary classes and units established in the schools of the Province there are several classes of persons for whose education special provision must be made. Financial assistance is provided for the education of physically handicapped individuals including the deaf-blind, the partially-sighted, the cerebral-palsied, the brain-injured, the paraplegic, and certain patients in sanatoria and hospitals, through correspondence courses, private tuition and special classes. A lending library of text-books printed in large type is maintained to assist pupils with limited vision.⁽¹⁰⁾

RETARDED CHILDREN

Under the authority of The Department of Education Act and its regulations, assistance was provided toward the cost of education of children under eighteen years of age, whose mental capacity is incapable of developing beyond that of a child of normal mentality of eight years of age.

In December, 1955, classes were being held by parents' groups, affiliated with the Ontario Association for Retarded Children in thirty-seven centres—Barrie, Brantford, Burlington, Chatham, Cooksville, Fort William, Galt, Guelph, Hamilton, Kingston, Kirkland Lake, Kitchener, London, Meaford, Milton, Newmarket, Niagara Falls, North Bay, Oakville, Orangeville, Oshawa, Owen Sound, Peterborough, Petrolia, Porcupine, St. Catharines, Sault Ste. Marie, Simcoe, Sudbury, Tillsonburg, Thornhill, Toronto, Wallaceburg, Welland, Windsor, Woodstock, York Township.

In the year 1955 the number of parents' groups to which grants were paid increased from twenty-four to thirty-seven. The number of pupils enrolled increased from 560 to approximately 900.

TEACHER TRAINING

Teachers for special classes who have had at least two years of regular classroom experience are trained in summer courses leading to Elementary, Intermediate, Supervisor's, and Specialist's Certificates. In 1955 two hundred and fifty-five teachers attended these courses.

To assist the Ontario Association for Retarded Children the Department of Education provided a summer course of two weeks duration for teachers and prospective teachers of classes conducted by parent groups affiliated with the Association. The course was held at Hamilton under the leadership of Dr. H. E. Amoss.

Correspondence Courses

COURSES

Courses provided by the Department of Education for persons unable to attend schools include academic subjects for all the grades, 1 to 13, and some trade

⁽¹⁰⁾ See Table 27.

courses. During 1955 the first units of courses in Automotive Mechanics, Carpentry, Machine Shop Practice, and Radio Theory and Practice were prepared and distributed and work was begun on the preparation of second-year units. Bilingual courses for Grades 7 and 8 and some of the other academic courses are in process of revision. All courses are prepared by active teachers. All the academic courses are free to residents of Ontario.

ENROLMENT

The active enrolment in elementary school courses on December 31, 1955 was 764, which included 55 in bilingual courses and 155 adults. At the same date there were 1525 persons enrolled in academic courses at the secondary school level and 74 in trade courses. Some 64,000 lessons were marked during the school year 1954-55.⁽¹¹⁾

Most of the students were residents of Ontario or residents temporarily living in other provinces or abroad. Courses were also supplied to patients in sanatoria and to inmates of penitentiaries, reformatories, or training schools.

Examinations and Scholarships

DEPARTMENTAL EXAMINATIONS

Statistics showing the results of the Grade 13 and the Teachers' College examinations, as well as the number of Intermediate Certificates, Secondary School Graduation Diplomas, and Secondary School Honour Graduation Diplomas, will be found on Pages 42-43, and 115-117.

STUDENT AID

(a) Dominion-Provincial Student-Aid Bursaries

In 1943 a programme of financial assistance was inaugurated in Ontario for students of adequate ability who, because of the lack of sufficient funds, would have been unable to complete their education. Since 1944 the Province of Ontario, under an agreement with the Dominion Government, has, through the Dominion-Provincial Student-Aid Bursary Programme, made 14,536 awards of a total value of \$2,997,324.75. The number and value of awards have increased each year, and this year has been no exception. In the school year 1955-56 a total of \$415,090.75, of which \$100,000 was contributed by the Dominion Government, was divided among 1,667 students who otherwise would not have been able to continue their education.

(b) Transportation Assistance

The transportation subsidies provided by the Department of Education for persons who reside in the territorial districts and are enrolled in an eligible institution of university rank have now been in operation for nine years. In 1955 the sum of \$12,988.25 was paid to 602 students, of whom 399 reside east and 203 west of Sault Ste. Marie.

(c) Scholarships for Study Outside Ontario.

Each year the sum of \$6000 is available from the Consolidated Revenue Fund to provide four scholarships to residents of Ontario for the purpose of enabling them to carry on post-graduate study outside Ontario.

For the school year 1955-56 the holders of these scholarships were Miss Marjorie Fox, Collegiate Institute and Vocational School, Brantford; Mr. B. L. Elliott, Bathurst Heights Collegiate Institute and Vocational School, Township of North York; Mr. James R. T. Sheehy, High School, Ridgetown; and Mr. R. H. Macklem, Public School Inspector, Belleville.

⁽¹¹⁾ See Table 60.

TEACHER EXCHANGE

For the school year 1955-56, sixteen Ontario teachers were on exchange, fifteen in the British Isles and one in British Columbia. From the beginning of the exchange scheme, the Ontario Department of Education dealt directly with the League of the Commonwealth and Empire in England in the making of arrangements for exchange.

Commencing with the exchanges for 1956-57, Ontario has joined the other provinces in having exchanges arranged through the offices of the Canadian Education Association.

Guidance

SERVICES

Guidance is now generally accepted as part of the educational programme, and most schools make provision for individual and group counselling and for a pupil placement service. The need for pupil record files for guidance purposes led to the introduction of a school record system, revised in 1955, which has improved the keeping of official school records.

TRAINING

Summer courses provided training for 145 teachers in Guidance. A refresher course was also held in 1955 for holders of specialist's certificates. Short training courses for teachers in service have been held in twelve centres throughout the province, and more than six hundred teachers, both elementary and secondary, attended.

RADIO BROADCASTS

A series of six programmes with the general theme "Planning for Tomorrow" was presented during the fall term as part of the regular Department of Education Broadcasting programme.

Music

MUSIC INSTRUCTION

Courses in Music under qualified music teachers were provided in more than 80% of the elementary schools of the Province.⁽¹²⁾ Music was also taught in 359 secondary schools. There were 302 school choirs, 98 bands and 88 orchestras in these schools, and 31 operas were performed during the year⁽¹³⁾. Music festivals, competitive and non-competitive, were held in 125 centres with more than 50,000 pupils participating.

TEACHER TRAINING

There were 885 certificated teachers and supervisors engaged in the elementary schools and 276 in the secondary schools of the Province during the school year 1955-56. Music is taught in all the Teachers' Colleges, and there was an enrolment of 545 teachers at the summer courses in Music in 1955.

MUSIC OPTION

Music is an optional subject in secondary schools, and pupils may obtain standing either through the regular school course or by presenting the certificates of certain accredited examining bodies. In 1955, Grade 12 standing was attained by 1282 pupils. Credit in Music toward a Secondary School Honour Graduation Diploma was obtained by 119 pupils who tried the Departmental Grade 13 examinations and by 558 pupils who presented equivalent certificates.

⁽¹²⁾ See Table 59.

⁽¹³⁾ See Table 59.

RADIO

Twenty-five Music broadcasts were presented in four series during January, February and March. "Primary School Music", five 15-minute programmes for Grades 1 to 3; "Junior School Music", five programmes for Grades 4 to 6; "Music for Young Folk", ten 30-minute programmes for Grades 7 to 10; and "Ontario Sings", five 15-minute programmes for Grades 5 to 8 were broadcast with commentary prepared and given in each case by the Director of Music of the Department of Education.

CONCERTS

The concert series sponsored by the Department of Education for nine years was continued. Altogether 1040 concerts have been provided in smaller communities throughout the province, and 283 young artists have been assisted in the beginnings of their professional careers. In 1954-55, 78 artists gave 94 concerts in 29 towns.

School Attendance

COMPULSORY SCHOOL AGE

Children who are six years of age on or before the first school day in September are required to attend school from that date until the last school day in June of the calendar year in which they attain the age of sixteen years.⁽¹⁴⁾

Where the need is urgent a child may be granted a home permit or an employment certificate, covering a period of not more than six weeks in a term if the child is under fourteen years of age.

EMPLOYMENT

The number of home permits issued during the year 1955 was 1,492, an increase of 212 over 1954. The number of employment certificates issued was 4,295, an increase of 971 over 1954.

The increase in both home permits and employment certificates is probably attributable to several causes—increased enrolment, and the large number of requests for permission from pupils who attained the age of sixteen before the end of the school term in June 1955, coincident with increased opportunities for employment.

Physical and Health Education

SCHOOL PROGRAMME

The improvement of teaching is a matter of concern to teachers of Physical Education. Besides the summer schools provided for this purpose by the Department of Education, the teachers themselves are organizing courses during the school year. Weekend courses and night school classes for helping inexperienced teachers have been organized. There have also been a number of conferences on the planning of courses and the development of more effective supervision.

CAMP PROGRAMME

ONTARIO ATHLETIC LEADERSHIP CAMP

Four hundred and forty boys and girls were selected from the secondary schools of the Province on the basis of high academic standing, membership on a school team, and service in a school organization, to attend a two-week leadership

⁽¹⁴⁾ See Table 25.

course. These potential leaders were given a wide variety of athletic and camp activities to fit them for service to their school and community.

ONTARIO CAMP LEADERSHIP CENTRE

Two hundred and ten boys and girls selected by non-profit camps were given leadership courses of three weeks' duration, fitting them for service as counsellors in camps sponsoring them. The three-thousand-acre site of this camp offered excellent opportunities for training in nature lore, camp craft, water safety and the planning of camp activities.

Grants are paid to more than 350 non-profit camps in Ontario. The amount distributed is in excess of \$40,000.

Community Programmes

SERVICES

Communities are assisted in the organization of programmes of recreation and adult education by the Community Programmes Branch of the Department of Education, which works in co-operation with municipal Recreation Committees, School Boards, provincial and community organizations and other interested bodies. Field representatives acting as consultants for their areas are stationed at Fort William, North Bay, Ottawa, Belleville, Toronto, Oakville, Hamilton, London and Hanover. Special advisers on the central staff are available to give assistance in Art, Crafts, Recreational Facilities, Social Recreation, Gerontology, Puppetry, and Rural Projects. Loan services are provided for films, dramatic scripts, musical scores, and reference books.

GRANTS

In 1955 there were 238 municipalities with organized programmes and 74 communities employing full-time Recreation Directors. Ten local museums were associated with the Recreation programme. Grants, as provided by the Regulations were paid to 129 Municipal Councils, to the amount of \$313,064.

LEADERSHIP TRAINING

Summer courses for training instructors in Art, Crafts, and Drama were held in Guelph and Peterborough. These classes were attended by 112 persons. Courses which trained 758 playground supervisors were held at eleven centres through the Province. In addition, training for Nature Study leaders, and for Community Leaders was provided and, in co-operation with the Department of Agriculture, rural leadership forums were conducted in several counties.

CITIZENSHIP EDUCATION

The work with newcomers to Canada is one of the most important functions of the Community Programmes Branch. Classes in English and in the government, history, and geography of Canada are assisted. In 1955 there were 637 classes operated by School Boards, 162 classes operated by voluntary associations and 36 classes operated by the Community Programmes Branch, in which 17,549 persons received instruction. Projects and activities relative to the integration of new citizens into Canadian ways are also encouraged.

CO-OPERATION

The Community Programmes Branch works in co-operation with many other agencies: The Canadian Association for Adult Education; The Citizenship Branch of the Department of Citizenship and Immigration; Ontario Federation of Home and School Associations; University Extension departments; the Folk School Council; the

Ontario Department of Agriculture; the Ontario Department of Public Welfare; the Ontario Association of Film Councils; the Ontario Recreation Association; the Federation of Ontario Naturalists; the Museum Association; Ontario Tuberculosis Association; and various sports associations.

Public Libraries

BUILDINGS

The erection of new buildings and the reconstruction of old ones is an indication of healthy development of public library service in the Province. No compulsion is placed upon municipalities to improve their facilities, and Councils have acted willingly in the recommendations of Library Boards.

New buildings were opened during 1955 in Oakwood, Norland, Newmarket, Byron, Riverside, and Etobicoke. Buildings have been remodelled for library purposes in Cornwall, Oakville, Dunnville, King City, Bradford, and Thornhill. The library buildings in Niagara Falls and Sudbury have been enlarged, and the county libraries in Huron and Simcoe are now located in their own quarters in the new county buildings.

SERVICES

At the end of 1955 there were 251 public libraries, 231 library associations, 51 branch libraries and 14 county or district libraries. There are now 24 book-mobiles in operation. The population served by all these agencies is about 3,300,000. The total cost of operation was \$4,783,000, of which \$825,000 was spent on books. The total circulation of books in 1954 was 18,000,000⁽¹⁵⁾

GRANTS

Legislative grants to all libraries amounted to \$865,000. The average public library tax rate was 82 cents per capita in 1954, and the per capita expenditure for that part of the population served by tax supported libraries was \$1.45.

TRAVELLING LIBRARIES

This service distributed 1,484 cases of books in 1955. Improved local library service may be responsible for the slight decrease. An arrangement has been made with the Frontier College to extend the travelling library service to the lumber and construction camps in which the College is active.

Public Records and Archives

MANUSCRIPT DIVISION

Government Records—An examination was made of a large number of records in the following government departments: Lands and Forests, Treasury, Labour, Education. From the Department of Labour a number of valuable records covering in general the period 1930-1950 were received from the offices of the Minister, the Deputy Minister, the Senior Investigator, the Chief Conciliation Officer, the Factory Inspection Branch, and the Industry and Labour Board. From the Department of Education (Community Programmes Branch) records were received, and also from the Attorney General's Department (miscellaneous records of the Official Guardian's Office). In all, twenty-eight agreements for the transfer or other disposal of records in various departments were made during the year.

⁽¹⁵⁾ See Table 54.

Inventories of the correspondence of Prime Ministers Drury and Ferguson (including a complete list of file titles) were completed. The task of processing the records of the old Crown Lands Department and the Department of Labour has been continued, with the intention of compiling inventories.

A special effort was made to acquire municipal records, and some most valuable early records of the old Newcastle District (Northumberland, Durham, Peterborough, and Victoria Counties) were examined and either microfilmed or acquired. These included census and assessment rolls from 1802-1870, Quarter Sessions records, registers of licences for taverns, etc. Other records were acquired from the Prince Edward and Victoria (Hastings County) Districts. A survey was made of the municipal records of several counties, chiefly in South-western Ontario.

A most valuable acquisition was a microfilm copy of the following records in the Public Archives of Canada: State and Land Minute Books of the Executive Councils of Upper Canada and the Province of Canada, 1787-1867 and dispatches from the Colonial Office to the Governors, 1796-1866. By this use of microfilm we have acquired reproductions of a very large number of records of primary importance to historians. Arrangements have been made to acquire further copies of records from Ottawa.

Microfilm and photostat copies were made from originals in the Peterborough Public Library of the Peter Robinson papers relating to the settlements in the Bathurst District and Peterborough County.

A number of other smaller collections and individual manuscripts were received. These included the following:

- (1) Papers of Alexander Neil Bethune (second Anglican Bishop of Toronto), 1835-1878;
- (2) Scrap Books of John Dryden (Minister of Agriculture), 1891-1904;
- (3) Papers of Sir Charles Moss (Chief Justice of Ontario), 1835-1912;
- (4) A few papers of Sir William Mulock (politician and judge, Postmaster-General of Canada), 1891-1915;
- (5) Papers of Sir Henry R. Smith (politician), 1812-1868;
- (6) Wallbridge Family Papers (Lewis Wallbridge was Speaker of the Assembly of United Canada), 1824-1896;
- (7) Photostat copies of letters (some written by the Hon. J. P. Whitney) relating to scheme for water power development, 1901-1906.

THE LIBRARY

The books, pamphlets, and government publications received during the year have been catalogued. A collection of hitherto uncatalogued railway and steamship material has been organized and catalogued. This collection contains a good deal of rare material.

NEWSPAPER DIVISION

During the year, work continued on a card catalogue for newspapers, which, although not entirely completed, is now in use. Gifts of newspapers were received, and additions were made to the newspapers on microfilm, including early newspapers of the Niagara, St. Thomas, and Windsor areas.

MAPS AND PICTURES DIVISION

Several important maps were acquired during the year: four county "Tremaine" maps, maps of Haldimand County (1855) by Owen, and of Essex (1877) by Walling. Dr. A. E. MacDonald kindly allowed photostats to be made of a large number he had acquired. The usual current maps were received and catalogued.

Only a few pictures were added to our collection in 1955.

Trade Schools

REGISTRATIONS

One hundred and fifteen trade schools were registered with the Department of Education in 1955. Several of these operate branch schools which would bring the total of schools to 135. Three trade schools discontinued operations during the year.

The enrolment of schools teaching electronics, radio, and television has increased. A few new schools have opened in this field, and enquiries have been received from schools outside Ontario considering the possibilities of opening branches here.

The demand for trained secretarial workers continues, and students are being induced to accept employment before they finish their courses. The schools feel that this exodus of partially trained personnel is likely to reflect unfavourably on the reputations of the schools.

Schools registered under The Trade Schools Regulation Act have, in general, shown a desire to co-operate in meeting the requirements of the Act and Regulations and to provide an adequate service to the public.

Ontario School for the Deaf

ENROLMENT

The September 1955 enrolment was 382, an increase of 5 over that of the previous year.⁽¹⁶⁾ Most of the children were profoundly deaf. Their hearing losses were as follows: 90-100 decibels, 236 pupils; 80-89 decibels, 43 pupils; 70-79 decibels, 45 pupils; 60-69 decibels, 35 pupils; 50-59 decibels, 20 pupils; less than 50 decibels, 3 pupils. The three pupils with hearing losses less than 50 decibels were not only hard-of-hearing but lived in communities where special provision could not be made for their education.

PROGRAMME

The school programme was built around a basic academic and vocational training. Physical education and participation in inter-school competition with neighbouring schools provided valuable social and physical training. School plays and pageants were presented, and a display of work was a feature of the annual visiting day.

Ontario School for the Blind

ENROLMENT

There were 186 pupils enrolled in the school year 1955-56.⁽¹⁷⁾ Six withdrew during the year. Of these 180 pupils 13 were from Alberta, 24 from Saskatchewan, 26 from Manitoba, one from Quebec, one from Peru and the remainder from Ontario.

PROGRAMME

A balanced programme of academic, creative, physical, musical, and social activities was provided to meet the needs of the students. Seven students completed the work of Grade XII and qualified for the Secondary School Graduation Diploma, and eleven students were successful in the examinations of the Royal Conservatory of Music (Toronto).

⁽¹⁶⁾ See Table 61.

⁽¹⁷⁾ See Table 62.

Service Record

IN MEMORIAM

EDWARD J. CORKILL, B.A., who retired as Inspector of Public Schools on December 31, 1932, died on September 1, 1955, in Napanee. Mr. Corkill was born September 16, 1860, in the Township of Loughborough in Frontenac County where he received his elementary school education. He later attended the Sydenham High School and the Kingston Model School. Mr. Corkill taught in several public schools in Frontenac County before entering Queen's University from which he graduated in 1886. Following graduation he taught in Orangeville, Mount Forest, Harriston and the Collegiate Institutes in Sarnia and Napanee. He was appointed Public School Inspector for Lennox County by the County Council in 1917 and served in this capacity for fifteen years. As an inspector, Mr. Corkill was devoted to his work and as a result of his leadership the schools under his supervision made outstanding progress. He took a real interest in the affairs of the community and gave of his talents to improve the lot of his fellow man.

LT.-COL. WALTER JOYCE, V.D., passed away in Brantford on April 22nd at the age of 83. He was born in Wentworth County and attended the Bronte Public School and the Oakville High School. He graduated from the Ottawa Normal School and the Faculty of Education of Queen's University. Col. Joyce taught in rural schools in Halton and Brant Counties. He served as Principal of Plattsville Public School, Mount Pleasant Public School, and Central Public School, Brantford. He secured his Arts degree from Queen's University. Col. Joyce's military career started with a corps of cadet instructors and continued through the Dufferin Rifles of Canada of which he became Officer Commanding. He went overseas during the First Great War with the rank of major in the 215th Battalion. Later he transferred to the British Corps Headquarters. In January, 1932, Col. Joyce was appointed Public School Inspector for the County of Brant. He retired from this position in August, 1942. Col. Joyce was concerned with the promoting of many educational and civic projects. At the time of his passing the following paragraph appeared on the editorial page of the Brantford Expositor:

"Col. Walter Joyce was a good citizen, a good teacher, a good educational executive, and a good soldier. It follows that he was a good friend to many people in many ranks of society. He will be missed by generations of school pupils, now grown up, and by his innumerable friends in the several avenues of life through which he walked."

JOHN LESLIE MOORE, B.A., retired Inspector of Public Schools for Parry Sound, died on November 18, 1955. He was born in Halton County and later attended Acton Public School, Georgetown High School, Parkdale Collegiate Institute in Toronto, and Hamilton Normal School. Later, he graduated from Queen's University with an honour B.A. with specialist standing in Modern Languages. Mr. Moore taught in Norway Public School, East Toronto, Peterborough Collegiate Institute, North Toronto Public and Continuation School and Parry Sound High School. He served as Public School Inspector for Parry Sound from January, 1911, to September, 1942. Mr. Moore gave thirty-one years of outstanding leadership as an Inspector. During his fourteen years of retirement he maintained an active interest in his local church and clubs. He is survived by his wife and daughter.

MARVYN R. REID, M.A., who retired as Inspector of Public Schools in Lennox County in 1938, died on December 20, 1955, in Napanee. Mr. Reid obtained his early education in the rural schools of Lennox County and in the Napanee Collegiate Institute from which he graduated in 1893. He received his B.A. degree from Queen's University in 1897 and graduated from the Normal College in Hamilton in 1898. He also held the M.A. degree from Queen's University. Mr. Reid taught in the secondary schools in Dunnville, Napanee and Sydenham until

1910 when he was appointed Public School Inspector in Frontenac County. In 1934 he was transferred to Lennox County where he served until his retirement. Mr. Reid's long association with education in this area, first as a student, then as teacher, and finally as inspector, left a noteworthy influence upon the life of this section of the Province.

SAMUEL SHANNON, B.A., was born in Elma Township, County of Perth, in 1871. He attended the rural school in S. S. 4 Elma and later the Listowel High School. He graduated as a Specialist in Science from Victoria College in 1895. Thence he taught in Drayton for three years. Following the Trail of '98 to the Yukon, he spent several years there and in British Columbia as a prospector and teacher. In 1906 he returned to Ontario where he became Branch Manager of the Lake Simcoe Ice Company. In January, 1918, he was appointed Principal of the Bracebridge Continuation School which position he held until September, 1920, when he became Principal of Kenora High School. In September, 1922, he was appointed Inspector of District Division 1, with residence at Kenora. He retired on August 31, 1941. Mr. Shannon passed away on August 20, 1955. Mr. Shannon possessed in a high degree those qualities necessary in a successful business man and educational leader.

DONALD GORDON SMITH, B.A., Public School Inspector for East Middlesex, died in London on February 26, 1955, at the age of 68. Mr. Smith was born in Yarmouth Township in Elgin County. His early education was received at S. S. 24 Yarmouth, St. Thomas Collegiate Institute and St. Thomas Model School. After this he taught for three and a half years in S. S. 23 Yarmouth. Mr. Smith attended Queen's University Faculty of Education and taught in Thamesville Continuation School and Port Arthur Public School. He returned to Queen's University and graduated with honours in Science in 1922 and became head of the Science Department in North Bay Collegiate Institute. On January 1st, 1925, he was appointed Public School Inspector at Haileybury. On January 1st, 1935, Mr. Smith became Inspector for Middlesex East. He served this inspectorate for twenty years. During that period the number of teachers increased from 125 to 391, which required the appointment of an assistant inspector. Mr. Smith was a very kind man and devoted his entire energy to improving instruction in his schools. He was beloved by his teachers and trustees. He is survived by his wife, Frances Louise, nee MacGregor, and his two daughters, Mrs. A. L. McKenzie (Jean), and Katharine, who are graduates of Western University.

DANIEL THOMAS WALKOM, B.A., who retired on August 31, 1949, as Public School Inspector of District Division 6, with headquarters in Sault Ste. Marie, was drowned off St. Joseph's Island on August 7, 1955. Mr. Walkom was born near Essa where he obtained his elementary education. Upon graduation from the Barrie Collegiate Institute he attended the Bradford Model School and taught for three years. When he secured his Arts degree from Queen's University he joined the staff of the Sault Ste. Marie High School where he remained for ten years. In 1921 he was appointed Public School Inspector at Cochrane and one year later was transferred to Sault Ste. Marie. Mr. Walkom rendered splendid service to the cause of education in Ontario. He was beloved by all who knew him and young and old mourned his tragic passing.

RETIREMENTS

W. E. M. AITKEN, M.A., Ph.D., retired as a Master, Toronto Teachers' College, on October 21, 1955. After obtaining his secondary school education at Sarnia Collegiate Institute, Dr. Aitken qualified for the M.A. degree at the University of Toronto and the Ph.D. degree at Harvard University. Prior to his appointment in 1931 to the staff of the Toronto Normal School, he was engaged in the field of technical education. Dr. Aitken's special interests in teacher education lay in the social studies and educational psychology. He is the author of several textbooks and a number of articles in educational publications. A teacher of high scholarship, Dr. Aitken made a valuable contribution to education in this Province.

MISS D. L. EMERY, A. O. C. A., retired as Instructor in Art at London and Stratford Teachers' Colleges on August 31, 1955. Miss Emery first served as a teacher in the public school of Stratford, Ontario. Qualifying as an Associate of the Ontario College of Art, she later studied under Franz Cizek of Vienna, the celebrated pioneer in children's art. Miss Emery joined the staff of the London Normal School in 1923, and in 1938 assumed the additional duty of art instructor at Stratford Normal School. Ever alert to new trends in her chosen field, Miss Emery gave skilled and generous leadership to countless student teachers during her years of service in the Teachers' Colleges.

WESLEY A. FYDELL, B.A., B.Paed., Public School Inspector for York Township, retired on April 5, 1955. Mr. Fydell was a son of the parsonage. His father, the late Thomas R. Fydell, held Methodist charges in various centres in Western Ontario, and Wesley, as a boy, attended public schools in Markdale, Hepworth and Harriston. His secondary education was secured in the high schools in Smithville and Chesley and in the Owen Sound Collegiate Institute. Mr. Fydell attended the Hamilton Normal College in 1905-06 and later secured Arts and Pedagogy degrees from the University of Toronto. His first teaching experience was in a rural school in Kent County. Later he served as Principal of the Elmvalle Continuation School, and the Wolseley Continuation School in Saskatchewan. In 1910 he was appointed to the teaching staff of the Toronto Public Schools. While Acting Principal of York Street Public School, he enlisted for Active Service in the First World War. On his discharge he was appointed Principal of Runnymede Public School and served until his appointment as Inspector of York, Division 1, on January 1, 1929. Mr. Fydell served the cause of education well. He was esteemed by the teachers and pupils and the schools under his supervision made splendid advancement during his long period of service.

HAROLD A. HALBERT, B.A., B.Paed., was born in Dufferin County and attended a rural school in Essa Township. He received his secondary education at the Barrie Collegiate Institute. Upon graduation from the Faculty of Education, Mr. Halbert taught in rural schools in Durham and Dufferin Counties for four years. In 1911 he was appointed to the staff of the Toronto Public Schools. He served as Principal of St. Clair Avenue, Strathcona, Pauline and Alexander Muir Public Schools. He graduated in Arts and Pedagogy from the University of Toronto. In September, 1939, Mr. Halbert was appointed Inspector of Dufferin County and three years later was transferred to York No. 6. In September, 1954, when the Township of Scarborough appointed its own supervisory officers, Mr. Halbert took over the inspectorate of York No. 3 (Township of Vaughan). He retired in August, 1955. Mr. Halbert made a most valuable contribution to education. Many larger units of administration were formed in the inspectorates in which he served. He worked faithfully to provide the best in education for boys and girls and was beloved by them. His teachers, too, held him in high regard and, as a result, his schools progressed rapidly.

RENE LAMOUREUX, B.A., Ph.D., retired as Principal of the University of Ottawa Teachers' College on November 1, 1955. Dr. Lamoureux was appointed first principal of the College in November, 1927, at the time of its establishment. During his twenty-eight years of service he supervised the preparation of more than four thousand teachers for elementary schools in which French is a subject of instruction. A recognized authority on methods of teaching in these schools, he has been a frequent speaker at educational meetings throughout the Province. His wise leadership and kindly counsel are recalled with gratitude by his former students and associates.

W. B. ROTHWELL, retired as Instructor in Music at the Stratford Teachers' College on August 31, 1955. Mr. Rothwell received his musical education in England, and joined the staff of the Stratford Normal School in 1925. An able teacher, Mr. Rothwell not only contributed usefully to the education of his students, but also gave appreciated leadership in the music festival movement throughout the Province.

KEITH S. WIGHTMAN, B.A., B.Paed., retired from the position of Superintendent of Schools for the Peterborough Board of Education on June 30, 1955. Mr. Wightman was born in Sarnia, where he received his elementary and secondary education. After graduation from the London Normal School he taught at Sombra, Hanover, Innerkip and Sandwich and for two years was a member of the staff of the Cookstown Continuation School. In 1917, Mr. Wightman was appointed Principal of South Central Public School in Peterborough and later served as Principal of the Prince of Wales and Central Public Schools there. He is a graduate of Queen's University and of the University of Toronto. In 1937 he was appointed Inspector of Public Schools for the City of Peterborough and in July, 1948, was named Superintendent of Schools. In 1949 the office of Secretary-Treasurer of the Peterborough Board of Education was added to his duties. As principal and as administrator Mr. Wightman has had an important influence on the educational programme in the City of Peterborough for almost forty years. His former students and associates wish for him many years of well-earned leisure.

RESIGNATIONS

JOHN H. CAMPBELL, B.A., B.Paed., Public School Inspector without designated area, resigned on September 30, 1955.

LEONARD A. CODE, B.A., M.Ed., resigned on August 31, 1955, to accept a teaching position in Scarborough. Mr. Code was appointed Public School Inspector without designated area on September 1, 1950. One year later he became Inspector of Public Schools for the County of Essex and continued in this position for four years.

JOHN J. B. HEALY, B.A., B.Paed., Separate School Inspector for R.C.S.S. Division 34, served for one year only. On September 1, 1955, Mr. Healy was appointed Acting Principal of London Teachers' College, Division B.

Branch, September 1, 1955.

Elementary School Inspection

APPOINTMENTS

The following appointments were made to the provincial staff of inspectors during the year 1955:

Department of Education

B. E. Michaud, B.A., B.Paed., Separate School Inspector for R.C.S.S. Division 4, appointed Assistant Superintendent of Elementary Education. May 1.

City of Guelph (New Inspectorate)

F. A. Hamilton, B.A., B.Paed., Principal, Guelph Collegiate-Vocational Institute, appointed Director of Education. Aug. 1.

City of Hamilton

G. R. Force, B.A., B.Paed., Principal, W. H. Ballard Public School, Hamilton, appointed a Public School Inspector. Sept. 6.

City of London

M. W. Chalmers, B.A., B.Paed., of the London Teachers' College staff, appointed a Public School Inspector. Sept. 1.

City of Ottawa

G. Peacock, B.A., B.Ed., Principal, Connaught Public School, Ottawa, appointed a Public School Inspector. Aug. 1.

City of Peterborough

E. P. Ray, M.A., Ph.D., Principal, Kenner Collegiate Institute, Peterborough, appointed Director of Education. Aug. 1.

Toronto Metropolitan Area (Etobicoke)

P. W. Buddenhagen, B.A., B.Paed., Supervising Principal, Etobicoke Public Schools, appointed a Public School Inspector. Sept. 1.

A. M. Turner, B.A., Supervising Principal, Etobicoke Public Schools, appointed a Public School Inspector. Sept. 1.

Toronto Metropolitan Area (Scarborough)

C. S. Loughhead, B.A., M.Ed., Principal, Wexford Public School, Scarborough, appointed a Public School Inspector. Sept. 1.

Durham West and Ontario South

T. H. Houghton, B.A., B.Ed., Principal, Ajax Senior School, appointed Public School Inspector, part time in each inspectorate, to assist Inspector T. R. McEwen in Durham West, and Inspector A. Archibald in Ontario South. Sept. 1.

Essex No. 1

G. F. Mann, B.A., B.Ed., Principal, Victoria Public School, Owen Sound, appointed Public School Inspector to assist Inspector F. A. Leitch. Sept. 1.

Essex No. 2

E. W. Young, B.A., B.Ed., Principal, King George Public School, Brantford, appointed Public School Inspector. Sept. 1.

Huron No. 3

G. J. Goman, B.A., Senior Boys' Auxiliary Teacher, Kitchener, appointed Public School Inspector. Sept. 1.

Middlesex No. 1

R. J. McNaughton, B.A., B.Paed., of the Stratford Teachers' College staff, appointed Public School Inspector. Sept. 1.

Middlesex No. 1 and Middlesex No. 2

A. A. James, B.A., M.Ed., Teacher, Chesley Avenue Public School, London, appointed Public School Inspector to assist Inspector R. J. McNaughton in Middlesex No. 1 and Inspector H. A. Griffith in Middlesex No. 2. Sept. 1.

Peel South

G. T. Hackett, B.A., B.Ed., Teacher, Charles G. Fraser Public School, Toronto, appointed Public School Inspector to assist Inspector A. A. Martin. Sept. 1.

Renfrew West

B. H. Bennett, B.A., Supervising Principal, Lindsay Public Schools, appointed Public School Inspector. Sept. 1.

Simcoe South

L. W. Clark, B.A., B.Ed., Principal, Alexandra Public School, Owen Sound, appointed Public School Inspector. Sept. 1.

Wentworth

C. W. Gabel, B.A., B.Paed., Teacher, Sheppard Public School, Kitchener, appointed Public School Inspector to assist Inspector J. K. Evans. Sept. 1.

R.C.S.S. Division 4

A. Joubert, B.A., Principal, S.S. 1 Hanmer, appointed Separate School Inspector. Sept. 1.

R.C.S.S. Division 34

J. D. Hogan, B.A., B.Paed., Principal, St. Thomas Aquinas School, Toronto Metropolitan Separate School Board, appointed Separate School Inspector. Sept. 1.

R.C.S.S. Division 38 (New Inspectorate)

F. R. Mills, B.A., B.Paed., Teacher, South Porcupine High School, appointed Separate School Inspector. Sept. 1.

TRANSFERS

The following transfers were made in the provincial staff of inspectors during the year 1955:

W. G. Anderson, B.A., B.Paed., from Wentworth to Oxford North and City of Woodstock to assist Inspector G. M. Mather. Sept. 1.

C. Cornwell, B.A., from Renfrew West to Waterloo No. 3. Sept. 1.

J. A. Gibson, B.A., B.Paed., from Simcoe East to Toronto Metropolitan Area (Swansea, Weston) and York No. 4. Sept. 1.

M. W. Holmes, B.A., M.Ed., from Toronto Metropolitan Area (York) to Toronto Metropolitan Area (Forest Hill, Leaside). Sept. 1.

D. J. Hynes, B.A., B.Paed., from Waterloo No. 2 to Peterborough Board of Education, Superintendent of Public Schools. Aug. 1.

D. A. Lapp, M.A., from Simcoe South to Simcoe East. Sept. 1.

Miss L. L. McNeil, B.A., B.Paed., from Peel South to Toronto Metropolitan Area (York) to assist Inspector W. G. Chatterton. Sept. 1.

G. A. Noble, B.A., B.Paed., from Toronto Metropolitan Area (Forest Hill and Leaside) to Toronto Metropolitan Area (North York). Sept. 1.

STATISTICS

1. General

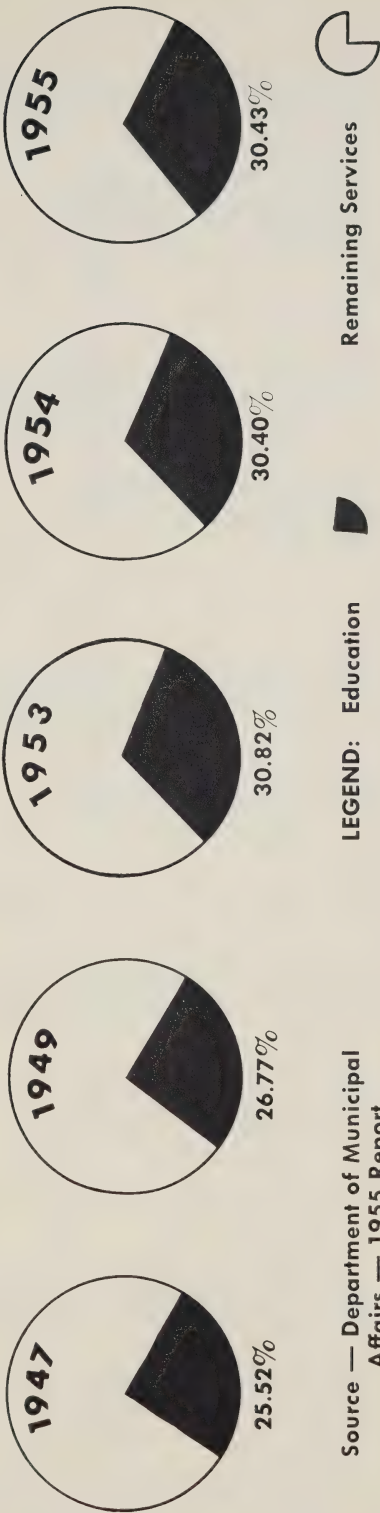

CHART 1. EDUCATION IN RELATION TO OTHER MUNICIPAL SERVICES

Percentage Increase in Expenditures, 1947-1955

(1947 = 100%)

EXPENDITURE	1947	1949	1953	1954	1955
Education Levies, including debt charges	100.0%	133.1%	244.5%	274.1%	307.4%
Remaining Municipal Services*	100.0%	124.7%	188.1%	215.0%	240.8%

TABLE 18—PUPIL TRANSPORTATION

School Boards continue to employ contractors, rather than own and operate busses. Less than 2% of the school busses are owned by School Boards.

During the school year 1954-55 the approved cost per pupil-day dropped 4 cents, while the approved cost per mile increased 1 cent. The total number of routes increased by 79, while the total approved cost increased by \$544,201.

Totals	57,163	320	76,700	103,699,000

Notes: 1. Minor revisions in increased enrolment in the years 1946 and 1947 appear in this issue.

2. Enrolment increases are calculated on September enrolments.

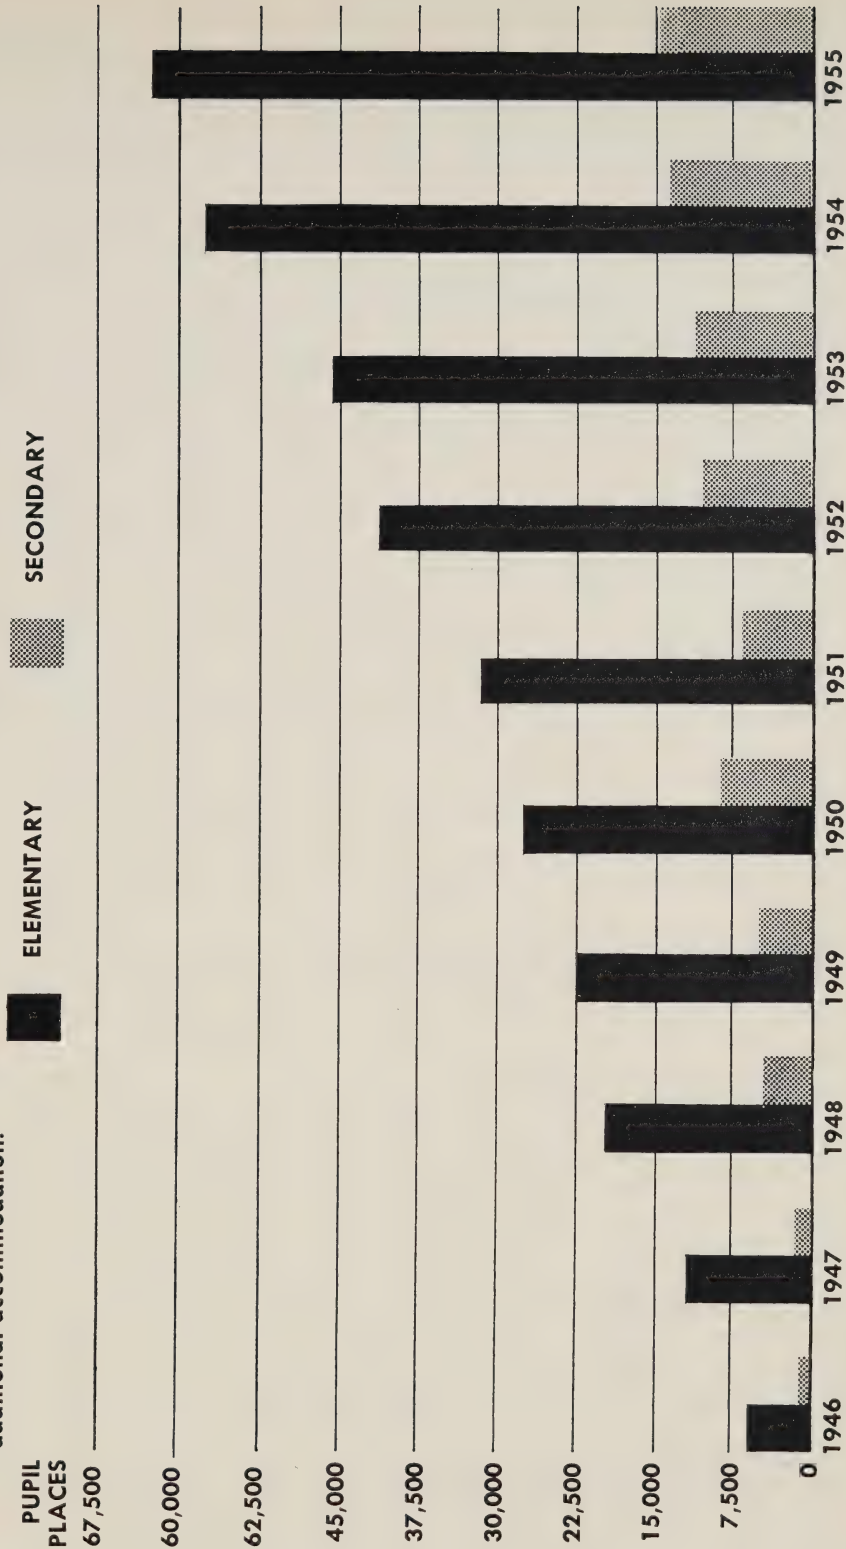

3. Building projects are counted in the year of completion.

4. No account is taken in this table of pupil-places lost as a result of the following factors; shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.

Source: Technical Adviser, Department of Education.

CHART 3—POST-WAR SCHOOL BUILDING CONSTRUCTION

The effectiveness of the school building programme in Ontario is indicated below in school terms, i.e. new pupil places provided by the construction of new schools and additions for each year from 1946 to 1955. The total for ten years is 323,915 pupil places in elementary and 76,700 in secondary schools. This includes replacements and additional accommodation.

Source: Technical Adviser, Department of Education.

TEACHERS AND PUPILS OF AUXILIARY CLASSES IN EACH OF THE SCHOOL YEARS 1949-1955

A—OPPORTUNITY CLASSES

For those children who have not successfully pursued the ordinary grade work.

Description	1949-50	1950-51	1951-52	1952-53	1953-54	1954-55
PUBLIC						
Total Number of Teachers	153	157	164	173	181	213
Total Number of Pupils	2,701	2,724	2,842	3,043	3,133	3,621
Boys	1,728	1,751	1,837	1,980	1,807	2,310
Girls	973	973	1,005	1,063	1,326	1,311
R.C.S.S.						
Total Number of Teachers	25	22	26	25	22	23
Total Number of Pupils	455	426	455	448	366	382
Boys	284	270	243	287	191	201
Girls	171	156	212	161	175	181
PARTIAL CLASSES						
Total Number of Teachers	5	5	3	9	3	6
Total Number of Pupils	56	69	26	233	51	109
Boys	31	42	11	163	21	47
Girls	25	27	15	70	30	62

B—HANDICRAFT AND SPECIAL INDUSTRIAL CLASSES

For children thirteen years of age who are eligible for an Opportunity Class

Description	1949-50	1950-51	1951-52	1952-53	1953-54	1954-55
Total Number of Teachers	183	197	194	184	139	117(i)
Total Number of Pupils	3,389	3,580	2,486	2,611	2,783	1,405
Boys	2,354	2,469	1,865	1,679	1,901	987
Girls	1,035	1,111	621	932	882	418

(i) This figure does not contain the special industrial classes.

C—OPPORTUNITY UNITS

Description	1949-50	1950-51	1951-52	1952-53	1953-54	1954-55
Total Number of Teachers	162	98	107	158	135	186
Total Number of Pupils	458	307	324	443	438	464
Boys	308	198	212	295	293	306
Girls	150	109	112	148	145	158

TABLE 27—AUXILIARY CLASSES (Cont.)

D—ORAL, HARD-OF-HEARING, SPEECH CORRECTION AND LIP READING CLASSES
For children who are deaf, partially deaf, or have speech defects

Description	1949-50	1950-51	1951-52	1952-53	1953-54	1954-55
ORAL						
Total Number of Teachers	15	16	18	18	16	19
Total Number of Pupils	126	147	157	161	133	187
Boys	64	78	83	77	67	89
Girls	62	69	74	84	66	98
HARD-OF-HEARING						
Total Number of Teachers	6	6	5	5	6	9
Total Number of Pupils	59	66	52	60	71	92
Boys	25	30	24	28	35	48
Girls	34	36	28	32	36	44
SPEECH CORRECTION AND LIP READING						
Total Number of Teachers	29	30	35	35	47	37

E—SIGHT SAVING CLASSES

For children whose sight prevents them from making satisfactory progress, or whose eyes would be impaired by using ordinary text books.

Description	1949-50	1950-51	1951-52	1952-53	1953-54	1954-55
Total Number of Teachers	9	9	9	8	8	8
Total Number of Pupils	108	116	123	110	119	121
Boys	62	68	66	64	74	76
Girls	46	48	57	46	45	45

F—RURAL AND URBAN SIGHT SAVING UNITS

For Children with defective eyesight.

Description	1949-50	1950-51	1951-52	1952-53	1953-54	1954-55
Total Number of Teachers	193	208	217	211	188	241
Total Number of Pupils	203	247	267	217	208	262
Boys	109	133	148	123	119	189
Girls	94	114	119	94	89	73

G—ORTHOPAEDIC CLASSES

For children who are disabled.

Description	1949-50	1950-51	1951-52	1952-53	1953-54	1954-55
Total Number of Teachers	17	27	29	29	17	18
Total Number of Pupils	195	282	349	308	202	252
Boys	111	166	206	169	110	141
Girls	84	116	143	139	92	111

TABLE 27—AUXILIARY CLASSES (Cont.)

H—ORTHOPAEDIC UNITS

TABLE 37—ROMAN CATHOLIC SEPARATE SCHOOL ENROLMENT

(Continuous Record from Last School Day in June to
Last School Day in September)

ENROLMENT, LAST SCHOOL DAY IN JUNE, 1955..... 173,503

ADMISSIONS SINCE LAST SCHOOL DAY IN JUNE:

(a) Pupils from outside Ontario.....	1,977
(b) Pupils enrolled previously in another public or separate school in Ontario.....	22,776
(c) Others—pupils whose names were entered on the roll of a public or separate school for the first time.....	24,403

TOTAL ADMISSIONS..... 49,156

TOTAL, JUNE ENROLMENT AND ADMISSIONS..... 222,659

TRANSFERS SINCE LAST SCHOOL DAY IN JUNE:

(a) To public or separate schools.....	18,901
(b) To secondary schools.....	9,641

TOTAL TRANSFERS..... 28,542

RETIREMENTS SINCE LAST SCHOOL DAY IN JUNE:

(a) Left Ontario.....	839
(b) To private schools.....	3,389
(c) Died.....	27
(d) Health reasons.....	121
(e) Ceased to attend school (other than in (a), (b), (c), or (d)). .	2,373

TOTAL RETIREMENTS..... 6,749

TOTAL TRANSFERS AND RETIREMENTS..... 35,291

ENROLMENT, LAST SCHOOL DAY IN SEPTEMBER, 1955..... 187,368

Provincial Technical Institutes.....	64	9,475.00
	1,165	\$189,637.00
Totals.....	1,797	\$316,861.50

Total Applications Received 1954-55

Type A Bursaries..... 1,322

Type B Bursaries..... 1,538

Note: The decrease in the number of Type A awards this year is due chiefly to the redistribution of the allotted awards for Secondary Schools which allowed for the increase in the value of Type A awards to applicants entering University.

TABLE 52—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN THE
TERRITORIAL DISTRICTS
1955-56

The Province of Ontario provided transportation assistance to 602 students during the school year 1955-1956. \$12,988.25 was paid to 399 students residing east of Sault Ste. Marie and 203 students residing west of Sault Ste. Marie. Of those assisted 180 were in the first year, 179 in the second year, 140 in the third year, 91 in the fourth year, 11 in the fifth year and 1 in the sixth year.

The institutions attended by these students were as follows:

University of Toronto.....	166
Queen's University.....	177
University of Western Ontario.....	115
University of Ottawa.....	35
Ontario Agricultural College.....	12
Ontario Veterinary College.....	2
Ontario College of Education.....	23
MacDonald Institute.....	7
Assumption College.....	21
McMaster University.....	8
Ontario College of Art.....	8
Sacred Heart College.....	9
Osgoode Hall Law School.....	18
Carleton College.....	1
	602

TABLE 53—EVENING CLASSES HELD IN SECONDARY SCHOOLS
1954-1955

Evening classes were conducted in 164 centres through the Province for 78,640 pupils during 1954-55. The table below shows the percentage distribution of the enrolment in evening classes by subjects of study.

ENROLMENT IN EVENING CLASSES
1954-55

Subject	Enrolment (Percentage Distribution)
Drafting and Shopwork.....	22.2
Commercial.....	21.9
Household Arts.....	17.0
Basic English and Citizenship.....	14.7
Mathematics and Science.....	5.9
Art.....	5.4
General.....	4.7
Swimming and Gymnasium.....	3.7
Languages.....	2.2
Domestic Science.....	2.0
Miscellaneous.....	0.2
Total.....	100.0

TABLE 57—AGRICULTURE

List of Collegiate Institutes, High Schools and Continuation Schools in which Agricultural Science was taken in September 1955.

(1) SCHOOLS TAKING AGRICULTURAL SCIENCE ONLY

COLLEGIATE INSTITUTES

Cobourg
Cornwall
East York
Fort William
Pembroke
Peterborough, Kenner C.I.
Port Arthur
Scarborough, R. H. King C.I.
Scarborough, Winston Churchill C.I.
Scarborough, West Hill C.I.
Stratford
Vankleek Hill
Woodstock C.I.
Woodstock, Huron Park Sec. School

HIGH SCHOOLS

Almonte
Bancroft
Bracebridge
Bradford
Burlington

HIGH SCHOOLS (Continued)

Campbellford
Cayuga
Cobden
Cochrane
Delhi
Dryden
Durham
Eastview
Fergus
Fort Frances
Forest
Hawkesbury
Lucknow
Lyndhurst
Markham
Maxville
Merlin
Merritton
Milverton
New Liskeard
Port Credit

HIGH SCHOOLS (Continued)

Preston
Ripley
Sharbot Lake
Stouffville
Sutton
Seeley's Bay
Thornbury
Thornhill
Trenton
Waterdown
Waterloo-Oxford
Warton
Williamstown

CONTINUATION SCHOOLS

Denbigh
Lynden
St. George
Wellington

(2) SCHOOLS TAKING AGRICULTURAL SCIENCE AND WITH DEPARTMENTS OF AGRICULTURE, 1955

COLLEGIATE INSTITUTES & VOCATIONAL SCHOOLS

Arnprior—1951
Arthur—1944
Athens—1944
Aurora—1953
Aylmer—1948
Bowmanville—1955
Beamsville—1943
Belle River, North Essex H.S.—1948
Blenheim—1944

HIGH SCHOOLS (Continued)

Brampton—1951
Brighton—1955
Burford—1945
Caledonia—1949
Cannington, Brock D.H.S.—1954
Chesley—1946
Chesterville—1944
Cooksville—1953
Drayton—1943
Dresden—1953
Dunnville—1945
Elmira—1943
Essex—1946
Exeter—1950
Fenelon Falls—1954
Glencoe—1952
Grimsby—1945
Hagersville—1944
Haliburton—1954
Hanover—1950
Harrow—1944
Kemptville—1943
Kincardine—1944
Kingsville—1944
Leamington—1947
Listowel—1943
Madoc—1952
Markdale—1952
Marmora—1952
Meaford—1945
Medway H.S., Arva—1949
Midland—1955
Milton—1944
Mitchell—1944
Mount Forest—1953

HIGH SCHOOLS (Continued)

Newmarket—1951
Norwich—1944
Norwood—1952
Oakville—1945
Orangeville—1951
Paris—1953
Parkhill—1954
Palmerston—1945
Pelham, Fenwick P.S.—1944
Petrolia—1945
Pickering—1951
Port Elgin—1946
Port Perry—1943
Richmond—1953
Richmond Hill—1951
Ridgetown—1943
St. Lawrence, Cornwall—1953
Saltfleet, Stoney Creek—1947
Seaford—1946
Shelburne—1945
Simcoe—1943
Smithville—1952
Stirling—1944
Sydenham—1944
Tilbury—1948
Tillsonburg—1950
Tweed—1945
Uxbridge—1945
Walkerton—1951
Wallaceburg—1950
Waterford—1946
Watford—1949
West Lorne, West Elgin—1949
Winchester—1948
Wingham—1949

NOTE: The year in which a Department of Agriculture was introduced is shown after the name of the school.

Report of The Minister of Education 1956

To The Honourable Louis O. Breithaupt, LL.D.,
Lieutenant-Governor of the Province of Ontario.

Your Honour:

With all respect, I present to your Honour the Report of the Department of Education for the year 1956.

This report on the school system of Ontario in 1956 follows the pattern of former reports by giving in Part I narrative reports on Elementary Education, Secondary Education, Teacher Education, and the various special branches. In Part II, statistical information is presented to show the broad scope of education in Ontario, and to provide a means of comparison with other years, the reports of which have contained similar statistical data.

In 1946, the enrolment in elementary and secondary schools of Ontario was 662,858; in September 1956, the enrolment was 1,097,501. Thus, in ten years, the enrolment in elementary and secondary schools has increased by approximately 435,000 and the increase in the last year was 59,325.

The enrolment in teachers' colleges, which was 1188 in 1946, has climbed steadily. In September 1956, there were 3442 registered in the various teachers' colleges. It is gratifying that the supply of teachers for elementary schools was maintained through an increase in the numbers graduating from the teachers' colleges, through the operation of the Pre-Teachers'-College Summer Courses and of a summer programme at the University of Ottawa, through issuing Letters of Standing to well-qualified teachers from other educational systems, and through issuing a limited number of Letters of Permission to boards of trustees on behalf of uncertificated teachers. In order to meet the demand for teachers in secondary schools, the special summer programme of a ten-week course at the Ontario College of Education was continued with 408 students enrolled as the first step in their professional training. Of those who took the ten-weeks' course in 1955, 376 returned for a five-weeks' course to complete the requirements for an Interim High School Assistant's Certificate, Type B.

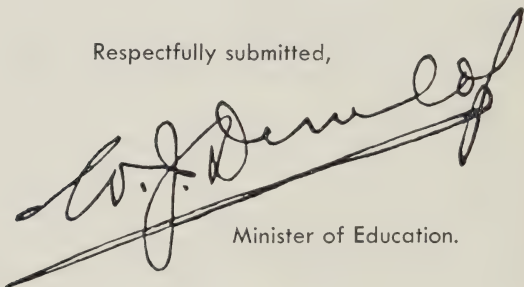

This year 1956 marked the beginning of a programme to replace with modern structures the buildings at Ryerson Institute of Technology. A building to house the Lakehead College of Arts, Science and Technology is being built on an 80-acre campus on the outskirts of Port Arthur. On September 1, 1956 the Hamilton Institute of Technology was established in place of the Provincial Institute of Textiles. In all the technical institutes the demand for graduates has again exceeded the supply. The establishment and operation of technical institutes in Ontario has been amply justified by the results shown in recent years.

Grants paid to local educational authorities for educational purposes in 1956 totalled \$79,061,993, an increase of \$7,148,790 over the grants paid in the previous year.

The Ontario School for the Blind at Brantford in 1956 had an enrolment of 180, while the Ontario School for the Deaf at Belleville had 381 pupils. Correspondence courses were provided for those who were not attending school. Parents' groups affiliated with the Ontario Association for Retarded Children were paid generous grants to assist in the training of those children who ordinarily are not admitted to the regular school system. The Community Programmes Branch assisted communities to provide programmes of Recreation and Adult Education in order that individuals might have greater opportunities to live enjoyably and constructively. Through financial assistance to public libraries and the service offered by the Travelling Libraries Branch, much is being accomplished to bring to all areas, even the most isolated, the advantages of good reading. These facts are only used to give a glimpse of our total programme. Constant vigilance and untiring effort are to be found in our endeavours to provide education for all children in all parts of Ontario.

With deep regret I report the loss of one of the senior officials of the Department of Education. Dr. J. G. Althouse, Chief Director, died suddenly on August 2, 1956. He will be long remembered for his valuable contribution to public education in Ontario during years of great expansion. He was undoubtedly the greatest leader since the present system of education in Ontario was founded by Egerton Ryerson.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "W. J. Deneault", written in a cursive style. The signature is positioned above a horizontal line that extends across the page.

Minister of Education.

Toronto, July 15, 1957

Elementary Education

LEGISLATIVE GRANTS

The 1955 plan for distribution of General Legislative Grants was continued in 1956 with no major alterations. However, a Special Grant of \$6 per pupil, based on the average daily attendance in 1955, was paid to all Boards. This Special Grant was supplementary to the grant paid under the provisions of the 1956 General Legislative Grant Regulations. The fee paid for membership in a member association of the Ontario School Trustees' Council became eligible for legislative grant.

LARGER UNITS OF ADMINISTRATION

During 1956 six new township school areas were formed and nine former sections were added to existing areas. Nineteen former school sections withdrew from seven existing areas leaving a total of 569 township school areas in the province. At the end of 1956 3,577 former school sections representing 60.8% of all former school sections in Ontario had been merged in larger units of administration.

Seven new union separate School Boards were formed in 1956 and four separate school areas were added to existing unions. There are now 72 boards for union separate schools in operation, replacing 208 boards formerly administering schools.

TRANSPORTATION OF PUPILS

Elementary school boards furnished transportation for more than 55,000 pupils at a cost of almost \$3,500,000 during the school year 1956-57. Of this number, 78.5% were pupils attending an elementary school, 12% were attending secondary schools and 9.5% were taking industrial arts or home economics at some other centre.⁽¹⁾

The number of pupils transported to elementary schools increased 7% over the previous year but the number transported to secondary schools by elementary school boards decreased 3%. The actual cost increased 8% and the approved cost for grant purposes increased by 10%.

As a further control to ensure safe transportation, school bus operators' licenses are now issued only with the approval of the newly-formed Ontario Highway Transport Board.

RAILWAY CAR SCHOOLS

In 1956, instruction by qualified and experienced teachers for a total of 96 children living in isolated locations in Northern Ontario was made possible by the use of five railway car schools. These car schools operate along the Canadian National, the Canadian Pacific and the Ontario Northland Railway lines, and serve children from the families of lumbermen, railway section workers, trappers, and hunters residing in localities where no other school facilities are available.

Each car stops at from three to five locations and for one week children at each stop attend school during regular school hours. When the car has moved to the next stop, the children complete study assignments in their homes in preparation for the return of the car school.

Car schools are operated by the Ontario Department of Education and are serviced by the railway companies. One-half of the car is a classroom with about fifteen single desks and is fully equipped with blackboards, text- and library books,

⁽¹⁾ See Table 18

maps, charts and globes. The other half is a completely furnished apartment with kitchen, living and dining room, and bathroom for the use of the teacher and his family.

The regular programme of the elementary school is followed. Children may advance as far as Grade 10. This service is provided by the Department of Education to pupils or their parents without charge.

NEW CONSTRUCTION

In 1956, new classrooms were constructed for 60,100 pupils at an estimated cost of \$37,700,000. The new accommodation provided over the preceding ten-year period has just been sufficient to meet the needs of the increased enrolment.

SCHOOLS ESTABLISHED UNDER SECTION 66 OF THE PUBLIC SCHOOLS ACT

Section 66 of The Public Schools Act makes provision for the establishment of schools on property exempt from school taxes where the number of children warrants the operation of such schools. The Minister has the authority under this section of the Act to designate as a rural school section the whole or any portion of lands held by the Crown in right of Canada or Ontario, or of any other lands which are exempt from taxation for school purposes.

Where a school is established under Section 66 of The Public Schools Act the Department of Education pays a grant of 50% of the approved cost of operation exclusive of capital expenditure, but where the Board operates a school in a sanatorium, a hospital, or a centre for the treatment of cerebral palsy, the Department pays 80% of the instructional salaries. There are now 53 schools in operation under Section 66 of The Public Schools Act. Seventeen of these are in sanatoria and hospitals, eighteen are in establishments of the Department of National Defence, four are on establishments of the Ontario Hydro-Electric Power Commission, twelve are in centres for the treatment of cerebral palsy, and of the remaining two, one is located at Moose Factory Island, and the other at Alfred. Almost 11,000 children are being educated in 326 classrooms in schools established under this section of the Act.

C.E.A.—KELLOGG PROJECT

The Short Course sponsored by the C.E.A.-Kellogg Project in Educational Leadership was held in Edmonton at the University of Alberta for three weeks in May, 1956. Fourteen inspectors from Ontario were in attendance. The total number of members from all provinces of Canada was seventy. Of this membership, sixty-two were inspectors and local superintendents, three were teachers, two were trustees, and three others represented the Indian Affairs Branch of the Department of Citizenship and Immigration, the Department of Northern Affairs and Natural Resources, and the Yukon Territory.

The over-all theme of the programme was "Improvement of Instruction—a Problem in Leadership." The members were divided into six groups according to their interests, and each group investigated one of six problem areas. These problem areas were as follows:

- A. Supervision: Principles and Procedures
- B. Supervision: Special Problems
- C. The Principal and His Place in the School System
- D. Schools and the Public
- E. Appraising the Work of Teachers and Pupils
- F. Administrative Problems of the Superintendency

In October, 1956 the C.E.A.-Laval Short Course in Educational Leadership, was held in Quebec from October 8 to October 19. The official language of the course was French, but many discussions were bilingual. The theme of the programme was "The Supervisor in the Classroom." It provided an opportunity for inspectors, superintendents and other supervisors to study problems in supervision with assistance from lecturers and consultants. In addition, it provided an opportunity for members from other provinces to gain first-hand knowledge of the philosophy and functioning of education in Quebec. The total enrolment in the Short Course was forty with five of the members from Ontario.

In 1956, the five-year project in educational leadership initiated by the Canadian Education Association and supported financially by the Kellogg Foundation, completed its fifth year. The project, henceforth to be known as the C.E.A. Project in Educational Leadership, will continue for another five-year period.

Secondary Education

1. SECONDARY SCHOOLS

ENROLMENT

The total enrolment of pupils in secondary schools in September, 1956, was 185,605. By courses, the enrolments were as follows: General, 140,975; Commercial, 25,481; Industrial, 16,589; Home Economics, 726; Art, 581; Special Industrial, 1,253.⁽²⁾

The total number of full-time teachers in the secondary schools of Ontario on September 30, 1956, was 8,036, an increase of 679 over the previous year. Making allowance for part-time teachers, the teacher-pupil ratio in September, 1956, was 22.8. In 1955 it was 23.4.

BUILDING PROGRAMME

In 1956, twelve new secondary schools were completed at an estimated cost of \$9,770,000, and they provided accommodation for 7,020 pupils. Additions were made to 34 existing buildings, providing space for 7,060 pupils at a cost of approximately \$7,515,000.⁽³⁾

TRANSPORTATION

During the school year 1956-57, secondary school boards furnished transportation for 50,971 pupils, which is an increase of 10% over the previous year. These pupils were transported over 1,677 routes at a cost of \$24,373 per day.⁽⁴⁾ The number of pupils transported to secondary schools by elementary school boards decreased again this year.

Provision has been made for certain secondary school boards, with the approval of the Ontario Municipal Board, to enter into agreements with an operator to furnish transportation for more than one year but not more than five years.

CURRICULUM

Local co-ordinating committees continued their activities in developing courses adapted to local needs at the level of the Intermediate Division. The first examination for the new Grade 13 course in Geography was provided in 1956 and the

⁽²⁾ See Table 58

⁽³⁾ See Table 19

⁽⁴⁾ See Table 18

number of candidates and the results obtained amply justify this addition to the examination list. The outline of a new Technical Course for Grade 13 was tried out experimentally in a few schools in 1956-57.

GRANTS

General legislative grants to academic secondary schools in the calendar year 1956 amounted to \$19,969,082. Grants to vocational schools in the same period amounted to \$3,465,398.⁽⁵⁾ Under the Vocational Schools Assistance Agreement, an amount of \$597,500 was received from the Government of Canada; this is the fixed maximum payable towards maintenance expenditures, conditional upon the provincial contribution not falling below that figure.

The text-book grant, included in the grants given in the preceding paragraph, paid to boards on expenditures for approved text-books for pupils in Grades 9 and 10, has enabled schools to supply the necessary books, and in some cases to provide almost all the books required.

In addition to the above grants, a special grant of \$6 per pupil of average daily attendance was paid in 1956. This amounted to payments of \$741,635 to academic and \$169,407 to vocational schools.

2. TECHNICAL INSTITUTES

HAMILTON INSTITUTE OF TECHNOLOGY

In June, 1956, the Provincial Institute of Textiles, Hamilton, graduated its seventh class. All the graduates found employment in the industry, being assured of positions well in advance of graduation.

In July it was announced that The Hamilton Institute of Technology would be established, effective September 1, in place of the Provincial Institute of Textiles. Courses to be offered were to include Electrical, Electronic, Mechanical, and Textile Technologies. The first-year course was to be general for all full-time students.

The Institute opened in September with a day-school enrolment of 29 full-time students. During the year, 38 students attended short-unit textile courses of one to three weeks' duration. The evening school enrolment, for textiles courses only, was 24.

Following a study of the general first-year course during the fall term, a decision was made to discontinue it and to duplicate the Ryerson courses for the Electrical, Electronic and Mechanical Technologies commencing September, 1957.

Liaison is being established with the industries interested in the new courses and it may be confidently expected that they will co-operate whole-heartedly in the development of the Institute. The textile industry is continuing its generous support of the Textiles Department and is undertaking an intensified recruiting programme to provide more graduates.

LAKEHEAD TECHNICAL INSTITUTE

The registration at the Lakehead Technical Institute was 126 in September, 1956. The evening school enrolment was 180. The demand for graduates exceeds the supply.

The Institute is divided into three divisions. The Technical Division offers two-year terminal courses in Forestry and Mining. The University Division offers first-year courses in Arts, Applied Science, Commerce, Forestry, Forest Engineering, and Household Science from which students may transfer to universities of their choice. The Special Division provides night school courses including Industrial and Cost Accounting, Prospecting, and Advanced Technical Classes.

⁽⁵⁾ See Table 2

The Advisory Committee, in co-operation with the Department of Education, plans to establish the Lakehead College of Arts, Science and Technology in the near future. A building to house the college is being built on an 80-acre campus in the outskirts of Port Arthur. An act was passed in the second session of the Ontario Legislature, 1956, which, upon proclamation, establishes the Lakehead College of Arts, Science and Technology and transfers the management and control of the present Lakehead Technical Institute to the Board of Governors of the College established by the Act.

PROVINCIAL INSTITUTE OF MINING

In May, 1956, 56 students completed the course at the Provincial Institute of Mining to bring the total number of graduates in its 11 years of operation to 360. In September, the enrolment was 99.

In providing much-needed technical personnel for engineering and survey departments of mines, for geological staffs and for mine, mill and smelter laboratories, the Institute is making an important contribution to the mining industry of Canada.

PROVINCIAL INSTITUTE OF TRADES

During this year the Provincial Institute of Trades continued to conduct classes for apprentices sent from the Department of Labour, for R.C.A.F. personnel in tele-communications, and for diploma course students in non-designated trades.

The enrolment was as follows:

1. Total number of Apprentices	1704
2. Total number of Diploma Course Students	138
3. Total number of R.C.A.F. Students	255
4. Total number of Evening Class Students	1387

Total in all categories 3484

There was a drop in the enrolment of apprentices coinciding with a reduction in the number of registrations in the Department of Labour. Many of the apprentices coming in were well advanced in their respective trades.

At the end of this period the teaching staff totalled 48 full-time and 23 casual instructors. New courses included Building Construction Expediting and Estimating.

RYERSON INSTITUTE OF TECHNOLOGY

The year 1955 was marked at Ryerson Institute of Technology by an important announcement from the Minister of Education. During the spring session of the Legislature, he announced that the Government planned to replace the present buildings in which the Institute is housed with modern structures. This joyful news was enthusiastically received by staff, students, and alumni, for it signalled the beginning of a new era for this growing institution.

The curricula for the engineering technician courses in Electrical, Electronic, Mechanical, Metallurgical, Chemical Research and Instrument Technologies, as well as the qualifications of the staff, the equipment and the final examinations standards, have been examined by highly-qualified representatives of The Engineering Institute of Canada. The Institute has now approved all these courses as meeting the aims and objectives of a course of a technical institute.

In September, 1955, over 1,750 day-school students sought admission. Among these were 850 freshmen, the largest class in Ryerson's history. The staff has been greatly encouraged by the continued demand for Ryerson graduates. Commencing early in October, representatives of firms visit the Institute for the purpose of employing the students who will graduate the following May, and in

several courses the demand far exceeds the supply. Ryerson graduates not only find ready employment in industry and commerce, but are also sought after by the armed services. Henceforth, the Royal Canadian Air Force will enlist as officer cadets the graduates of the Electrical, Electronic, and Mechanical Courses.

Teacher Education

TEACHERS' COLLEGE ENROLMENT

The trend of increased enrolment in the teachers' colleges noted in 1955 continued in 1956 with a total of 3,442 students registering in the autumn term.⁽⁶⁾ With 500 of these students enrolled in the first year of a two-year course, the teachers' colleges had a potential graduating class for the year of 2,942. The increase in the number of candidates in the teachers' colleges has been paralleled by a corresponding expansion in the teaching staff, which has increased from 90 five years ago, with an enrolment of 1,628, to 133 in 1956.

At the Ontario College of Education, 395 students were enrolled in courses leading to the High School Assistant's, Library, Vocational and Industrial Arts Certificates. This enrolment was 27 smaller than that of the preceding year.

TEACHER SUPPLY

In the year under review, the supply of teachers for elementary schools was maintained through an increase in the numbers graduating from the teachers' colleges, through the operation of the Pre-Teachers'-College Summer Courses and of a summer session programme at the University of Ottawa, through issuing Letters of Standing to well-qualified teachers from other educational systems, and, where qualified teachers were not available, through issuing some Letters of Permission to boards of trustees on behalf of uncertificated teachers.

The In-Service Course (consisting of two Pre-Teachers'-College Summer Courses, each followed by a year of teaching and a completing year at a teachers' college) contributed to the required supply through enrolments of 976 in the Pre-Teachers'-College Summer Course, First Year, and 695 in the Pre-Teachers'-College Summer Course, Second Year.⁽⁷⁾ At the University of Ottawa Teachers' College, persons with experience in teaching under Letters of Permission took the first of a series of three summer sessions to prepare them for teaching in elementary schools in which French is a subject of instruction with the approval of the Minister. Letters of Standing granted to teachers coming to Ontario from other provinces of Canada or other countries in the Commonwealth totalled 616 in the school year 1955-56. Among these were 68 teachers recruited in Britain by an official of the Department of Education. Letters of Permission, issued to boards of trustees on behalf of uncertificated teachers, totalled 943.⁽⁸⁾ Of these, 593 were on behalf of teachers with some professional training.

For the school year 1955-56 the supply of teachers for secondary schools was below the number required. To meet the demand, the special summer programme established in 1955 was continued in the summer of 1956.

Each graduate of the special ten-week course at the Ontario College of Education during the summer of 1955 was granted a Letter of Standing valid for one year for the position for which he had been engaged. During his year of teaching, he was given special supervision both by the principal and the secondary school inspector concerned. On their recommendation he was permitted to apply

⁽⁶⁾ See Table 11

⁽⁷⁾ See Table 12

⁽⁸⁾ See Table 13

for admission to a second summer course of five weeks' duration, consisting of further professional courses and instruction in methodology. This session began on July 3, 1956, with an enrolment of 376. On the successful completion of the second summer course, these teachers-in-training were granted an Interim High School Assistant's Certificate, Type B.

Reports upon the teaching records of the summer-course graduates have been gratifying and many of these teachers will undoubtedly proceed to improve their qualifications further by additional summer courses. It is evident that the plan is serving the twofold purpose of meeting the increasing demand for secondary school teachers and of maintaining standards of instruction.

In 1956, a second series of summer courses leading to the Interim High School Assistant's Certificate was begun. As formerly, these were offered only to properly-qualified university graduates who had been engaged for the ensuing year for positions which boards were unable to fill with teachers holding the required certificates. Many of these teachers-in-training had some previous teaching experience, and others had valuable experience in business or industry. A total of 408 students enrolled in this course in June, 1956.

For the school year 1956-57, there were 74 Letters of Standing granted to secondary school teachers holding certificates obtained in other provinces or other countries of the Commonwealth. Letters of Permission, issued to secondary school boards on behalf of uncertificated teachers totalled 683 for the school year 1955-56. Of these, 200 were issued on behalf of teachers with some professional training, and 101 were issued for teachers of vocational subjects.

NEW BUILDINGS

The new Toronto Teachers' College on Carlaw Avenue is providing excellent accommodation for a student body so large that some classes continue to be taken in the old building on the same campus. Plans have been completed for a second building to be erected in the west metropolitan area in New Toronto. The corner-stone of a new Hamilton Teachers' College, adjacent to the campus of McMaster University, was laid on April 23, 1956, and the College was ready for occupancy early in 1957. Construction was begun on a new Teachers' College in London on a site neighbouring the campus of the University of Western Ontario. It is expected that this building will be ready for occupancy in 1958. Student common-rooms, staff offices and additional classrooms were provided for the University of Ottawa Teachers' College in September, 1956, through rental of additional space from the University with which it is associated.

Curriculum

In 1956, a special branch of the Department was set up to deal with all matters relating to the curriculum. The Superintendent of Curriculum will be assisted by two Assistant Superintendents, one specializing in elementary education, and one in the secondary field. The Text-book Branch has now been incorporated in the Curriculum Branch.

The functions of the Curriculum Branch include supervision of all work within the Department related to curriculum revision, recommendations for final approval of curricular materials including text-books, and maintenance of contact with local authorities and others interested in curriculum development. At this stage of curriculum development in Ontario, the provision of text-books to meet the require-

ments of the courses of study, particularly for the elementary schools, has become a matter of considerable importance. Consultation with authors and publishers regarding proposed publications is, at the present time, a major preoccupation of the Curriculum Branch.

Other Departmental officials participating in curriculum-making include the directors of special subjects, inspectors of elementary and secondary schools, and instructors in Teachers' Colleges. For schools in which French is a subject of instruction with the approval of the Minister, a committee consisting of bilingual inspectors and teachers of the University of Ottawa Teachers' College gives advice to the Superintendent of Curriculum regarding curriculum and text-books. Similarly in preparation of courses of study in the French language the Director of French Instruction and a bilingual secondary school inspector advise the Superintendent of Curriculum.

In 1956, a new outline of a course for experimental use in Physical Education in the Primary Division was published. This course does not require elaborate accommodation but can be carried out by making use of the facilities that exist in practically all schools. There are few, if any, schools in the province where the accommodation is so limited that the course needs to be greatly curtailed. In practice, the new outline has been the means of stimulating in-service courses for teachers in local communities.

Within the last few years, many local groups of teachers have assumed to some considerable extent responsibility for curriculum development. Local co-ordinating committees with the power and responsibility of appointing curriculum committees to make revisions were first established in 1950. This departure from the former pattern represented an extension of freedom for teachers and an increase in responsibility for local authorities. This development was generally approved. The teachers responded to the new challenge with commendable professional zeal. They used their enlarged freedom with wisdom and intelligence. They initiated, and have continued to engage in, projects for curriculum study and improvement that are of inestimable value to the whole system.

At the local level, curriculum committees have been formed to study and report on special educational needs of the community; to set up special courses to meet local needs, e.g., terminal courses, courses for slow learners; to construct courses or to modify for local use course outlines provided by the Department of Education. As an example of the last-named type of activity, a revision of the Social Studies Courses, Grades 1 to 6, for use in the schools of Toronto, has been completed by committees of teachers. Similar revisions have been made in Hamilton and Windsor. These courses have been made within the framework of the course outlined by the Department. Elements of the Departmental outline which seem to have little relevance to the local situation have been omitted. Topics not specifically referred to in the Departmental outline but seeming to meet local needs have been included.

TEXT-BOOKS

In any educational scheme, the text-book is second in importance only to the teacher as an educating agent. Instead of being restricted to a single authorized text in each subject—which had been the rule for nearly 100 years—the Ontario teacher now has a wide range of choice of books from an approved list. This list is revised and published annually. The present policy of the Department with respect to text-books requires that books of Canadian origin—written and edited by Canadians, published in Canada, illustrated if possible by Canadian artists—will be used, if such books are available. Only if suitable books to meet the requirements of our courses of study are not available will books of outside origin be approved. Where they are required to be used, they must be revised for Canadian use and printed and bound in Canada.

Pupils in Grades 1 to 8 are not required to purchase text-books. They must be provided by the board. In Grades 1 to 10, boards are reimbursed by the Department of Education for expenditures on text-books up to \$3.00 per pupil of average daily attendance each year. In each subject there are several books from which teachers and boards may choose. There are, for example, five series of Readers for the grades of the Primary Division. There are four books from which teachers may make a selection in the Grade 5 Social Studies. For subject matter fields not already covered by text-books, books are in preparation. If a book should prove unsuitable, it can be dropped from the approved list at any time. New books having features superior to those already in use may be added to the list at the time of publication. As a result of this policy, several competent authors have been discovered among Ontario teachers.

A publisher who has a text-book which he thinks is better than any of those on the approved list, or which has features that are superior, may present the book for examination at any time. The book is examined in the Department and, if it appears to meet the needs of the course for which it was designed and to be suitable in other respects, it may be immediately placed on the approved list. Where there is doubt in the minds of the Departmental examiners, the book may be sent out for examination by specialists, or a committee may be convened to make the examination. Similarly, a book which is on the approved list but proves to be inadequate or unsatisfactory, may be removed from the list at any time. It is usual for a year's warning to be given before such a book is finally dropped.

Schools Attended by French-speaking Pupils

TEACHER SUPPLY

In 1955-56 there were 228 teachers-in-training at the University of Ottawa Teachers' College, 38 of whom were enrolled in the First Class Course and 190 in the Second Class Course. ⁽⁹⁾ Of these, 36 students were awarded First Class Certificates and 156 obtained Second Class Certificates.

In September, 1956, there were 2,305 French-speaking teachers employed in the elementary schools and of this number, 1,873 or 81.3% held First or Second Class Certificates.

SECONDARY SCHOOL ENROLMENT

In December, 1956, the total enrolment of French-speaking pupils taking advanced French courses in public secondary schools was 3,391.⁽¹⁰⁾

There were, in addition, 3,215 French-speaking pupils enrolled in Grade 9 and Grade 10 classes of elementary schools, and 3,771 French-speaking students attending inspected private secondary schools.

ELEMENTARY SCHOOL ENROLMENT

In September, 1956, there were 69,858 French-speaking pupils enrolled in separate and public elementary schools—an increase of 3,392 over the preceding year.

⁽⁹⁾ See Table 12.

⁽¹⁰⁾ See Table 67.

CORRESPONDENCE COURSES

Correspondence courses for French-speaking pupils in Grades 1 to 8 have been available since September, 1946.

A revision of the courses for the Primary and Junior Divisions (Grades 1 to 6) having been completed, this work was extended to the Intermediate Division (Grades 7 and 8). Enrolment figures are shown in Part II.

Agriculture

ELEMENTARY SCHOOLS

Agriculture is an optional subject for elementary schools. No separate course of study is provided, but agricultural topics are included in the Natural Science and Science courses outlined in the Programme of Studies for Grades 1 to 6 and in Circular Curriculum I:1 for the Intermediate Division.

SECONDARY SCHOOLS

Instruction in Agriculture is provided in secondary schools in two ways. Courses in Agricultural Science may be given as alternatives to General Science, Physics and Chemistry in Grades 9 to 12. These courses are given in 130 schools in Grades 9 to 12 and 21 schools in Grades 9 and 10 only. There are 52 schools in which only this Agricultural Science option is taught.

The other provision for agricultural instruction is the creation of a Department of Agriculture in a school and the organization of a two-year course for Grades 9 and 10 which includes Agriculture and Shop Work for boys and Home Economics for girls. There are now 99 schools with Departments of Agriculture.

The total number of pupils taking Agricultural Science in 1956 was 53,620 and the number taking Agriculture was 9,934. There were 13,981 pupils carrying on home projects in connection with their school work.

TEACHER SUPPLY

Instruction in agricultural topics is included as part of the Science course in Teachers' Colleges, and teachers-in-training who took the Agricultural Science option in their secondary school course may qualify for an Interim Elementary Agriculture Certificate.

Graduates of the Ontario Agricultural College who have taken teacher training at the Ontario College of Education, and teachers who have taken qualifying summer courses in agriculture, make up the majority of teachers of agriculture in secondary schools.⁽¹¹⁾

PRACTICAL WORK

Besides the regular class-room and laboratory work most schools provide gardening or home projects. In addition many schools are equipped with poultry houses, colonies of bees and other special facilities for practical work. Fifteen agricultural buildings have been built during 1956, making a total of 49. A programme featuring activities at Pelham District High School was televised on County Calendar on February 26, 1956.

⁽¹¹⁾ See Table 57.

Art

RESEARCH

Saturday morning classes conducted for the purpose of studying the work of children with outstanding ability in Art were again held at the Ryerson Institute of Technology from October to March.

SUPERVISION AND TRAINING

The programme of Art in secondary schools was given special attention. Schools at which general inspections were held were visited and their programmes in Art evaluated.

Meetings of elementary teachers were held in several inspectorates and workshops conducted in a number of rural areas.

The summer courses in Art were again attended by large numbers of enthusiastic teachers.

Audio-visual Education

SCHOOL BROADCASTS

A programme of 102 school broadcasts was prepared for use in the elementary and secondary schools of the Province. These broadcasts were presented in co-operation with the Canadian Broadcasting Corporation over a network of 27 radio stations. Through the courtesy of the British School Broadcasting System, 26 broadcasts were made available to Ontario schools. Four broadcasts were prepared for Ontario school listening by the Australian Broadcasting Commission. Two new series, "Makers of the Twentieth Century" and "Our Royal Heritage," proved very useful in our schools.

Radio manuals outlining the broadcasts were distributed to all Ontario teachers in September. Two evaluation surveys to test the effectiveness of the broadcasts were conducted.

Ontario schools have 11,961 classrooms served by central sound systems, and the schools reported the ownership of 8,990 school radios.

FILM SERVICE

Films from the Visual Education Branch were shown on 151,088 occasions to a total school audience of 7,726,020 during the school year. This Branch has 1,089 film titles, with 8,397 prints of sound films available for use in Ontario schools.

A summer course in Audio-Visual Education offered teachers an opportunity to improve their professional training in Audio-Visual techniques.

Ontario schools have reported the ownership of 1,777 sound projectors, 2,145 filmstrip projectors, and 683 opaque projectors.

Auxiliary Education Services

The expansion of Auxiliary Education Services in this province during 1956 indicates that schools are continuing to recognize and provide for the needs of those children who, for any physical or mental cause, are unable to take proper advantage of the regular school courses.

SERVICES

In addition to the new auxiliary classes established, 68 sight-saving units, 8 orthopaedic units, and 139 elementary-school home-instruction units were established to provide assistance for pupils who were not enrolled in special classes.

Financial assistance was provided for the education of persons with physical handicaps including the cerebral palsied, the paraplegic, the partially crippled, and certain patients in sanatoria and other hospitals.

To provide Auxiliary Education Services in rural and small urban areas, a number of itinerant auxiliary teachers are now employed to diagnose educational problems, to suggest special programmes, and to meet satisfactorily the needs of both teachers and pupils.

TEACHER EDUCATION

After two years of successful teaching experience, teachers may attend the Auxiliary Education Summer Courses. In 1956, 157 teachers enrolled in the Elementary Course, 56 in the Intermediate Course and 40 in the Specialist's Course. The number of regular class-room teachers enrolling for the remedial option is increasing.

At the request of local inspectors, members of the Auxiliary Education Branch contributed to in-service education programmes during the year.

The Department of Education provided in Kitchener a summer course of two weeks' duration for teachers and prospective teachers of classes conducted by parents' groups affiliated with the Ontario Association for Retarded Children.

TRAINABLE RETARDED CHILDREN

Under the authority of the Department of Education Act and its Regulations, assistance was provided toward the cost of training children under 18 years of age, whose mental capacity is incapable of developing beyond that of a child of normal mentality of eight years of age.

In 1956 the number of parents' groups to which grants were paid increased from 37 to 42, and the number of pupils enrolled increased from 900 to approximately 1100.

Correspondence Courses

COURSES

The Correspondence Courses Branch provides correspondence courses for Ontario persons who are unable to attend school. The courses include academic subjects (Grades I to 13) and six trades courses (Automotive-Mechanics-I; Carpentry-I and II; Machine Shop Practice-I and II; Radio Theory and Practice-I). All academic courses are free and are available to residents of Ontario wherever they may be living. Trades courses are available to residents of all provinces at \$10 a course.

TRENDS

All correspondence courses have been prepared by teachers in service. All secondary school lessons are marked by teachers in the schools, and each year an increasing number of elementary school lessons are being sent out to the schools to be marked. This trend will continue until all lessons are marked by active teachers.

The number of children being enrolled has been decreasing, but at last seems to have reached a minimum. The number of adults enrolling, especially at the secondary school level, has been increasing at such a rapid rate that, of all the students admitted during 1956, 89% were 16 years of age or over and 70% of these were under the age of 30. ⁽¹²⁾

ENROLMENT

The active enrolment in elementary school courses on December 31, 1956, was 754, which included 64 in bilingual courses, and 196 adults. At the same date, there were 2,122 persons enrolled in academic courses at the secondary level and 165 in trade courses.

As in past years, most of the students were residents of Ontario, although 240 were Ontario residents living temporarily outside of Ontario. The Branch continues to supply courses to patients in sanatoria, and to inmates of penitentiaries, reformatories, or training schools.

Examinations and Scholarships

CERTIFICATES AND DIPLOMAS

Statistics showing the results of the Grade 13 examinations, as well as the number of Intermediate Certificates, Secondary School Graduation Diplomas, Secondary School Honour Graduation Diplomas and teaching certificates issued, will be found on pages S-14, S-15 and S-94-96.

STUDENT AID

(a) Dominion-Provincial Student-Aid Bursaries

A programme of financial assistance to enable students of adequate ability to continue their education was inaugurated in Ontario in 1943. In that year, \$45,950.00 was awarded to Ontario students, and since then the number and amount of awards have increased yearly. In 1944 an agreement was made with the Dominion Government forming the Dominion-Provincial Student-Aid Bursary Programme, and since that time 16,174 awards totalling \$3,408,515.00 have been made to students who would otherwise have been unable to complete their education because of lack of sufficient funds. In the school year 1956-57, 1638 awards were made, totalling \$411,190.75, of which \$100,000.00 was contributed by the Dominion Government. ⁽¹³⁾

(b) Transportation Assistance

The transportation subsidies provided by the Department of Education for persons who reside in the territorial districts and are enrolled in an eligible institution of university rank have now been in operation for ten years.

For the school year 1956-57 the sum of \$14,044.70 was paid to 646 students, of whom 430 reside east and 216 west of Sault Ste. Marie. ⁽¹⁴⁾

(c) Scholarships for Study Outside Ontario

Each year the sum of \$6,000 is available from the Consolidated Revenue Fund to provide four scholarships to Ontario teachers to enable them to carry on post-graduate study outside Ontario.

⁽¹²⁾ See Table 77.

⁽¹³⁾ See Table 51.

⁽¹⁴⁾ See Table 70.

For the school year 1956-57 the holders of these scholarships were Miss Marion W. Bell, Sir Adam Beck Collegiate Institute, London; Mrs. Helen E. J. Donaldson, Oakwood Collegiate Institute, Toronto; Mr. J. R. McAllister, Ryerson Institute of Technology, Toronto; and Mr. John F. Stephenson, Collegiate Institute, Fort William.

TEACHER EXCHANGE

For the school year 1956-57, twenty-five Ontario teachers were on exchange, eighteen in the British Isles, two in British Columbia, two in New Zealand, and three in the United States.

Guidance Services

SERVICES

The Guidance Services provided by Ontario schools continue to expand and improve. Most schools now consider Guidance to be an integral part of the educational programme and provide the necessary facilities and staff. Counselling, group work related to Guidance, and placement, are the major areas of work. A uniform system of records commonly referred to as the Ontario School Record System (OSR), is now in almost universal use throughout the Province.

TRAINING

In addition to the 168 teachers enrolled in the three regular five-week summer courses leading to Specialist's certification in Guidance, almost 600 elementary and secondary school teachers in 22 Ontario centres participated in short in-service training courses in testing or counselling conducted by Inspectors of the Guidance Services Branch. There is an increasing demand for this type of in-service training. The importance of the guidance work is reflected in the demand for highly-skilled guidance workers, and it should be noted that in Ontario, one must now have Specialist's standing in Guidance in order to head a secondary school Guidance Department.

Music

MUSIC INSTRUCTION

Courses in Music under qualified music teachers were provided in 86% of the elementary schools of the province.⁽¹⁵⁾ Music was also taught in 329 secondary schools. There were 249 school choirs, 103 bands, and 78 orchestras in these schools, and 29 operas were performed during the year.⁽¹⁶⁾ Music festivals, competitive and non-competitive, were held in 125 centres with more than 50,000 pupils participating.

TEACHER TRAINING

There were 955 certificated teachers and supervisors engaged in the elementary schools and 346 in the secondary schools of the province during the school year 1956-57. Music is taught in all the teachers' colleges, and there was an enrolment of 556 teachers at the summer courses in Music in 1956.

⁽¹⁵⁾ See Table 80.

⁽¹⁶⁾ See Table 80.

MUSIC OPTION

Music is an optional subject in secondary schools, and pupils may obtain standing either through the regular course or by presenting the certificates of certain accredited examining bodies. In 1956, Grade 12 standing was attained by 1,389 pupils.⁽¹⁷⁾ Credit in Music toward a Secondary School Honour Graduation Diploma was obtained by 162 pupils who tried the Departmental Grade 13 examinations ⁽¹⁸⁾ and by 645 pupils who presented equivalent certificates.

RADIO

Twenty-two music broadcasts were presented in four series during January, February and March. "Primary School Music," four 15-minute programmes for Grades 1 to 3; "Junior School Music," four programmes for Grades 4 to 6; "Music for Young Folk," nine 30-minute programmes for Grades 7 to 10; and "Ontario Sings," four 15-minute programmes for Grades 5 to 8, were broadcast with commentary prepared and given in each case by the Director of Music of the Department of Education.

CONCERTS

The concert series sponsored by the Department of Education for ten years was continued. Altogether, 1,115 concerts have been provided in smaller communities throughout the province, and 299 young artists have been assisted in the beginnings of their professional careers. In 1955-56, 48 artists gave 75 concerts in 31 towns.

School Attendance

COMPULSORY SCHOOL AGE

Children who have attained the age of six years on or before the first school day in September are required to attend school from that date until the last school day in June of the calendar year in which they attain the age of sixteen years.

A child may be granted a home permit, or an employment certificate if his services are urgently needed at home, or in some gainful occupation elsewhere. A child under fourteen years of age may be granted a home permit, or an employment certificate for a period covering not more than six weeks in a term.

EMPLOYMENT

The number of home permits issued during the year 1956 was 1663, an increase of 171 over 1955. The number of employment certificates issued was 5169, an increase of 874 over 1955.

The increase in home permits, and employment certificates was largely due to increased enrolment, and a stricter enforcement of the regulations. Fewer pupils are being absent for extended periods without home permits, or employment certificates.⁽¹⁹⁾

⁽¹⁷⁾ See Table 68.

⁽¹⁸⁾ See Table 68.

⁽¹⁹⁾ See Table 4.

Physical and Health Education

SERVICES

Significant advances have been made in the methods of supervision and in-service training of elementary and secondary school teachers of Physical Education and Health Education. Fully-qualified teachers gave unselfishly of their time to conduct in-service courses for teachers lacking certification in this field. The Ontario Secondary School Teachers' Federation accepted responsibility for initiating in-service courses for teachers in Physical and Health Education. An Ontario Physical Education Council, with active representation from elementary and secondary school teachers through the Ontario Teachers' Federation, Teachers' Colleges, Universities, and the Physical and Health Education Branch, was formed. It is also significant that secondary school teachers initiated and conducted their own coaching clinics, and that supervisors in this field accepted responsibility for in-service training.

CAMP PROGRAMME

ONTARIO ATHLETIC LEADERSHIP CAMP

Four hundred and forty-one secondary school boys and girls were selected on the basis of high academic standing, service to a school organization, and having played on a school athletic team to attend a two-week leadership course at this camp. A wide variety of athletic and camp activities was used as the medium to give these potential leaders experience in organization and evaluation. These school representatives leave camp challenged with a sense of responsibility to give service to their school and community when given an opportunity. There is evidence that these leaders are making an excellent contribution to the school programme. Over 50% of these leaders are now going into the teaching profession.

ONTARIO CAMP LEADERSHIP CENTRE

One hundred and ninety-nine counsellors-in-training were selected by non-profit camps to complete the three weeks' leadership course and return to give further service to the camp sponsoring them. The three-thousand acre camp site offered excellent opportunities for leadership experiences through nature lore, camp craft, water safety, and planning and evaluation of a variety of camp activities. Members of the camp staff, by field visits, follow up the work of the counsellors and study the effectiveness of the course.

In addition to this service in training counsellors, grants are paid to more than 370 non-profit camps in the province. The amount so distributed is in excess of \$45,000.

Community Programmes

SERVICES

The services of the Branch are conducted through two categories of staff members who work in close co-operation with municipal recreation committees, school boards, provincial and community organizations, and other interested organizations. District offices are located at Fort William, North Bay, Ottawa, Belleville, Toronto, Oakville, Hamilton, London, and Hanover. Each representative acts as consultant for all services in the fields of Recreation or Adult Education in that area. The second service is through special advisers in the fields of Art, Crafts, Recreation Facilities, Social Recreation, Gerontology, Puppetry, Rural

Leadership, and Drama. The Branch also provides a loan service for small towns and isolated areas in the fields of film service, drama service, music service, and reference books.

RECREATION DEVELOPMENTS

In 1956 there were 255 municipalities (an increase of 17 over 1955) with organized programmes. Seventy-seven communities (an increase of 3 over 1955) employed full-time Recreation Directors. Eleven local museums were associated with the recreation programme.

GRANTS

In accordance with *Ontario Regulations 321/51*, grants were paid in 1956 to 196 municipal councils, to the amount of \$364,465.32. Four county museums were paid grants totalling \$2,400.00. Eleven organizations which conducted a programme of recreation were paid grants to the amount of \$14,150.00.

LEADERSHIP TRAINING

Among the many special Leadership Training Courses were summer courses at Guelph and Southampton to train instructors in Art, Crafts, and Drama. These classes were attended by 82 persons. Courses for Playground Supervisors which trained 743 persons were held at 12 centres. In addition, 26 persons attended courses for Nature Study leaders; 1073 persons attended courses for general training of community leaders; and 308 persons attended courses on Rural Leadership held in collaboration with the Department of Agriculture.

CITIZENSHIP EDUCATION

The work with newcomers to Canada continues to be a most important function of the Branch. In 1956, 676 classes in English and in the government, history, and geography of Canada were conducted by school boards; 159 classes were operated by voluntary associations, and 61 classes by the Community Programmes Branch. The 896 classes were attended by 16,691 persons.

Thirty-three persons attended a conference held at Geneva Park in co-operation with the Citizenship Branch of the Department of Citizenship and Immigration for the purpose of exploring problems associated with the integration of newcomers to Canada.

CO-OPERATION

In order to provide the most efficient service that is possible, the Community Programmes Branch works in co-operation with the following agencies: The Canadian Association for Adult Education; The Citizenship Branch of the Department of Citizenship and Immigration; University Extension departments; Ontario Federation of Home and School Associations; the Folk School Council; Ontario Department of Agriculture; Ontario Department of Public Welfare; the Ontario Association of Film Councils; Ontario Recreation Association; Ontario Field Naturalists; the Museum Association; Ontario Tuberculosis Association; and various sports associations.

Public Libraries

BUILDINGS

Excellent new library buildings have been erected in City View, Riverside and Southampton, the last-named being a gift from a benefactor. A large addition has been added and a complete renovation made of the old Carnegie building in Fort William. The Burlington library has also been enlarged, and that of Fergus has been completely remodelled.

SERVICES

There are now 252 public libraries in the province, 234 associations and 16 county and district library co-operatives which, with branches, make a total of 552 library outlets. The latest addition to the co-operatives is that of Rainy River District, which is being served by contract from the Thunder Bay Library. One bookmobile has been operating in the new Scarborough Township library system, while two book-trailers have been added to the North York library, thus bringing the total in the Province to 27. The total population now receiving direct service from a library outlet is 3,600,000, an increase of 300,000 over last year. The total cost of operating the libraries was \$5,219,000, an increase of \$436,000, of which book purchases accounted for \$916,000 and salaries \$2,667,000. The number of books used was 18,400,000. The circulation of public library books continues to increase despite the influence of television, and it is noted that the whole increase is in children's books and the more directly educational of the adult books. The reading of fiction has declined.

GRANTS

The vote passed for legislative grants to all public libraries in 1956 amounted to \$875,500. Where public libraries are established, the local tax levies amounted to an average of 85 cents per capita, while the whole expenditure of those libraries was \$1.45 per capita.

TRAVELLING LIBRARIES

The decrease in the use of travelling libraries cases reported last year may have been due to the growth of the number of television sets, but whatever the cause, the lost ground has been more than made up. In 1956, 1,621 cases were sent out, and of these, the astonishing number of 1,300 went to rural schools in the counties and districts not served by library co-operatives. The service to construction, mining and lumber camps, inaugurated through Frontier College, has been successful and is being continued.

Public Records and Archives

The outstanding event during the year was the approval of an addition to the Archives Building. By this, our space will be increased by some seventy per cent. Construction was begun in the autumn of 1956.

MANUSCRIPT DIVISION—GOVERNMENT RECORDS

An examination was made of the records in the following government departments: Lands and Forests, Labour, Highways, and Education. From the Department of Lands and Forests, a valuable collection of Crown Lands Papers was received. From the Department of Labour the general correspondence of the Abitibi Commission, 1925-1946, and the general correspondence of the Minimum Wage Board, 1949-1951, were received. From the Department of Highways eleven volumes of newspaper clippings, 1908-1930, were received. From the Department of Education were received the general files of the Audio-Visual Branch, 1944-1950, as well as records of the Community Programmes Branch.

INVENTORIES

Inventories of the correspondence of Prime Ministers Ross, Whitney, and Hearst (including a complete list of file titles) were completed. The task of processing the records of the old Crown Lands Department, Department of Labour, Department of Education, and the records of the old Newcastle District, has been continued, with the intention of compiling inventories.

MUNICIPAL RECORDS

The original census and assessment rolls of the Newcastle District are too valuable (and too difficult to handle) to be given out for frequent reference. The rolls of two townships, Haldimand and Hamilton, have now been photostated, and

those of the remaining townships have been microfilmed. Many legal documents (indictments, presentments, precepts, licenses, and minutes of quarter sessions) of the old Newcastle District have been laminated to ensure their preservation and are now available to students.

MANUSCRIPT DIVISION—NON-GOVERNMENT RECORDS

During the year 1956 the Archives acquired a variety of individual and small groups of manuscripts including papers (1792-1857) of John Elmsley and John Simcoe Macaulay, some records of the Royal Canadian Institute (1849-1918), and additions to the Edmund Bristol and Percy Robinson papers already in our safe-keeping. Continuing our policy of securing reproductions of certain records in the Public Archives of Canada, we acquired microfilm copies of the Upper Canada State Papers (1791-1841). We also obtained from the University of Rochester and Queen's University, Kingston, photostat copies of several letters written by W. L. Mackenzie. These have been added to our collection of Mackenzie-Lindsey papers.

Considerable progress was made during 1956 in processing three of our largest and most important collections of private manuscripts—the Blake papers, the Mackenzie-Lindsey papers, and the Simcoe papers. One significant accomplishment was the careful identification and mounting of Mrs. Simcoe's sketches. Microfilm copies of large portions of the Blake papers were made for the Public Archives of Canada. In addition to this, the papers of John Elmsley and John Simcoe Macaulay were calendared, and a descriptive list of the Royal Canadian Institute papers was prepared.

THE LIBRARY

All books, pamphlets and government publications received during the year have been catalogued. Two other large collections have been organized and catalogued: the British Parliamentary Papers relating to Canada (Imperial Blue Books), and the early directories of Canada, Ontario, and the counties and cities of Ontario.

NEWSPAPER DIVISION

Many gifts of newspapers were received. Among the more valuable of these were the incomplete files of the following early Kingston papers: *Argus* (1846); *News* (1842-46); *Spectator* (1834-1840); and *Upper Canada Herald* (1823-1840). These papers have now been microfilmed and added to our microfilm collection as was also the *Toronto Nation* (1874-1875).

MAPS AND PICTURES DIVISION

During the year, several early maps were added to the collection: counties of Grey, Carleton, Lambton, and Peterborough; cities of Sault Ste. Marie, Toronto, and Ottawa; town of Collingwood; province of Upper Canada. In addition to these, a number of topographic maps were received from the Dominion Department of Mines and Technical Surveys and from various departments of the Provincial Government.

There were few additions to the picture collection. Mention might be made of the following: a complete set of reproductions of photographs of Prime Ministers of Ontario from 1867 to 1949; five photographs of various places on Manitoulin Island, 1868 to 1904; several reproductions of photographs of Lieutenant-Governors of Ontario which bring this series up to date. A beginning has been made on the work of reorganizing the picture collection.

SERVICES

The number of persons using the facilities of the reading room during 1956 was 1,321 as compared with a total of 1,223 in 1955, an increase of 8%.

A second microfilm reader was purchased during the year and both readers have been used to good advantage.

As in previous years, three cases of documents were sent out during the school year to schools selected by the Secondary School Inspectors' office. These are very much appreciated by the teachers and pupils.

Trade Schools

REGISTRATIONS

Privately-owned trade schools registered with the Department of Education under The Trade Schools Regulation Act, numbered 155 in 1956. There were 27 new schools, or branches of existing schools opened, and 7 schools which did not renew their registration. The increase was most pronounced in the Radio, Electronic and Television field.

The classification of schools may be grouped as follows: Commercial and Business Schools, 92; Electronic, Radio and Television Schools, 30; Machinery and Metal Working Trades, 25; Salesmanship, Public Speaking and Drama, 12; and other courses such as Art, Advertising, Designing and Dressmaking, 25.

Students enrolled are those that are keenly interested in improving their standards of education in specific fields of their choice. There are more than 30,000 students enrolled with an average age of approximately 30. Many are new Canadians.

Ontario School for the Blind

ENROLMENT

The enrolment at the Ontario School for the Blind for the school year 1956-57 was 180. Of these, 13 were from Alberta, 26 from Saskatchewan, 24 from Manitoba, 1 from Quebec, 1 from Peru, and 115 from Ontario. While the number of pupils was unaltered from the previous year, there were changes in the student body; 20 pupils withdrew in June because of graduation or other reasons, and 18 new pupils and 2 former students who had previously withdrawn, enrolled in September.

PROGRAMME

The programme at the School follows the provincial course of study for Grades 1 to 12, and every attempt is made to meet the individual needs of the various students. Special attention is given, also, to the physical, musical, and social development of the pupils. Seven students completed Grade 12 standing in June and qualified for the Secondary School Graduation Diploma. Seven were successful in Music examinations conducted by the Royal Conservatory of Music of Toronto.

CHANGE IN SUPERINTENDENCY

Dr. H. J. Vallentyne, appointed Superintendent of the Ontario School for the Blind in 1935, retired from that position in December, 1955, after 20 years of excellent service. He was succeeded in January, 1956, by S. E. Armstrong, formerly a master on the staff of the Hamilton Teachers' College.

Ontario School for the Deaf

ENROLMENT

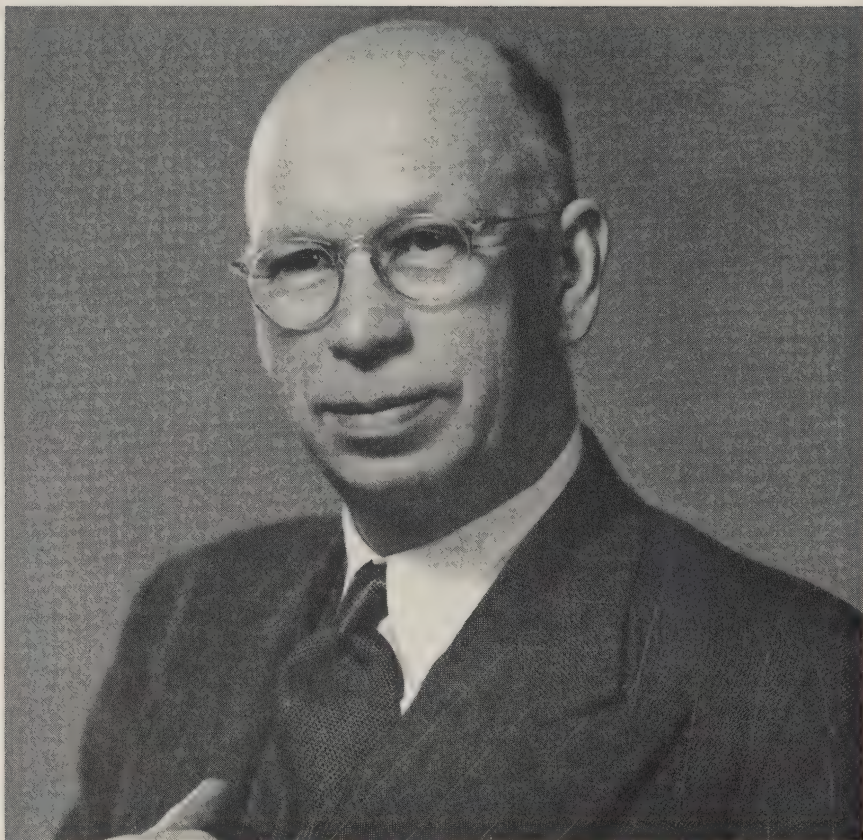

The enrolment of the Ontario School for the Deaf on September 15, 1956, was 381. Most of these pupils were profoundly deaf. Their hearing losses in the better ear, as determined by the use of the pure-tone audiometer, were as

follows: 90-100 decibels, 225 pupils; 80-89 decibels, 45 pupils; 70-79 decibels, 41 pupils; 60-69 decibels, 45 pupils; 50-59 decibels, 20 pupils; 40-49 decibels, 5 pupils. The five pupils with losses under 50 decibels were not only hard-of-hearing but lived in communities where special provision could not be made for their education.

PROGRAMME

Basic academic and vocational training formed the core of the school's programme. Increased emphasis was given to academic subjects during the year, by providing additional time for advanced classes in English and Science. Physical Education and participation in inter-school athletics with secondary schools provided valuable social and physical training. School plays and pageants were presented to large audiences in the school auditorium, and Wolf Cub, Boy Scout, Brownie, Girl Guide, Art Club, and Handicraft Club activities continued to flourish under the leadership of members of the teaching staff.

In Memoriam

JOHN G. ALTHOUSE, M.A., D.Paed., LL.D.
CHIEF DIRECTOR OF EDUCATION, 1943-1956

The death on August 2, 1956 of Dr. J. G. Althouse removed from the educational system of Ontario a leader who had done more for that system than any individual since its founder, Egerton Ryerson.

Born at Ailsa Craig in 1889, he attended public and high schools in London and graduated from the University of Toronto with honours in Classics. He taught at Strathroy and Galt, was principal at Oshawa, and headmaster of the University of Toronto Schools before his appointment as dean of the Ontario College of Education.

As a teacher with sound scholarship, a principal with marked administrative ability, and a dean with a broad outlook on the educational problems of the day, Dr. Althouse brought to the task of advising successive Ministers of Education a keen mind, an unerring skill in assessing all the possibilities of a situation, and an ability to make an immediate decision or to formulate a policy which inevitably proved to be sound and right.

The great expansion of the Ontario school system after 1945, and the modernization of its structure without the sacrifice of any of the fundamental strength of its foundations, is evidence of the contribution which this great public servant made to the cause of education.

ANNE W. CAMERON, M.A., Inspector of Secondary Schools for the Province of Ontario, died on Sunday, June 3, 1956, at Toronto Western Hospital. Miss Cameron obtained her university education at the University of Toronto and Columbia University. She served for four years as Inspector of Home Economics for the Saskatchewan Department of Education. This included two years at the Normal School, Saskatoon. Her secondary school teaching experience in Ontario was obtained at the Arthur Voaden Vocational School, St. Thomas. In 1937 she joined the staff of the Ontario Department of Education, and during the past 19 years made a most valuable contribution to education in the field of Home Economics and Art in this Province.

GEORGE C. DOBSON, B.A., B.Paed., passed away in the Public General Hospital, Chatham, on May 8, 1956. He was born in Essa Township where he secured his elementary education. He attended the Barrie Collegiate Institute and taught school for some years in Western Canada. He graduated with Honours in Mathematics from the University of Toronto and later attended the Faculty of Education. In 1918 he was appointed to the staff of the Sudbury High School. Later, he taught in the secondary schools in Port Colborne, Almonte, and Weston. In 1934, he was appointed Inspector of Public Schools for Bruce West with residence at Kincardine. In 1944, he was transferred to the County of Kent. He retired in 1953 owing to ill health. Mr. Dobson's special interest was the improvement of instruction and under his supervision his schools made good progress.

WESLEY A. FYDELL, B.A., B.Paed., passed away at his home on April 28, 1956. Born in Wellington County, the son of a Methodist minister, he received his elementary education in schools in Grey and Bruce Counties. His secondary education was obtained at Smithville, Chesley, and Owen Sound. Mr. Fydell attended the Hamilton Normal School. He graduated from Queen's University and took post-graduate work at the University of Toronto. He taught in a rural school in Kent County and served as Principal of the Continuation Schools at Elmvale and Wolseley, Sask. In 1909 Mr. Fydell was appointed to the staff of the Toronto Public Schools and served as Assistant Principal of Annette Street School. While Acting Principal of York Street Public School, he enlisted for Active Service in the 67th University Battery in the First World War. On his discharge he was appointed Principal of Runnymede Public School and served until his appointment as Public School Inspector of York, Division 7, on January 1, 1929. He retired on April 5, 1955. Mr. Fydell served the cause of education well. He was held in high esteem by the teachers and pupils and the schools under his supervision made fine progress during his long period of service.

LUCIEN LAPLANTE, M.A., passed away in Hawkesbury on October 18, 1956, following a brief illness. He was 55. He was born in Ste-Clothilde, Quebec, where he attended primary school. He then attended the Ste-Anne de Beaupré High School, the Nicolet College and graduated with a B.A. degree from Laval University in 1924. He joined the teaching staff of the University of Ottawa in 1926. His appointment to the Vankleek Hill High School staff came in 1931. In 1935 he returned to the University of Ottawa as professor and in 1937 was appointed inspector for the Ottawa—North Bay division. He was transferred to Windsor and region in 1938 and in 1945 was returned to North Bay where he remained until his appointment to the Hawkesbury Division. In 1953, Mr. Laplante was elected President of the Eastern Ontario School Inspectors. In the same year, he was awarded "L'Ordre du merite scolaire," a decoration by L'Association canadienne-française d'Education d'Ontario in recognition of his untiring faithfulness to duty. He will be remembered for his jovial disposition, his unrelenting efforts to better bilingual education and his genuine love for the children whom he so ably guided in co-operation with the teachers under his supervision.

HERBERT A. NEWSTEAD, B.A., Director of the Guidance Services Branch of the Department of Education, died on June 15, 1956. Mr. Newstead was born in Waterloo County, where he received his early education. He graduated from

Queen's University and received his professional education at the Toronto Normal School and the Ontario College of Education. Following eleven years as a classroom teacher and counsellor in the elementary and secondary schools in Guelph and district, he served as Director of Guidance at the Guelph Collegiate and Vocational Institute for two years. In January, 1948, he was appointed Assistant Director of Guidance Services, Department of Education, and in 1953 he became Director, a position which he held until his death.

As President of the Personnel and Guidance Section of the Ontario Education Association, as an Inspector and Director of Guidance Services in the schools of Ontario, as a lecturer and Principal of the summer courses in Guidance, he made a valuable contribution to education in Ontario. His qualities of leadership were recognized by his fellow members of the National Vocational Guidance Association who elected him to their Board of Trustees and to the chairmanship of their Constitution Committee. He served for three years with the Royal Canadian Air Force as navigator during World War II.

JOHN C. WALSH, B.A., B.Paed., who retired as Assistant Superintendent of Elementary Education on September 1, 1954, died on March 4, 1956, in St. Joseph's Hospital, Toronto. Mr. Walsh, who lived at 70 Lyngrove Avenue, Toronto, was born in Read near Belleville. He received his elementary education in Hastings County and his secondary education at Regiopolis College, Kingston. In 1905 he was graduated from the University of Ottawa and attended the Hamilton Normal School the following year. He taught at Gananoque, Plantagenet and Rockland High Schools, being Principal of the latter two schools. In 1917 Mr. Walsh was appointed Inspector of English-French schools under the Ontario Department of Education. In 1927 he was appointed Inspector of Separate Schools, Kitchener, for the Counties of Brant, Grey, Waterloo, and Wellington. He obtained a post-graduate degree of Bachelor of Pedagogy from the University of Toronto in 1925. Mr. Walsh served as President of the Ontario Educational Association for the year 1946-47. In 1944 he was appointed Assistant Superintendent of Elementary Education and continued in that position until his retirement in 1954. As a teacher and administrator, Mr. Walsh served education well, and many inspectors and teachers will long remember him for his wise counsel and sympathetic guidance.

Retirements

LEWIS S. BEATTIE, B.A., LL.D., who retired as Superintendent of Secondary Education on August 31, 1956, was born in Oxford County and obtained his elementary and secondary education in the schools in that county. He is a graduate in Arts from Queen's University where he majored in general science subjects. He received his High School Assistant's and First Class Certificates from the Faculty of Education, University of Toronto, and, in addition, holds Specialist's Certificates in Physical Education and Commercial subjects. Dr. Beattie began his teaching in the Norwich Continuation School and, after a short time, was appointed to the principalship of the Gore Bay Continuation and Public School. In 1910 he went to the Brockville Collegiate Institute as Science teacher and Director of Physical Education and later became head of the Commercial Department. From 1914 to 1927 he was a member of the Brockville Rifles, obtaining the rank of Captain and serving as Adjutant. In 1927 he became Principal of the Napanee Collegiate Institute where he established a Vocational Commercial Department. Dr. Beattie was appointed Provincial Inspector of general and commercial subjects for Vocational Schools in 1929 and was responsible for a complete revision of the courses of study. He became a Secondary School Inspector in 1936 and in 1946 was appointed Director of Vocational Education for Ontario, a position he held until his appointment in 1952 as Superintendent of Secondary Education. He always maintained a close association with business and frequently addressed conferences and local chapters of the National Office Management Association in Canada and the United States. He is the co-author of text-books on Business

Education and Record Keeping and has written numerous articles for educational and business periodicals. In 1954 Queen's University honoured him by conferring upon him the LL.D. degree in recognition of his years of distinguished service as a leader in education.

A. J. BÉNÉTEAU, M.A., Ph.D., retired as Master, University of Ottawa Teachers' College, on August 31, 1956. Born at Rivière aux Canards, Dr. Bénéteau attended the local elementary school and Sandwich Collegiate Institute. Graduating from Queen's University with the B.A. degree, he later qualified for the M.A. and Ph.D. degrees from the University of Ottawa. After experience as an elementary-school teacher and as a member of the staff of the Sandwich Model School, he was appointed in 1925 as a secretary to the Committee of Enquiry which was studying the question of language instruction in schools attended by French-speaking pupils. Two years later, he became Director of French Instruction for schools in which French is a subject of instruction with the approval of the Minister. In 1937, he was appointed Master at the University of Ottawa Teachers' College. As a class-room instructor, as an official of the Department of Education, and as a teacher of teachers, Dr. Bénéteau made a contribution of lasting influence to the schools of the Province. His scholarship, instructional skill, quiet humour, and devotion to duty will long be recalled with respect and affection by his former students and associates.

CHARLES-AUGUSTE LATOUR, B.A., Inspector of Separate Schools for Ottawa Division No. 2, retired on August 31, 1956. Mr. Latour was born on July 21, 1886 at Ste-Elisabeth, a village neighbouring Joliette, in the Province of Quebec. He received his elementary education in a rural school of Ste-Elisabeth and his secondary education at Joliette Seminary from where he graduated in 1909. At the Ottawa Teachers' College, he obtained a Second Class Certificate in 1913, and one year later, the First Class and High School Assistant's certificates from the Faculty of Education at Queen's University, Kingston. After teaching at the Guigues Separate School, Ottawa, for a year, he was employed at Lisgar Collegiate of the same city for a period of 13 years. In 1927, he was appointed Separate School Inspector for the City of Ottawa, a position which he held until his retirement. Though his duties as Inspector kept him very busy, he taught courses for ten summers to French-speaking teachers at Halifax, Nova Scotia. As a teacher and supervisor, Mr. Latour has served education well. His former colleagues both in the field and in the Department join with his many friends in wishing him many years of enjoyable leisure time.

GEORGE M. MATHER, B.A., Inspector of Public Schools for Oxford North and the City of Woodstock, retired on August 31, 1956. Mr. Mather was born in the Township of Otonabee. He received his elementary education in the Mather's Corners Public School and his secondary education in the Peterborough Collegiate Institute. He attended the Peterborough Normal School. Mr. Mather graduated from Queen's University in 1926 with honours in English and History. He taught for four years in S.S. 2 Otonabee and was Principal of Cobden Public School, January, 1917, to June, 1918. He served for one and one-half years on the Soldiers' Aid Commission of Ontario in Ottawa. He taught in the Woodstock Public Schools, September, 1920, to March, 1929, when he was appointed Inspector of Public Schools for Oxford North and the City of Woodstock, a position he held with distinction until his retirement.

J. LINDSAY McCULLOUGH, B.A., B.Paed., Assistant Superintendent of Public Schools, Toronto Board of Education, retired on July 31, 1956. He was born in Guelph where he received his public and secondary school education. Upon graduation from the Ontario College of Education, he taught for one year in Brockville before joining the Toronto staff in September, 1910. After serving as assistant master in Manning Public School, he was promoted to the Principalship of York Public School in 1923. He later served as Principal of McCaul, Clinton, and Park Public Schools. In September, 1937, he became Inspector of Public Schools for the City of Toronto. In August, 1954, he was appointed Assistant Superintendent

of Public Schools for the Toronto Board of Education. Mr. McCullough was always a keen student of education and during his busy life he received his Bachelor of Arts degree from Queen's University and his Bachelor of Pedagogy degree from the University of Toronto. During World War I he was overseas for three years, 1915-18. He was badly wounded at Passchendaele. Mr. McCullough is known as the "Father" of the Toronto and District Reading Council which he organized. Among his hobbies he lists gardening, music, bridge, golf, and travelling.

CARMAN E. STOTHERS, B.A., D.Paed., retired from service with the Ontario Department of Education on August 31, 1956. He was on loan to the University of Toronto since 1955 as instructor in Elementary Education at the Ontario College of Education. Dr. Stothers was born and educated in Ontario. His teacher education was obtained at the Faculty of Education in Toronto. He graduated from Queen's University and the University of Toronto. Dr. Stothers taught for nine years in Toronto and served as Inspector of Public Schools for twelve years in Prince Edward County before his appointment as Inspector of Auxiliary Classes, Department of Education, and later as Director of Auxiliary Classes. He gave valuable service in the field of special education for more than fifteen years.

Dr. Stothers served overseas in the First World War. He is author, joint author and editor of many pamphlets and books. In 1955 the V. K. Greer Memorial Award was granted to Dr. Stothers in recognition of the work done in special classes in the province. In his retirement he continues with his work of helping exceptional children as President of The Stothers Exceptional Child Foundation, incorporated on April 18, 1956.

THOMAS J. THOMPSON, B.A., was forced to retire on March 31, 1956, owing to ill health. He was born in Kagawong, Manitoulin Island, and attended public school in S. S. 1 Billings. His secondary education was obtained at Gore Bay High School and the Sault Ste. Marie Collegiate Institute. On completing his senior matriculation in 1920, he attended the London Normal School. In 1921 he was appointed to the staff of the Ealing Public School, London. Later he served as Principal of Rectory and Governor Simcoe Public Schools. Mr. Thompson graduated from Queen's University and did postgraduate work at the University of Toronto. In September, 1938, he was appointed Public School Inspector to Frontenac and North Hastings. He later served as Inspector in Lambton East and Oxford South. Mr. Thompson's untimely and unfortunate retirement has taken from the Province the inspectorial services of a keen thinker, a brilliant mind, and a fine gentleman.

J. FRED UFFEN, who entered the Ontario Department of Education as a Clerk in April, 1920, retired as an Executive Assistant on October 31, 1955, after 35 years of unique and outstandingly effective service. Mr. Uffen was educated in England. Shortly after his arrival in Canada, he became secretary to Newton W. Rowell and worked for him both when he was Leader of the Opposition in the Ontario Legislature, and when he went to Ottawa during the First World War. Mr. Uffen, besides having expert skill in shorthand and a working knowledge of both French and German, possessed, in a notable degree, a clear and logical mind. It was almost inevitable, therefore, that he should eventually be given heavy responsibilities in the drafting of regulations and other educational legislation. He also gave outstanding service in the setting up of the Vocational Education Branch and in the formulation of the agreements between this Province and the Dominion, which formed the basis for the development of the Vocational Education programme in Ontario.

HARRY J. VALLENTYNE, M.A., LL.D., Superintendent and Principal of the Ontario School for the Blind at Brantford, retired on December 31, 1955. Born in Toronto, Dr. Vallentyne received his secondary school education in Port Perry where he began his teaching career. From 1916 to 1918, he served overseas with the Canadian Artillery and, on return from active service, obtained his B.A. degree from Queen's University. He later qualified for the M.A. degree from the University

of Toronto. Following service in the public school system of Toronto as teacher, principal, and inspector, he assisted for one year on loan as a Master at the Toronto Normal School. In 1935, he was appointed Superintendent and Principal of the Ontario School for the Blind. An educational leader of outstanding ability, Dr. Vallentyne introduced a number of changes at the school. The programme of studies was extended to include the work of Grades 9 to 12, and activities related to the physical and social development of the pupils were encouraged. With a firm belief that every child should realize his own best self, Dr. Vallentyne set standards high; yet, his office door was always open to the child who needed his counsel and help. His educational achievements were recognized by Queen's University in 1956 when it conferred upon him the LL.D. degree. His former associates in the Department of Education and graduates of the School join in wishing him happy leisure in the years ahead.

GEOFFREY A. WHEABLE, B.A., LL.D., Director of Education for the City of London, retired on June 30, 1956. His 44 years of service in education were spent in his native City of London where he began as a teacher in Chesley Avenue Public School in September, 1912. From December, 1915, to September, 1918, he was overseas with the Canadian Army. He was awarded the Military Cross in 1917. On his return from overseas, Dr. Wheable secured his B.A. degree from Queen's University. In June, 1944, the University of Western Ontario conferred on him the LL.D. degree. Dr. Wheable served as Principal of Empress Avenue Public School. In January, 1922, he was appointed Inspector of Public Schools. In May, 1925, he became Chief Inspector of Public Schools and Inspector-Administrator. In October, 1935, he was appointed Superintendent of Schools and in September, 1955, he became Director of Education. Although Dr. Wheable's experience in education was in the City of London, he was active in many provincial and national organizations.

Service Record

DIED IN SERVICE

- Dr. J. G. Althouse.....Chief Director of Education, August 2, 1956.
- Anne W. Cameron.....Secondary School Inspector, Secondary Education Branch, June 3, 1956.
- L. LaPlante.....Elementary School Inspector, Elementary Education Branch, October 18, 1956.
- H. A. Newstead.....Director of Guidance Services, June 15, 1956.

RETIREMENTS ON SUPERANNUATION

- Dr. L. S. Beattie.....Superintendent, Secondary Education Branch, September 1, 1956.
- A. J. Bénéteau.....Master, University of Ottawa Teachers' College, September 1, 1956.
- C. A. Latour.....Elementary School Inspector, Elementary Education Branch, September 1, 1956.
- G. M. Mather.....Elementary School Inspector, Elementary Education Branch, September 1, 1956.
- Dr. C. E. Stothers.....Director, Auxiliary Education Branch, September 1, 1956.

- J. F. Uffen.....Executive Officer, Secondary Education Branch,
October 31, 1956.
- Dr. H. J. Vallentyne.....Superintendent and Principal, Ontario School for the
Blind, January 1, 1956.

RESIGNATIONS

- Dr. C. M. Elliott.....Elementary School Inspector, Elementary Education
Branch, resigned on July 31, 1956.
- C. L. Emery.....Principal, Provincial Institute of Trades, resigned
August 31, 1956.
- J. N. Given.....Elementary School Inspector, Elementary Education
Branch, resigned August 31, 1956.
- A. A. James.....Elementary School Inspector, Elementary Education
Branch, resigned August 31, 1956.
- C. E. Potts.....Master, Peterborough Teachers' College, resigned
August 31, 1956.
- Sister St. Paul.....Master, University of Ottawa Teachers' College,
resigned March 2, 1956.

TRANSFERS

- D. W. Burns.....Instructor, Hamilton Teachers' College from Instructor,
Toronto Teachers' College, September 1, 1956.
- Dr. L. Carrierre.....Separate School Inspector, Ottawa Separate School
Division No. 1 (assisting) from Cornwall Separate
School Division, September 1, 1956.
- H. W. Cyr.....Separate School Inspector, Cornwall Separate School
Division from Timmins Separate School Division,
September 1, 1956.
- E. C. Evans.....Public School Inspector, Kent No. 1 from Bruce No. 1,
September 1, 1956.
- C. A. Holmes.....Public School Inspector, Durham No. 2 from Grenville
No. 1, September 1, 1956.
- Mrs. L. E. Jones.....Master, Toronto Teachers' College from Master, London
Teachers' College, September 1, 1956.
- D. S. Lawless.....Public School Inspector, Norfolk No. 2 from Norfolk
No. 1, September 1, 1956.
- R. H. Macklem.....Public School Inspector, Simcoe No. 7 from Hastings
No. 2, September 1, 1956.
- C. E. McMullen.....Public School Inspector, Hastings No. 5 and North-
umberland No. 4 from Stormont No. 1 and City of
Cornwall, September 1, 1956.
- Dr. R. Millette.....Separate School Inspector, Ottawa Separate School
Division No. 1 (assisting) from Alexandria Sepa-
rate School Division, September 1, 1956.
- N. Muir.....Public School Inspector, Peel No. 1 from Rainy River
No. 1, September 1, 1956.
- G. N. Nobes.....Public School Inspector, Lanark No. 2 and Carleton
No. 2 from Carleton No. 1, Prescott No. 1, and
Russell No. 1, September 1, 1956.

- L. G. Queen.....Special Services Inspector, Music Branch from Master, London Teachers' College, September 1, 1956.
- A. P. Silcox.....Public School Inspector, Oxford No. 2 from Master, Ottawa Teachers' College, September 1, 1956.
- A. W. Smith.....Public School Inspector, Bruce No. 2 and Grey No. 5 from Hastings No. 1, Nipissing No. 4 and Renfrew No. 4, September 1, 1956.
- P. H. Torrance.....Public School Inspector, Stormont No. 2 and Glengarry No. 2 from Glengarry No. 1 and Prescott No. 2, September 1, 1956.
- E. R. Underhill.....Public School Inspector, Peel No. 3 from Peel No. 1, September 1, 1956.
- E. J. D. Webster.....Public School Inspector, Welland No. 7 and Lincoln No. 4 from Durham No. 1 and City of Oshawa, September 1, 1956.

PROMOTIONS

- S. E. Armstrong.....Superintendent and Principal, Ontario School for the Blind, formerly Master, Hamilton Teachers' College, January 1, 1956.
- F. C. Asbury.....Assistant Superintendent, Secondary Education Branch, formerly Secondary School Inspector, November 1, 1956.
- H. R. Beattie.....Superintendent, Special Services, formerly Assistant Superintendent, Elementary and Secondary Education, November 1, 1956.
- C. W. Booth.....Deputy Minister, formerly Assistant Superintendent, Secondary Education Branch, November 1, 1956.
- C. F. Cannon.....Chief Director of Education, formerly Deputy Minister, November 1, 1956.
- E. J. Davies.....Assistant Superintendent, Secondary Education Branch, formerly Secondary School Inspector, February 1, 1956.
- G. O. Dickinson.....Acting Principal, London Teachers' College, formerly Master, Hamilton Teachers' College, December 1, 1956.
- H. E. Elborn.....Superintendent, Teacher Education Branch, formerly Assistant Superintendent, Teacher Education Branch, November 1, 1956.
- J. B. Healy.....Assistant Superintendent, Teacher Education Branch, from Principal, London Teachers' College, December 1, 1956.

Accountant, April 1, 1956.
- W. R. Stewart.....Assistant Superintendent, Secondary Education Branch,
formerly Secondary School Inspector, November 1,
1956.
- S. A. Watson.....Superintendent, Curriculum and Text-Books Branch,
formerly Assistant Superintendent, Elementary
Education Branch, November 1, 1956..
- G. L. Woodruff.....Assistant Superintendent, Teacher Education Branch,
formerly Principal, Hamilton Teachers' College,
December 1, 1956.

APPOINTMENTS

(A) By Boards which employ their own supervisory officers:

City of London

- Dr. A. B. Lucas, Director of Education, July 1, 1956.
W. D. Sutton, Superintendent of Public Schools, July 1, 1956.
J. N. Given, Public School Inspector, September 1, 1956.
A. G. McColl, Superintendent of Secondary Education, January 1, 1956.

City of Oshawa

- Dr. C. M. Elliott, Superintendent of Public Schools, August 1, 1956.

City of Peterborough

- J. G. Nichols, Public School Inspector, August 20, 1956.

City of St. Catharines

- C. E. Potts, Public School Inspector, August 27, 1956.

City of Toronto

- M. K. MacDonald, Public School Inspector, January 3, 1956.
J. M. McEachern, Public School Inspector, July 1, 1956.
W. McKay, Assistant Superintendent of Public Schools, August 1, 1956.
D. Mewhort, Public School Inspector, July 1, 1956.

Toronto Metropolitan Area (North York)

- Dr. H. R. Partlow, Superintendent of Public Schools, August 1, 1956.
D. L. Tough, Superintendent of Secondary Education, January 1, 1956.

Toronto Metropolitan Area (Scarborough)

- L. A. Code, Public School Inspector, September 1, 1956.
A. E. Robinson, Superintendent of Secondary Education, May 1, 1956.

APPOINTMENTS

(B) Provincial Staff of Inspectors:

P. C. Anderson, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Rainy River No. 1.

J. H. Bates, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Hastings No. 1 and Nipissing No. 4.

Miss Y. Bénéteau, Master, University of Ottawa Teachers' College, September 1, 1956.

A. W. Bishop, Secondary School Inspector, Secondary Education Branch, December 1, 1956.

L. L. Charette, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Hearst Separate School Division and Thunder Bay No. 11.

W. K. Clarke, Special Services Inspector, Auxiliary Education Branch, August 27, 1956.

L. H. Coneybeare, Master, Peterborough Teachers' College, September 1, 1956.

H. R. Cross, Master, Toronto Teachers' College, September 1, 1956.

J. A. A. Deschamps, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Alexandria Separate School Division and Glengarry No. 11.

Dr. L. Desjarlais, Master, University of Ottawa Teachers' College, September 1, 1956.

J. L. Duchesneau, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Timmins Separate School Division and Cochrane No. 12.

L. R. Duncan, Master, Toronto Teachers' College, September 1, 1956.

L. J. Dupuis, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Ottawa Separate School Division No. 2 (assisting).

G. D. Dwyer, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate St. Catharines Separate School Division.

Dr. W. P. Ferguson, Principal, Provincial Institute of Trades, September 24, 1956.

Miss H. Fletcher, Master, Stratford Teachers' College, September 1, 1956.

T. J. Heath, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Frontenac No. 3 and Lennox No. 2.

W. S. Hougham, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Bruce No. 1 (assisting).

F. W. Hyder, Master, Hamilton Teachers' College, September 1, 1956.

E. F. Jordan, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Halton No. 1 (assisting).

A. E. Kelley, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Stormont No. 1 and City of Cornwall.

W. H. Knisley, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Grenville No. 1.

Mrs. M. H. Lee, Master, Toronto Teachers' College, September 1, 1956.

J. H. Lennon, Master, London Teachers' College, September 1, 1956.

J. L. MacDowell, Master, London Teachers' College, September 1, 1956.

L. J. MacLachlan, Master, Ottawa Teachers' College, September 1, 1956.

R. A. Madeley, Master, Toronto Teachers' College, September 1, 1956.

J. A. McKeown, Master, London Teachers' College, September 1, 1956.

W. H. Morris, Master, Peterborough Teachers' College, September 1, 1956.

Miss M. I. Mustard, Secondary School Inspector, Secondary Education Branch, September 1, 1956.

C. W. Ogden, Master, Ottawa Teachers' College, September 1, 1956.

M. E. Porte, Master, London Teachers' College, September 1, 1956.

G. F. Ross, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Sudbury No. 2.

H. G. Schlotzhauer, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Middlesex No. 1 and Middlesex No. 2 (assisting).

J. J. Schneckenburger, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Sarnia Separate School Division.

Sister Marie de l'Esperance, Master, University of Ottawa Teachers' College, September 1, 1956.

D. Steinhauer, Secondary School Inspector, Secondary Education Branch, December 1, 1956.

E. E. Stewart, Master, Toronto Teachers' College, September 1, 1956.

A. Stuart, Master, Ottawa Teachers' College, September 1, 1956.

C. W. F. Thom, Master, Toronto Teachers' College, September 1, 1956.

W. T. Townshend, Master, London Teachers' College, September 1, 1956.

Dr. W. S. Turner, Secondary School Inspector, Secondary Education Branch, August 1, 1956.

H. L. Welch, Elementary School Inspector, Elementary Education Branch, September 1, 1956, Inspectorate Glengarry No. 1 and Prescott No. 1.

D. J. Wilson, Secondary School Inspector, Secondary Education Branch, August 1, 1956.

STATISTICS

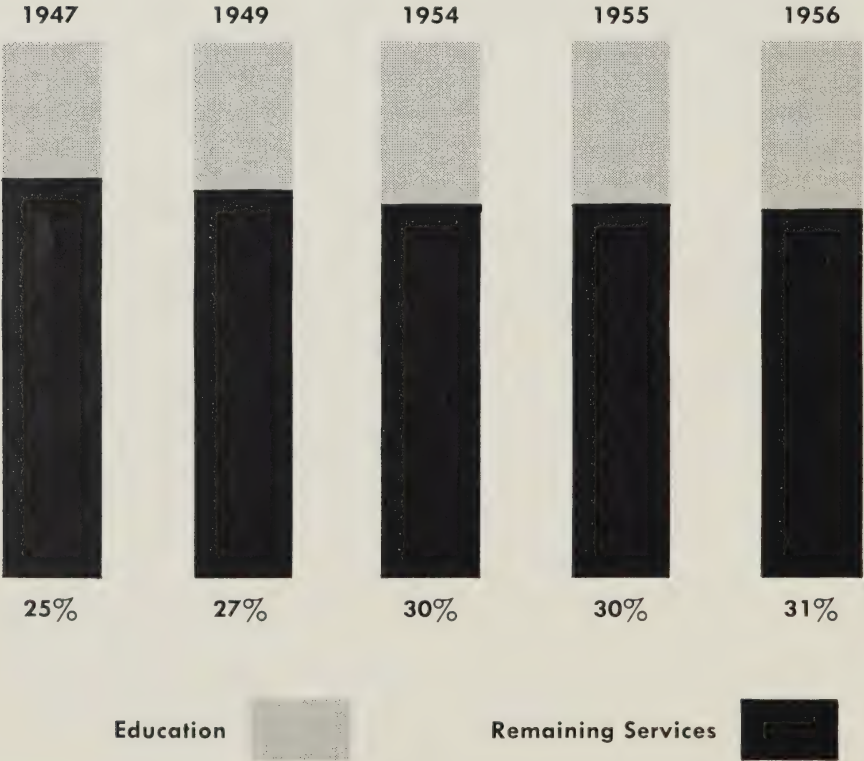

1. General

CHART 1. EDUCATION IN RELATION TO OTHER MUNICIPAL SERVICES

INCREASE IN EXPENDITURES, 1947-1956
(1947—100)

EXPENDITURE	1947	1949	1954	1955	1956
Education Levies, including debt charges.....	100.0	133.1	274.1	307.4	359.2
Remaining Municipal Services*.....	100.0	124.7	215.0	240.8	268.2
Municipal Taxation per Capita for Education.....	\$12	\$15	\$25	\$28	\$32

*The larger of these are: Public works; protection to persons and property; debenture principal and interest; general government; social welfare; sanitation and waste removal; conservation of health; recreation and community services.

Notes: 1. Enrolment increases are calculated on September enrolments.

2. Building projects are counted in the year of completion.

3. No account is taken in this table of pupil-places lost as a result of the following factors; shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.

TABLE 25—ELEMENTARY SCHOOL ENROLMENT
(Continuous Record from September, 1955 to September, 1956)

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1955..... **863,614**

ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:

(a) Beginners: pupils whose names were entered on the roll of a public or separate school for the first time.....	124,289
(b) Pupils enrolled previously in another public or separate school in Ontario.....	195,015
(c) Pupils entering from private schools.....	1,332
(d) Pupils re-entering this school after at least one year's non-attendance at any school.....	353
(e) Pupils from outside Ontario.....	21,357

TOTAL ADMISSIONS..... **342,346**

TOTAL, SEPTEMBER ENROLMENT AND ADMISSIONS..... **1,205,960**

TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER..... **261,621**

RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:

(a) Left Ontario.....	12,257
(b) To Private Schools.....	5,123
(c) Died.....	340
(d) Health reasons.....	1,346
(e) Ceased to attend school (other than in (a), (b), (c), or (d)).	13,377

TOTAL RETIREMENTS..... **32,443**

TOTAL TRANSFERS AND RETIREMENTS..... **294,064**

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1956..... **911,896**

TABLE 33—PUBLIC SCHOOL ENROLMENT

(Continuous Record from September, 1955 to September, 1956)

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1955..... 676,246

ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:

(a) Beginners: pupils whose names were entered on the roll of a public school for the first time.....	96,291
(b) Pupils enrolled previously in another public or separate school in Ontario.....	152,147
(c) Pupils entering from private schools.....	571
(d) Pupils re-entering this school after at least one year's non-attendance at any school.....	226
(e) Pupils from outside Ontario.....	16,369

TOTAL ADMISSIONS..... 265,604

TOTAL, SEPTEMBER ENROLMENT AND ADMISSIONS..... 941,850

TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER..... 215,029

RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:

(a) Left Ontario.....	10,044
(b) To private schools.....	1,212
(c) Died.....	260
(d) Health reasons.....	826
(e) Ceased to attend school (other than in (a), (b), (c), or (d)).	8,160

TOTAL RETIREMENTS..... 20,502

TOTAL TRANSFERS AND RETIREMENTS..... 235,531

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1956..... 706,319

TABLE 70—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN THE
TERRITORIAL DISTRICTS
1956-57

The Province of Ontario provided transportation assistance to 646 students during the school year 1956-1957. \$14,044.70 was paid to 430 students residing east of Sault Ste. Marie and 216 students residing west of Sault Ste. Marie. Of those assisted 206 were in the first year, 179 in the second year, 164 in the third year, 90 in the fourth year, 2 in the fifth year and 5 in the sixth year.

The institutions attended by these students were as follows:

Queen's University	225
University of Toronto	157
University of Western Ontario	113
University of Ottawa	43
Assumption College	27
Osgoode Hall Law School	27
Ontario College of Education	17
Ontario Agricultural College	15
MacDonald Institute	9
McMaster University	4
Sacred Heart College	4
Ontario College of Art	3
Ontario Veterinary College	2
	646
